Brief Report on Curriculum Implementation Support Program II (CISP-2) in Medical Education Technology

The Medical Education Unit of Santosh Medical College organised its second **Curriculum Implementation Support Program in Medical Education Technology on 23rd-24th September 2020**, under the aegis of our Regional Centre, MAMC, New Delhi. Dr Sreenivas M, Convener, Department of Medical Education, MAMC was the MCI Observer for the workshop.

The curriculum committee members (**Dr. Dakshina Bisht- Dept of Microbiology, Dr. Alka Agarwal- Dept. of Paediatrics, Dr. Yogesh Yadav- Dept. of Anatomy, Dr Shalabh Gupta-, Dept. of Surgery**) along with resource faculty (**Dr Manisha Gupta- Professor OBG, Dr Veenu Agarwal- Professor Paediatrics, Dr Shivani Bansal- Professor Medicine,**) successfully completed the CISP workshop. There were 18 sessions in the CISP programme covering all the topics as per the format of the Medical Council of India. The 2 days schedule was distributed to all faculty members along with all related resource material. The various speakers discussed their topics and finalized the content, duration, handouts, role play and group activities for the participants.

Faculty from Preclinical, Paraclinical, Medicine & Allied and Surgery & Allied branches were selected prior to the workshop and 22 Faculty members registered and attended the workshop. The participants were divided in to five groups for various activities.

The focus of the academic program began by **Dr. Dakshina Bisht**, MEU Coordinator, who briefed all the participants **about the two days** workshop and stressed upon the importance of competency based medical education (CBME). All the sessions were highly informative and appreciated by the participants and the MCI Observer keenly gave his expertise and shared teaching learning experience with the participants. The participants especially enthusiastically worked on the group activities which involved roles plays small group discussions etc. The group activities were planned in such a manner that linking of the goals to competency based education, along with specific learning objectives, teaching learning methods and assessment was achieved. Each day ended with feedback on the sessions conducted during that day. The participants filled the required forms.

Many participants spoke about their experiences and gave constructive feedback. The participants appreciated the workshop and assured that they would implement

what they learnt from various sessions. The Pre test and Post test were assessed by the participants using evaluation forms from the MCI.

The team work and spirit of the MEU in organising the workshop within a short timeframe during the pandemic was appreciated by all the participants.
