## DEPARTMENT OF PATHOLOGY

### Event Report

#### Summary of the Program with details

Santosh Deemed to be university organized a National Health Skill Conclave on 2 November 2022, the department of pathology organized a hand on skill station on Blood grouping for the undergraduate students.

The purpose of the skills lab was to provide a safe environment for students to learn, practice and be observed performing skills in a simulated environment thus mitigating the risks involved in direct patient exposure without adequate preparation and supervision .Small group demonstration and skill performance allows close monitoring of students and an objective assessment of skill acquisition.

#### Execution:

Skill-Knowledge about blood and blood grouping is considered essential not only for medical professionals but also for the technical staffs working in clinical laboratories and blood centres. Considering this aim, Dr Mayurika Tyagi , Associate Professor Pathology, explained the importance of blood grouping and enumerated the practical points to keep in mind. Dr Mayurika Tyagi, Associate Professor, Pathology took a lecture and the various methods of Blood Grouping were demonstrated by the faculty of Pathology Department .

The activity was conducted in small groups and 20 MBBS students, Post Graduates and medical lab technicians participated in this and thoroughly understood the concept of blood grouping by doing it personally using different methods .

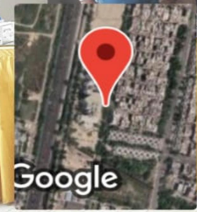

#### Tangible Outcomes

Mentorship, Skilled presentation and discussion with a good deal of student participation and thought provocation made this activity effective.

## Skill Conclave 2022 Intra Oral Scanning- Hands on (Duration: 12:00 pm to 01:00 pm)

Date - 11.02.2022

**Preface:** Over the past decade, new technology has developed rapidly, revolutionizing the world of dentistry. The use of intraoral scanners in the field of dentistry enables better patient education, improved esthetic quality, increased patient comfort, and reduces the need for time-consuming impressions.

**Objectives:** To give Hand on experience to students in Intra-oral scanning

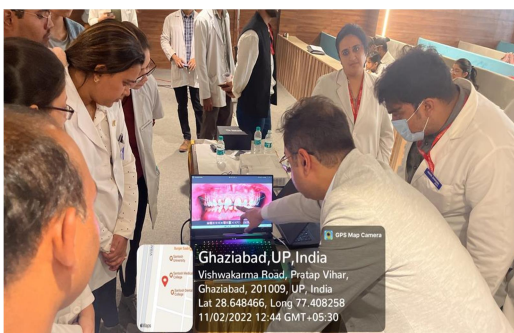

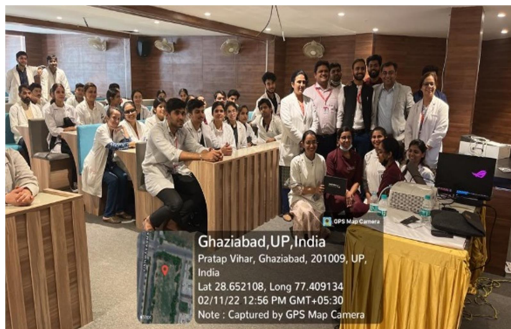

**Execution:** A hands-on activity was arranged in association with Saturn Aligners. The program began with a brief discussion of intra oral scanning. Following this demonstration of intraoral scanning was given on a patient. Technical aspects of the software were explained. Then students were given hands-on experience of intra-oral scanning.

**Outcomes:**

Number of students participated: 96

Number of teachers participated: 4

Geotagged Photographs.

## Report on participation by the department of Respiratory medicine, Santosh medical college and hospital in the National health skills conclave-22

2nd November 2022.

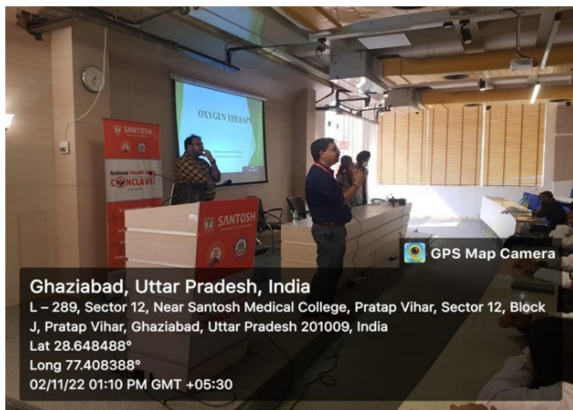

On 2nd November 2022, Wednesday the respiratory medicine department conducted a workshop via the courtesy of Dr. Manish K. Sharma on oxygen therapy in NHSCE 2022. The aim of the workshop was to put forward the basics of O<sub>2</sub> therapy, what devices are available for oxygen supplementation and which one is better suitable in different patients.

There were 4 interactive stations in which the UG (MBBS) students took part in a decent number in the groups of 20 each in rotation every 15 minutes.

Station 1 was head by Dr. Prekshy (JR2) and Dr. Swati (JR1) on the topic assessing the need of oxygen therapy by nasal prongs and face mask.

Station 2 was head by Dr. Raman (JR1) on the indications of Venturi mask and high flow NRBM.

Station 3 was head by Dr. Pooja (JR3) and station 4 was head by Dr. Eshutosh (JR3), both of these stations were on the topic BiPap, it's different parts, indications and contraindications.

## Report of National Health Skill Conclave-22

Occupational Therapy: HALL-E, 1pm to 2pm:

Topic of Conclave: Hand Splint - Orthosis

Name of the Resource: Prof. Dr. R K Sharma

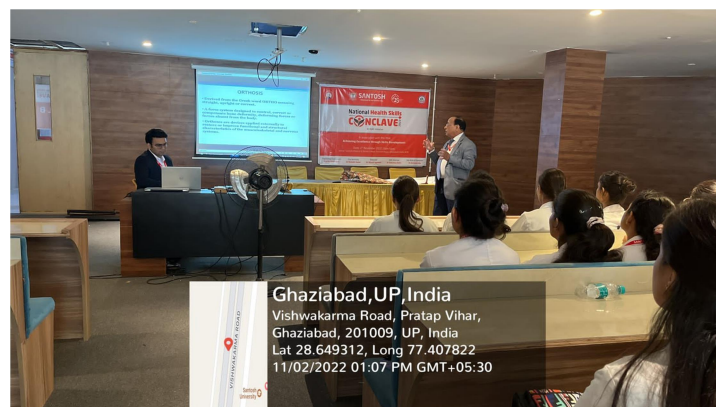

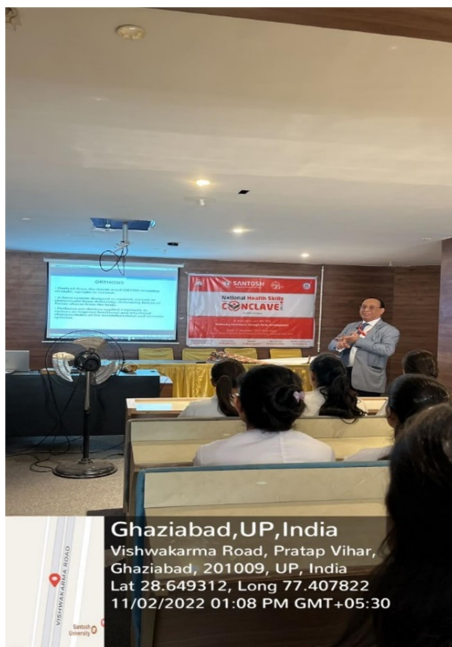

Designation: Dean Paramedical & Allied Health Sciences Principal Santosh

Occupational Therapy College.

**Report:** The workshop is a hands-on event where students got to an excellent opportunity to learn about hand splint and orthosis. In this program participants were provided by a basic understanding of orthosis, types of orthoses, function of orthosis, basic principles of orthosis, application of orthosis, functional anatomy, different splint according to condition. Further practical exposers had been provided to participants. The whole program was dynamic and interactive. There is a Question answer session between resource person and participant at the end of the session

### Key Features:

1. Principals of Orthosis
2. Types of Hand Orthoses
3. Management through Hand Orthosis
4. Photographs and Videos of different Orthosis

## NATIONAL HEALTH SKILLS CONCLAVE-22

Name of the skill: Mantoux test

Department: Microbiology

Faculty coordinators: Dr. Ashutosh Rawat, Dr. Ankita Gupta, Dr. Geeta Gupta

Details of skill:

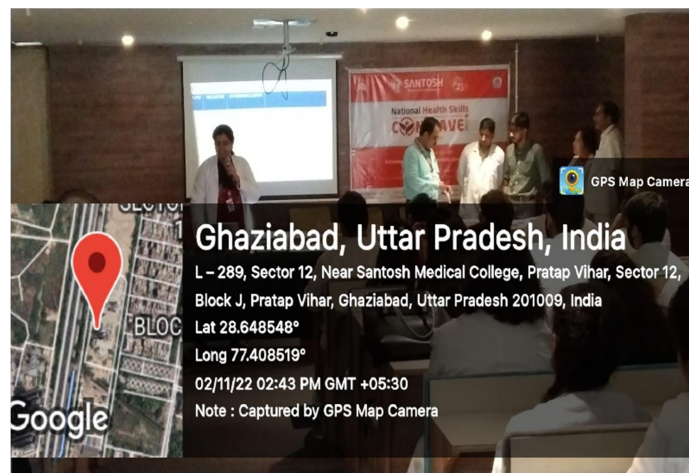

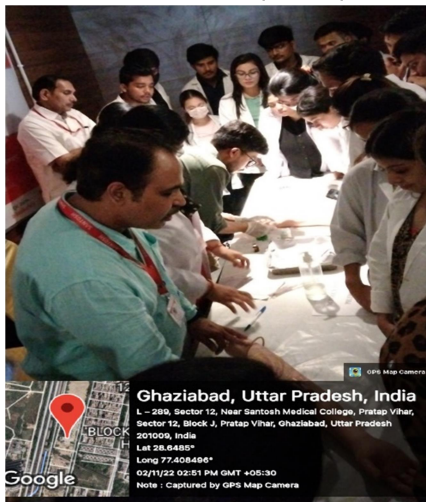

Mantoux test, also known as Tuberculin skin test is a tool for screening tuberculosis and for tuberculosis diagnosis. The skill programme was attended by undergraduate students of medical college, paramedical and postgraduate dental college students. Under this activity the skill was demonstrated under three sections:

- Administration of Mantoux test
- Reading of results
- Interpretation of Mantoux test

The preparation steps included collecting of supplies, providing patient education, washing hands, locating and cleaning the injection site, and preparing the syringe. When preparing to administer the Mantoux tuberculin skin test, the area for administering the test should have a firm, well-lit surface, and that equipment and supplies should be ready. Supplies should include a vial of tuberculin, a single-dose disposable tuberculin syringe, a ruler with millimeter (mm) measurements, 2x2 gauze pads or cotton balls, alcohol swabs, a puncture resistant sharps disposal container, record-keeping forms for the patient and provider, and a pen. The tuberculin is administered using a single-dose disposable tuberculin syringe that has a one quarter to one-half inch, 27-gauge needle with a short bevel.

Participants were explained about the principle and method of Mantoux administration on suitable mannequins. Students were explained about the process of reading of the test. They were shown the results through charts and diagrams and also explained about the interpretation of results. The participants were given role play to demonstrate Mantoux test on each other. In addition to Mantoux test students were also emphasized on hand hygiene and biomedical waste management. The skill workshop was a great success and each participant enjoyed it a lot.

Number of students participated: 94

## **NATIONAL HEALTH SKILLS CONCLAVE-22**

Name of the Skill: PHLEBOTOMY

Department: BIOCHEMISTRY

Faculty Coordinators: Dr. JUHI AGGARWAL, DR ERAM HUSSAIN PASHA & DR SANJUKTA NAIK

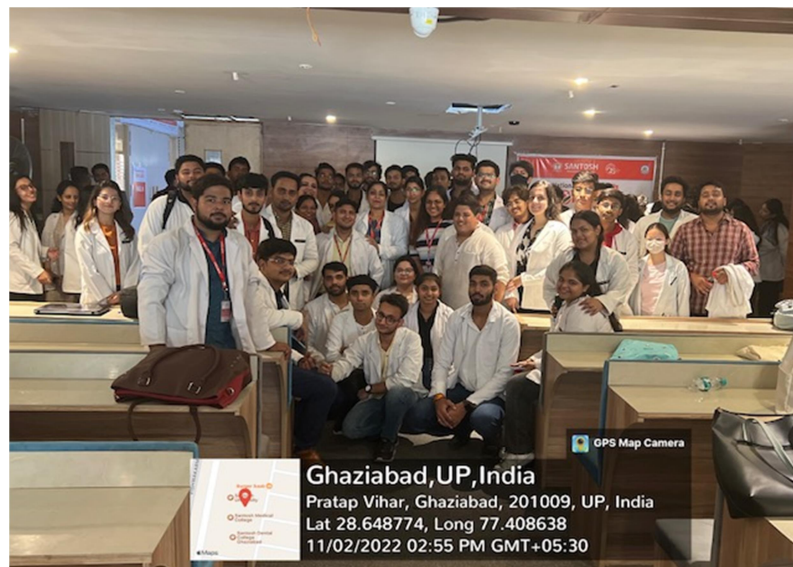

Details of Skill:

The Phlebotomy session at the Skill Conclave was conducted from 2-3 PM at Hall B on 2.11.2022. The students were divided into two batches with Microbiology and Biochemistry conducting the sessions simultaneously. After half hour each the batches were swapped between the departments. Each session started with the presentation on Phlebotomy given by Dr. Juhi Aggarwal, Head of Department, and Biochemistry. The principles of phlebotomy were discussed by Dr. Eram.

The presentation introduced to the students the topic of Phlebotomy, its history and the duties of a phlebotomist. The presentation also illustrated the different types of tubes used in Phlebotomy and impressed upon the participants the importance and rationale of the order of draw to be followed while collecting a sample. The presentation illustrated the various sites for drawing blood and concluded with the common problems that may be encountered while drawing blood.

Following the presentation, the students were demonstrated the technique of phlebotomy on Mannequins by Mr. Bhishm Chaudhary, Senior Technician, Central Lab, Santosh Hospital. The different colour coded tubes were displayed and the analyte's estimated in each tube was discussed. In addition, needles of different gauges were also shown to the participants. The students were given the hands-on opportunity to identify and palpate the vein, draw the blood from the mannequin and transferring the blood to different tubes. The ideal methods of phlebotomy was discussed during the demonstration and the questions raised by the participants were addressed after the demonstration. The session concluded with a group photo of the instructors and participants. The enthusiastic participation of the students encouraged the faculty to bring about various other biochemical techniques for hands on training.

Topic: Skill Conclave 2022

Break the Habit : Habit Breaking Appliance (tongue crib)

Faculty In-charge: Dr. Nidhi Gupta ( Professor and HOD)

Dr. Rashi Singh ( Reader)

Total No. of Students Attended: 29

Objective:

The main objective of conducting this program was to orient undergraduate students about detailed description of Tongue Crib appliance, its indication, contraindication and factors to be considered before selecting a habit breaking appliance in Pediatric Dentistry in Santosh Dental College.

Activities:

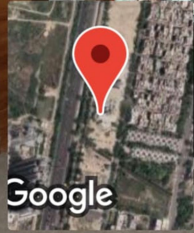

The Skill Conclave was conducted by Department of Pediatric and Preventive Dentistry on the topic Break the Habit : Habit Breaking Appliance (tongue crib) on 2<sup>nd</sup> November, 2022 at 2:00 p.m. to 3:00 pm.

The conclave started with the PowerPoint presentation and lecture taken by Dr. Nidhi Gupta on Introduction and Basics of habit breaking appliances used in Paediatric Dentistry followed by detailed description of tongue crib appliance, its indication, contraindication and factors to be considered before selecting a space maintainer, case selection, its construction and modification was described in detail.

The presentation was followed by hands on by Dr. Rashi Singh demonstrating fabrication of tongue crib appliance. It started with the brief description of armamentarium used, it's clinical importance, methods to handle the instrument, fabrication of crib on tooth, uses of welding machine, followed by c clasp formation. A brief demonstration about soldering was also given.

OUTCOMES:

All attendees were given a chance to fabricate tongue crib on individual level and submission for same was also made in the department.

National Health Skills Conclave- 2022 (NHSC-2022)

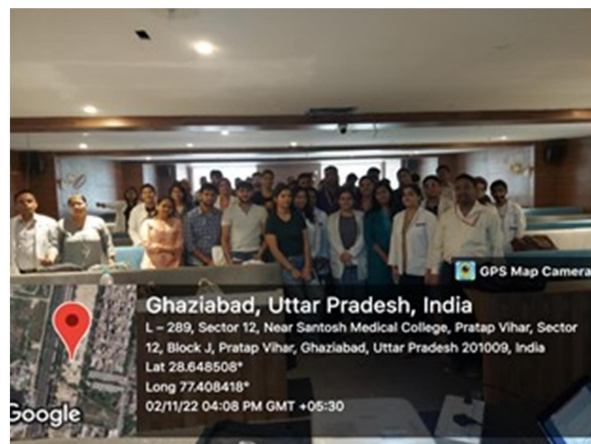

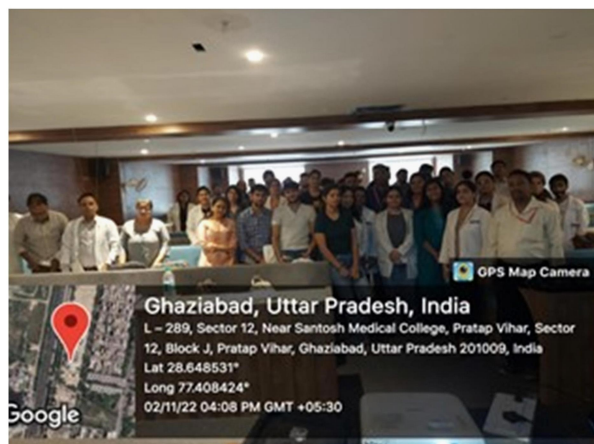

The NHSC was organized on 2nd November, 2022 which provided a platform for students to learn multi- faceted skills and practices often required in the arena of health care. To fulfill this objective, Department of General Medicine, Santosh Medical College organized a Skill demonstration on the topic -

**“ECG Techniques and Basic Interpretation”.**

The lecture set forth with an introduction to the basics of ECG by Dr. Ashok Kumar, Professor and Head, General Medicine. It included demonstrations, questions and exemplary case histories to ensure that the crux of the topic was explicitly understood by the audience. Doubts and queries were welcomed and were responded to, throughout the lecture session which made it an interactive one. The introduction to the topic was followed by a keen insight into variations of ECG in cardiac diseases and it's interpretation, by Dr. Rashmi Sharma, AP, General Medicine. She further focused on multi-faceted pathologies of the cardio- vascular and other systems which can be recognized by interpreting and analyzing the variations in ECG readings of a patient.

Overall, the session was enjoyed by the audience which comprised of students, consultants, post graduate residents, intern trainees and other keen listeners

Below are the few Glimpse of the event.

## HEALTH SKILL CONCLAVE -2022 REPORT DEPARTMENT OF PROSTHODONTICS AND CROWN & BRIDGE

Health Skill Conclave is an annual work shop of Santosh Deemed to be University, Gzb. Delhi-NCR. Which was conducted on the 2<sup>nd</sup> November this year. Department of Prosthodontics and Crown & Bridge actively participated in the Health Skill Conclave. On 2<sup>nd</sup> November 2022, Dr. Mansi Singh was the work shop coordinator and Dr Puja Malhotra was the work Shop Director. Topic of the Health skill conclave was Fabrication of acrylic resin post & core pattern by direct technique on a multirouted endodontically treated tooth. Our whole faculty, postgraduate students and BDS students attended the conference. It was indeed a very successful event.

Topic:	Fabrication of acrylic resin post & core pattern by direct technique on a multirouted endodontically treated tooth
Faculty In-charge:	Dr Puja Malhotra, Dr Mansi Singh
Students Attended:	32
Objective:	Help to sensitize the students prior to patient exposure and strengthen their core practical concepts and prosthetic skills.
Activities:	Hands-on and Demonstration
Outcomes	The candidates learnt different ways of saving teeth.

Venue: Maharaja Hall

Date: 18th November, 2022; 9:30-10:00am

Dr Eram Hussain Pasha, Assistant Professor in the Department of Biochemistry, Santosh Deemed to be University (Ghaziabad) was a guest speaker on the topic '**flux, Impact and fate of Halogenated Xenobiotic compounds in the gut**' at **NATIONAL SANCON 2022**. The lecture was given in Maharaja Hall which was attended by all faculty and under-graduate and post-graduate students. The session was chaired by Dr Juhi Aggarwal, Professor and Head, Department of Biochemistry and Dr Shaktibala Dutta, Professor and Head, Department of Pharmacology. Overall it was an informative session which was followed by the felicitation of the speaker as well as the chairpersons.

The session highlighted that a xenobiotic is a chemical substance found within an organism that is not naturally produced or expected to be present within the organism. It can also cover substances that are present in much higher concentrations than are usual. This was followed by a group photograph.

No of students attended: 102

## Department of Conservative Dentistry & Endodontics

### SANCON LECTURE 2022

#### Lecture Report

#### **TOPIC: Root Apex; A Conundrum in dentistry**

**Aim:** To elucidate the students about the Anatomy of the root apex, the importance of cleaning & shaping the apical 3<sup>rd</sup> of the tooth

**Objective:** The objective of this lecture is to brief the clinical debridement of the apical third of the root canal system.

**Attributes of the Lecture:** Cleaning and shaping the root canal system is essential to clinical success in endodontic treatment. The apical third is the most difficult to clean and shape because of the ever-increasing complexity of the anatomy, that is the ramifications and the tortuosity. Anatomy of the apical 3<sup>rd</sup> involves structures like Anatomic apex, Radiographic apex, Major diameter, Minor diameter, Apical constriction, Accessory canals and Lateral canals. Apical third of the root canal system can be cleaned and shaped and rendered free of organic substrates and debris. From here, three-dimensional compaction of gutta-percha in conjunction with sealer is easy.

## SANTOSH DENTAL COLLEGE & HOSPITAL

### SANCON, 2022

#### Summary of SANCON Lecture Conducted

- Topic of the lecture: **Oral Potentially Malignant Disorders.**
- Venue: Santosh Medical College, Hall A, Ghaziabad
- Date /Month/Year: 18/11/2022-19/11/2022
- Name of the faculty: Dr. Chandni Batra
- Number of participants- 42 student.
- Geo Tagged Pictures

The lecture was conducted to make the undergraduate understand the importance of Oral potentially malignant disorders (OPMDs) include a group of conditions that affect the oral mucosa with an increased risk of malignancy. An OPMD could contribute as a risk factor for the development of oral cancer. Secondary prevention therefore is the most important aspect, particularly patient education. Attention to risky lifestyles could contribute to halting the progression of an OPMD.

Chairpersons: Dr Barkha Gupta

Dr Mohit Gupta

The topic was delivered to the registered students under the able guidance of the chairpersons.

A brief and relevant presentation was taken up regarding the legal duties as well as the rights of a medical professional in current scenario along with the awareness of potential medical litigation scenarios.

It was followed by few words of wisdom by the chairpersons.

The SANCON was rounded up by Felicitation of the speaker and reciprocating with token of appreciation for the chairpersons.

**DEPARTMENT OF BIOCHEMISTRY  
JUDGE for PAPER AND POSTER PRESENTATION,  
SANCON 19<sup>TH</sup> NOVEMBER 2022,  
DATE: 19<sup>th</sup> November 2022 TIMING: 8am to 9am**

Dr Jyoti Batra, Dr. Sanjukta Naik and Dr Luna Sinha, faculty from the department of biochemistry was invited as a judge's for the free paper and poster presentation competition held on 19<sup>th</sup> November 2022 at SANCON 2022 from 8am- 9am. The session was started with a brief introduction followed by paper presentations. There were around 7 oral paper presentations from different clinical departments and each presentation was followed by question answer round. The students were evaluated based on their knowledge, content of the paper, confidence and the quality of the work.

The session ended with discussion with all judges and the 1<sup>st</sup> and 2<sup>nd</sup> winners were selected for the following session. All the judges were felicitated by Dr. Dakshina Bisht, Director IQAC- Santosh University

## DEPARTMENT OF ANATOMY

### Report of Poster Presentation for SANCON-22

I as Gp Capt Dr DK Dubey Prof & Head, Dept of Physiology participated in National San-Con 2022.

I was Judge also for PG poster presentations. The pic of that is attached.

Two other faculty members Dr Rohit Sr Demonstrator and Mrs Deepika Sr Demonstrator also participated in different sessions.

**Event Report:**

## **SANCON-2022 – 18 & 19<sup>th</sup> November 2022**

### **Preface:**

Santosh Deemed to be university (Ghaziabad) organised SANCON -202 on 19<sup>th</sup> November 2022 at Santosh Medical College in which department of psychiatry participated with various presentation by the faculty and junior residents presented papers and case reports. Following psychiatry disorders were presented

### **Depression**

A prolonged sense of sadness and loss of interest are symptoms of depression, a mood illness. Clinical depression, also known as major depressive disorder, affects how you feel, think, and behave and can cause a number of emotional and physical issues. You can find it difficult to carry out your regular daily tasks, and you might occasionally think life isn't worth living.

Depression is more than just a case of the blues, and you can't immediately "snap out" of it. Long-term treatment may be necessary for depression. But resist giving up. With medicine, counselling, or both, the majority of depressed persons get improved symptoms.

Although you might only experience depression once in your lifetime, most people experience many bouts. During these episodes, symptoms can include any of the following and may last for the majority of the day:

Sadness, tears, emptiness, or a sense of futility, Irrational behaviour, irritation, or frustration, especially about trivial issues, Loss of enjoyment or interest in the majority of everyday activities, including sex, hobbies, and sports, Sleep disorders, such as insomnia or excessive sleeping

Due to fatigue and a lack of energy, even simple tasks need more effort. Weight loss and decreased appetite, or weight gain and increased desires for food a feeling of unease, anxiety, or worry sluggish speech, posture, or other body movements, feelings of guilt or worthlessness, a fixation on mistakes made in the past, or self-blame, Problems with memory, concentration, decision-making, and thought

### **Substance use disorder**

Drug addiction, also known as substance use disorder, is an illness that affects a person's brain and behaviour and causes them to lose control over whether or not they take drugs or medications, whether they are legal or not. Alcohol, marijuana, and nicotine are examples of substances that are regarded as drugs. If you are hooked, you might use the drug even when it is harmful.

Drug abuse can begin with the occasional recreational drug usage that some people engage in in social settings before developing a drug addiction. Others experience drug addiction when they take prescribed medications or get them from those who have prescriptions, especially when it comes to opioids.

Each substance has a different level of addiction danger and speed of addiction development. The risk and speed of addiction are higher with some medicines than others, such as opioid painkillers. As time goes on, you might require higher drug doses to feel high. You might eventually require the medicine just to feel decent. You could find that it gets harder to abstain as your drug use rises. When you try to stop using drugs, you could experience severe cravings and physical sickness. We refer to this as withdrawal symptoms.

### **Childhood disorders**

Parents may find it challenging to recognise a child's mental condition. Many kids who could benefit from treatment don't receive it as a result. Recognize the symptoms of childhood mental illness and learn how to support your child.

The whole state of your thinking, emotion control, and behaviour is referred to as your mental health. Patterns or changes in thought, mood, or behaviour that cause distress or impair a person's capacity to function are referred to as mental illnesses or mental health disorders.

Children's mental health disorders are often characterised as delays or disturbances in the development of thinking, acting, socialising, or emotion management in accordance with age. Children who have these issues find it difficult to operate normally at home, at school, or in other social settings.

Because typical childhood development is a changing process, it might be challenging to comprehend mental health concerns in children. Additionally, a child's age may affect the symptoms of a condition, and children may not be able to articulate their feelings or the reasons behind their actions.

Parents may be discouraged from getting treatment for a kid who has a suspected mental disorder for a variety of reasons. Parents may be worried about the stigma attached to mental illness, the usage of pharmaceuticals, the cost of treatment, or the logistical difficulties involved.

### **Emotional intelligence**

The capacity to recognise, use, and regulate your own emotions in order to reduce stress, communicate clearly, sympathise with others, overcome obstacles, and diffuse conflict is known as emotional intelligence (EQ). You can develop stronger relationships, perform well at work and school, and reach your professional and personal objectives with the aid of emotional intelligence. Additionally, it can assist you in establishing a connection with your emotions, putting your intentions into practise, and choosing what is most important to you.

Emotional intelligence characterised as:

Self-management - You have the capacity to restrain impulsive thoughts, feelings, and actions, to regulate your emotions in healthy ways, to take the initiative, to keep your word, and to adjust to changing circumstances.

Self-awareness — You are aware of your feelings and how they influence your actions and thinking. You are confident in yourself and are aware of your talents and flaws.

You are socially aware and empathic. You are able to discern emotional indicators, comprehend the needs and worries of others, feel at ease in social situations, and comprehend the power relationships in a team or organisation.

Relationship management: You have the ability to create and sustain positive relationships, communicate effectively, motivate and influence people, collaborate effectively with others, and handle conflict.

### **COVID – 19 psychological manifestations and treatment**

In order to spread to cells other than the epithelial cells of the respiratory tract, the coronavirus may be able to evade the immune response. Certain coronaviruses have been found to have the ability to cause neuro-invasive diseases, including Middle East respiratory syndrome (MERS) and severe acute respiratory syndrome (SARS) (MERS). Many survivors may be at risk of developing a variety of neuropsychiatric sequelae based on earlier outbreaks, such as SARS and MERS, and recent reports of neuropsychiatric problems following COVID-19. Growing data suggests that COVID-19 survivors may have issues with their mental health. According to this review, post-COVID-19 infection is linked to psychological symptoms such as despair, anxiety, and post-traumatic stress disorder (PTSD). Although the precise aetiology of these psychiatric aftereffects has not yet been identified, it appears to entail biological, psychological, and environmental aspects.

### **Collaboration:**

#### **Name and Designation of Speakers:**

1. Dr. Rani Shrivastava (Prof & Head Psychology)
2. Dr. Brijesh Saran (Assist Prof Psychiatry)
3. Dr. Shakshi Sharma
4. Dr. Nitish Verma
5. Dr. Shubhkarman Singh Saini
6. Dr. Ram Mehar

**Attended** by students pursuing following courses from BOT, BPT, BOT Interns, MBBS, MBBS Interns, Junior Resident students at Santosh Deemed to be University.

## HEALTH SKILL CONCLAVE -2022

### REPORT

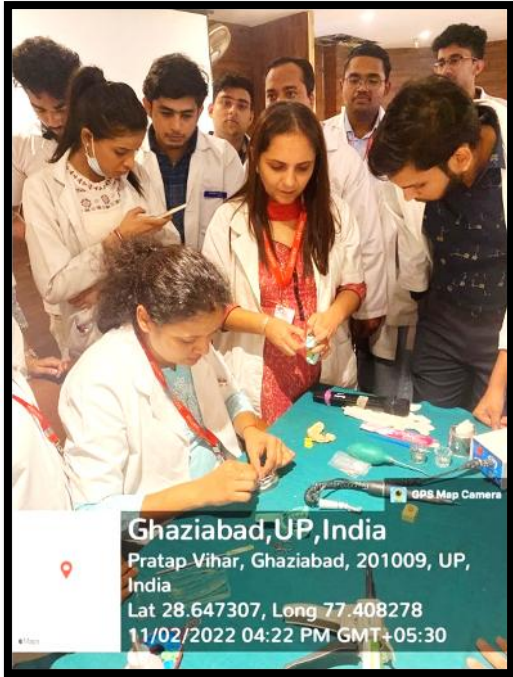

#### DEPARTMENT OF PROSTHODONTICS AND CROWN & BRIDGE

Health Skill Conclave is an annual work shop of Santosh Deemed to be University, Gzb. Delhi-NCR. Which was conducted on the 2<sup>nd</sup> November this year. Department of Prosthodontics and Crown & Bridge actively participated in the Health Skill Conclave. On 2<sup>nd</sup> November 2022, Dr. Mansi Singh was the work shop coordinator and Dr Puja Malhotra was the work Shop Director. Topic of the Health skill conclave was Fabrication of acrylic resin post & core pattern by direct technique on a multirooted endodontically treated tooth. Our whole faculty, postgraduate students and BDS students attended the conference. It was indeed a very successful event.

Topic:	<b>Fabrication of acrylic resin post &amp; core pattern by direct technique on a multirooted endodontically treated tooth</b>
Faculty In-charge:	Dr Puja Malhotra, Dr Mansi Singh
Students Attended:	32
Objective:	Help to sensitize the students prior to patient exposure and strengthen their core practical concepts and prosthetic skills.
Activities:	Hands-on and Demonstration
Outcomes	The candidates learnt different ways of saving teeth.

**Name of the skill:** Mantoux test

**Department:** Microbiology

**Faculty coordinators :** Dr.Ashutosh Rawat, Dr.Ankita Gupta, Dr.Geeta Gupta

**Details of skill:**

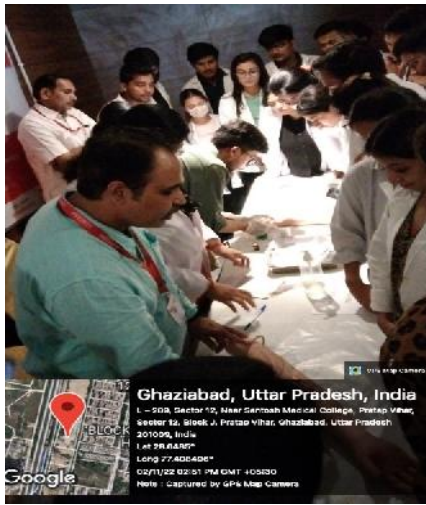

Mantoux test, also known as Tuberculin skin test is a tool for screening tuberculosis and for tuberculosis diagnosis. The skill programme was attended by undergraduate students of medical college, paramedical and postgraduate dental college students. Under this activity the skill was demonstrated under three sections:

- a) Administration of Mantoux test
- b) Reading of results
- c) Interpretation of Mantoux test

The preparation steps included collecting of supplies, providing patient education, washing hands, locating and cleaning the injection site, and preparing the syringe. When preparing to administer the Mantoux tuberculin skin test, the area for administering the test should have a firm, well-lit surface, and that equipment and supplies should be ready. Supplies should include a vial of tuberculin, a single-dose disposable tuberculin syringe, a ruler with millimeter (mm) measurements, 2x2 gauze pads or cottonballs, alcohol swabs, a puncture resistant sharps disposal container, record-keeping forms for the patient and provider, and a pen. The tuberculin is administered using a single-dose disposable tuberculin syringe that has a one quarter to one-half inch, 27-gauge needle with a short bevel.

Participants were explained about the principle and method of Mantoux administration on suitable mannequins. Students were explained about the process of reading of the test. They were shown the results through charts and diagrams and also explained about the interpretation of results. The participants were given role play to demonstrate Mantoux test on each other. In addition to Mantoux test students were also emphasized on hand hygiene and biomedical waste management. The skill workshop was a great success and each participant enjoyed it a lot.

**Number of students participated: 94**

## Skills Training at National Health Skills Conclave 2022

**Date:** 02/11/2022

**Topic:** Orotracheal Intubation

**Faculty In-charge:** Dr Debapriya Sarkar

**Faculties:** Dr Jahnavi Tomar, Dr Priyanshi Verma, Dr Kashish Khan

**Total No. of Students Attended:** 30

**Objective:** To impart cognitive as well as psychomotor skills of oro-tracheal Intubation which in turn helps provide emergency care. This skills training pledge to bestow information and hands-on practice in Orotracheal intubation

**Activities:** Dr Debapriya Sarkar gave the students a brief introduction about definition, indication, equipment, and manoeuvres related to oro-tracheal intubation. Then the students were divided in two groups and with the help of two high fidelity intubation mannequin, they were given hands on training on oro-tracheal intubation.

**OUTCOMES:** Students obtained necessary knowledge and skills to perform oro-tracheal intubation in elective and emergency scenarios.

Name of the Skill: PHLEBOTOMY

Department: BIOCHEMISTRY

Faculty Coordinators: Dr. JUHI AGGARWAL, DR ERAM HUSSAIN PASHA & DR SANJUKTA NAIK

Details of Skill:

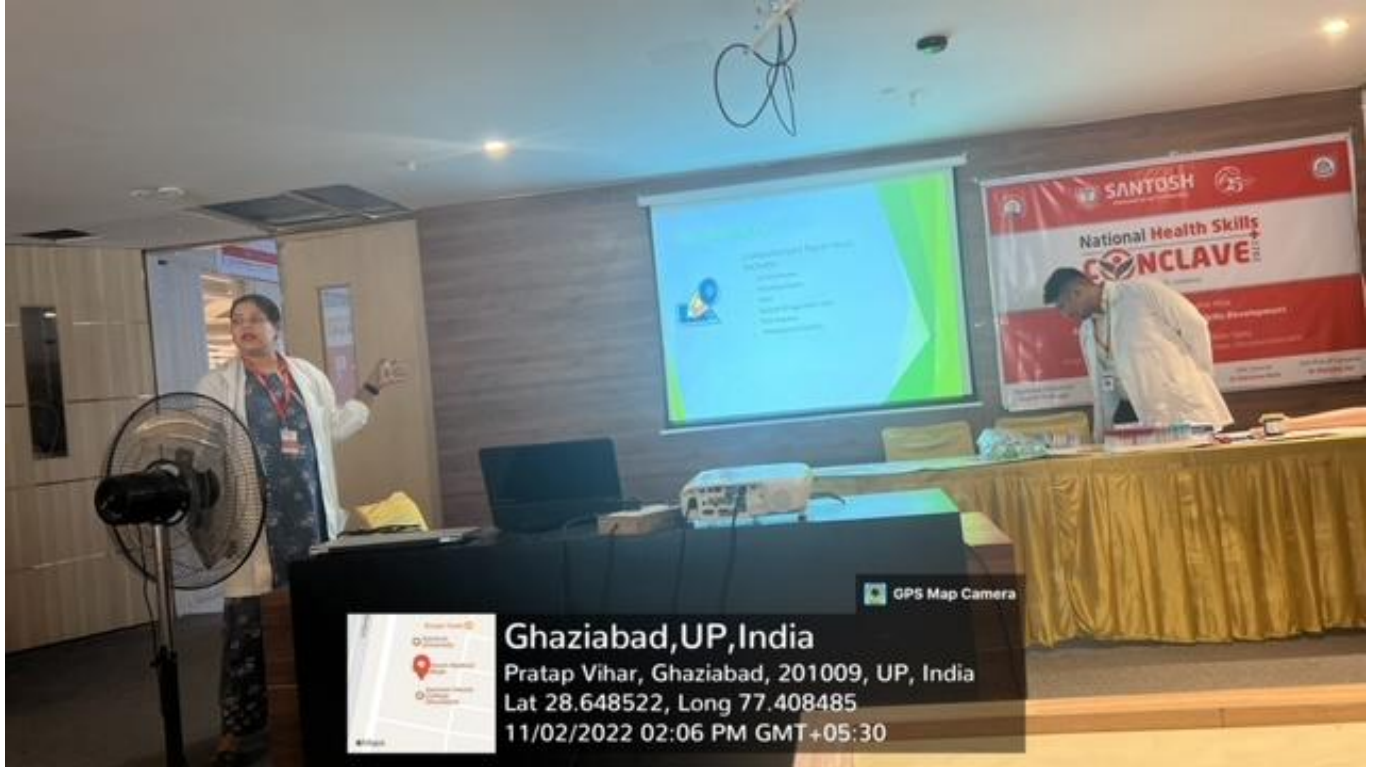

The Phlebotomy session at the Skill Conclave was conducted from 2-3 PM at Hall B on 2.11.2022. The students were divided into two batches with Microbiology and Biochemistry conducting the sessions simultaneously. After half hour each the batches were swapped between the departments. Each session started with the presentation on Phlebotomy given by Dr. Juhi Aggarwal, Head of Department, Biochemistry. The principles of phlebotomy were discussed by Dr. Eram.

The presentation introduced to the students the topic of Phlebotomy, its history and the duties of a phlebotomist. The presentation also illustrated the different types of tubes used in Phlebotomy and impressed upon the participants the importance and rationale of the order of draw to be followed while collecting a sample. The presentation illustrated the various sites for drawing blood and concluded with the common problems that may be encountered while drawing blood.

Following the presentation, the students were demonstrated the technique of phlebotomy on Mannequins by Mr. Bhisim Chaudhary, Senior Technician, Central Lab, Santosh Hospital. The different colour coded tubes were displayed and the analyte's estimated in each tube was discussed. In addition, needles of different gauges were also shown to the participants. The students were given the hands-on opportunity to identify and palpate the vein, draw the blood from the mannequin and transferring the blood to different tubes. The ideal methods of phlebotomy was discussed during the demonstration and the questions raised by the participants were addressed after the demonstration. The session concluded with a group photo of the instructors and participants. The enthusiastic participation of the students encouraged the faculty to bring about various other biochemical techniques for hands on training.

## Event report

### Immunisation workshop- 02.11.22

Santosh Medical College, Ghaziabad organised National Health Skills Conclave workshop on 2<sup>nd</sup> November 2022. Department of Community Medicine held session on 'Basics of immunization and immunisation techniques'. Dr. Anupama Singh (Assistant Professor) coordinated and facilitated the session. Discussions were held on national immunisation schedule, types of vaccines, cold chain, open vial policy, heat and freeze sensitive vaccines and demonstration of the different techniques of giving intradermal, subcutaneous, intramuscular and oral vaccination was done. A total of 56 students registered for the workshop. Dr. Deepika Agrawal (Head of Department) and Dr. Anupama Singh demonstrated ways of injecting intramuscular, subcutaneous and intradermal vaccines on mannequins. Students actively took part in the activity and learned vaccination techniques. Post Graduate students, senior tutor, Assistant Professors and health workers of the Department were also present in the workshop.

Presenters- Dr. Deepika Agarwal (Head of Department), Dr. Anupama Singh (Assistant Professor)

Assistant Professor- Dr. Kshitij Choudhary

Senior Demonstrator- Dr. Neha Jetli

Post Graduate students- Dr. Abhishek, Dr. Priyanka Verma, Dr Amit Jaiswal

Health workers- Mr. Rajesh, Mr. Naresh

## DEPARTMENT OF DERMATOLOGY, VENEREOLOGY & LEPROSY

### Event Report

#### TITLE – NATIONAL HEALTH SKILLS CONCLAVE-2022

##### **Preface:**

Santosh Deemed to be University organised National health skills conclave on 2<sup>nd</sup> November, 2022 at Santosh Medical & Dental College. It provided students an opportunity to practice basic skills and interact with health professionals and faculty.

##### **Program:**

Department of Dermatology participated in the event and presented the talk on Topical Steroids: Awareness and Abuse. The session was conducted at 2<sup>nd</sup> November 2022 at 11AM-12PM at Santosh Medical College.

##### **Execution:**

Dr. V. K. Garg (Professor & HoD) was the chairperson for the session. Dr. Sonali initiated the session by introducing the topic and educated the students regarding various use and misuse of topical steroids in present scenario. She also emphasized on the significance of counselling in patients with topical steroids abuse. Finally, questions were taken from audience and session was concluded.

##### **Tangible Outcome:**

It was a very informative session with good audience participation, making it a successful event.

## **Career Counselling - An Initiative by IQAC**

Aspiration for realistic goals through career guidance -  
Skills, Strategies & Solutions

They say all our dreams can come true if we have the courage to pursue them. Santosh Deemed to be University having completed more than 25 impactful years and still counting in its journey has created many memorable days, events and achieved many heights.

Today 6<sup>th</sup> April 2022 was another memorable day as we had amongst us one of our distinguished Alumni of Santosh Batch 1996-97 Dr. Shobhit Madan (MBBS, MD, MPH US). He is a renowned preventive Cardiologist with Super Specialization in Paediatric and Adult Cardiac Imaging from the University of Pittsburgh, Public Health and Clinical Research Professional based in the US. His passion includes empowering and educating students, professionals and communities about preventive, chronic diseases like Metabolic Syndrome, Cancer and Dementia through an intentional and professionally guided mentorship. He is currently leading a 36 million Dollar, Cardiac Stent clinical trial as Global Clinical Project Manager at IQVIA, USA.

He shared his journey and the aspirations for realistic goals through career guidance — Skills, Strategies & Solutions and his experience and wisdom was a true inspiration and motivation to our students as they were enlightened with career paths they could choose to walk on and work hard to achieve their goals. A large number of students attended his session and the interactive session at the end proved to be helpful. It was indeed an insightful session as he was able to set the ball rolling in the young minds of our students .

Our honourable Vice Chancellor Dr Tripta Bhagat Madam presented a memento as a token of appreciation to honour Dr Shobhit Madan.

**ACTIVITY REPORT**

26 FEB 2022

A Webinar on " **Effective Utilization of J-Gate Biomedical Science Database in Research** " was organized **25.02.2022 at 3.00pm** by **Central Library** and its Committee under the chairmanship of Dr. Akshay Bhargava Dean-Dental, Dr. Shalabh Gupta, Dean-Academics and Library coordinator Dr. Preeti Sharma Prof. Biochemistry, Mrs. Archana Singh, Chief Librarian, Mr. SaravanaKumaran, Assistant Librarian.

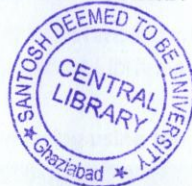

The speaker was **Mr. Ajay Sahay Manager Training**, J-Gate North, Informatics Publishing Ltd. Bengaluru-India.

The lecture was started at 3.00PM and was completed around 4.30 PM through the Google Meet Platform.

Overview and Topics of Discussed

- Brief overview and introduction to J-Gate platform.
- Explained Features & Functionalities. (Including new developments)
- Live demonstration of J-gate access

The event went well with more than **110+ participants** of Santosh Deemed to be University from all the stream including the faculty members, research Scholars & students have attended this webinar.

# Benefits of J-Gate

- Single Point Access
- Find in a Library
- Multiple Ways to Discover Full Text
- Customized Access to Library Subscriptions
- Customized Access to Personal Library

- Technical search superiority:
  - Inclusion of singular and plural
  - UK and US variants
  - OR / or; AND/ and
- Journal ranking inclusions.
- Filter by Country of Publication.
- Identify Co-Authors.
- Hybrid journal indication.
- Journals and thesis specific discovery.
- Browse TOC.
- My Favourite Functionality.
- Largest collection of Indian Journals.
- Inclusion of Author e-mail addresses.
- Find in a library.
- Inter Library Loan.

## **Santosh Medical College- Medical Education Unit**

### **Brief Report on Learning Management Experiential System Workshop in Medical Education Technology**

The Medical Education Unit of Santosh Medical College organised a workshop on **Learning Management Experiential System in Medical Education Technology on 11th January 2022** at 3.00 PM.

The program was conducted in sync with Internal Quality Assurance Cell of the University

Faculty from Medical and Dental College across all streams of Santosh Deemed to be University were invited to participate in the workshop.

The focus of the academic program began by **Dr. Dakshina Bisht**, MEU Coordinator. welcoming all and highlighting the need of CBME which has the ability to do something successfully and efficiently and is an approach to ensure that all the graduates develop these competencies required fulfil the patients need in the society.

Mr. Ankit shared a learning management experiential System which has been designed for Medical Colleges teaching MBBS as per CBME guidelines. He also shared the digital for Dental as per DCI.

30 faculty attended the workshop and it was an interactive session. It was suggested that more such workshops should be done for all the faculty of the Departments so that they can work to achieve the goals and best outcomes for both faculty and students.

### **Santosh Medical College- Medical Education Unit**

#### **Brief Report on Panel Discussion of MEU in National SANCON 2021**

The Medical Education Unit of Santosh Medical College conducted a panel discussion on 3<sup>rd</sup> of December 2021 in National SANCON 2021. The topic for the panel discussion was “Faculty and Student Perception and Potentialities of CBME”.

The panel discussion was moderated by MEU coordinator, Dr. Dakshina Bisht and the faculty panellist included the members of **MEU** and **Curriculum Committee**, Dean Medical -Dr. Alka Agrawal, Dean Academics, Professor & Head Surgery- Dr. Shalabh Gupta, Professor & Head Microbiology- Dr. Ashutosh Rawat and Professor & Head Biochemistry- Dr. Juhi Aggarwal.

Students from MBBS Batch 2019-2020 -Javith , Meenakshi and Riya and students from MBBS Batch 2020-21, Sameeksha, Ashish and Khushi were the student participants. The panel discussion included important aspects of CBME and its implementation . The concept of CBME with focus on student learning, knowledge application and assessment were the main foci. The program was interactive and a great success.

The faculty perspectives discussed were:-

- What is the concept of CBME and about its implementation?
- What were the steps taken up to ease the process in the initial phase of the implementation?
- Could you share some of its advantages and shortcomings while preparing for the same?

- Do you think it is or has been necessary to orient the students of MBBS to all aspects of the medical environment in the foundation course?
- If the ECE AETCOM and integration has helped in the implementation of the curriculum?
- Do you think it is desirable to learn integrated concept in the early phase when the students have not been assessed?
- What were perceptions about the foundation course of the learners of the batch?
- What are the assessment modifications and has it been a fair one and benefitted the learner?
- Do you think if it is needed and justified?
- What do you think are some of the key outcomes, recommendations and impact of CBME?
- Do you think CBME should also be implemented for the BDS programme as well?

The student's perspective discussed were:-

- Was it a satisfying experience and did it help boost your confidence?
- How are the students coping up with the new curriculum?
- Was the curriculum a challenging task or did it improve the academic performance of students?
- What was the learner's insight and relevance on AETCOM, ECE and integration?
- Do you think online classes implemented the impact of curriculum and did it leave any anxiety or stress?

In the end the MEU Cordinator thanked all the panellists for their inputs and will look deeply into overcoming challenges for the students to come. There must be a positive learning behaviour and interest among faculties towards CBME. Emphasis on feedback and logbook along with pictures for documentary evidence being a must to prepare reports. Students we hope will be aware of their responsibilities as doctors , have a better doctor patient communication and interaction with faculty, improved skills and a learning outcome leading to a better health care system .

Date:25/11/2021

To,

Dr. Shalabh Gupta ,

Organising Secretary,

Santosh Medical College, Ghaziabad

Sub:- Regarding request for grant of CME Accreditation

Sir/Madam,

Please refer your letter dated received 24 November 2021 by email with receipt number 9/21. It is noted that the **Santosh Medical College, Ghaziabad** is conducting the Workshop/Seminar /Conference /CME /Webinar/Live Surgery '**Various Topics**' on 25 November 2021 at Santosh Medical College, Ghaziabad.

It is also noted that CME will be imparted during the conference by the organizer. Since U.P. Medical Council has no policy of Accreditation of CME points of its own. At present it has been decided that the norms for Accreditation CME points as per MCI, New Delhi CME guideline will be adopted. This council is awarding Three (3) accreditation hours for a day and awarding you Three (3) hours as per your schedule.

I would like to inform you that Accreditation for CME programme is hereby granted as per schedule of Credit Hours, as approved by U.P. Medical Council. Please submit the list of Experts who attended the CME programme along with their registration numbers (if possible) and also provide *Consent of Patient for Live Cases* (If Any).

I wish you good luck for successful conduction of the conference.

## Department of General Medicine

**Hand on Skill: “ECG Techniques and Interpretation”.**

**Time: 9.00 AM to 10.00AM**

**Venue – Hall A**

**Total 56 People registered online for this skill.**

### Event Report:

National health skill conclave was held at Santosh medical college on 25/11/2021 for developing medical skills in MBBS and BDS students by all the departments in pertaining to various clinical skills.

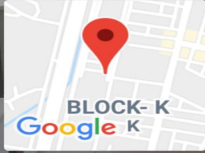

A lecture on **ECG techniques and interpretation** was conducted in Santosh Medical College by the department of General medicine and an interactive workshop was conducted using hands-on experience, group learning or other interactive teaching methods. The workshop was attended by Dr. Shalabh Gupta ( Dean Academics , Santosh Deemed to be University) , Dr Alka Aggarwal (Dean Santosh deemed to be university) Dr. Ashok Kumar ( HOD , department of General Medicine) , Dr. Shivani Bansal ( Professor ,department of General medicine) and Dr. Kailash Chandra Aggarwal ( HOD, Department of Pediatrics), Medical & Dental Faculties and Students, .

The Workshop started with welcoming Dr. Shalabh Gupta who also delivered the opening remarks. Then an interactive lecture was delivered on ECG introduction by Dr. Ashok Kumar using ECG Machine, Interactive Visuals, and hands on experience in ECG recording on paper and basic principles of electrocardiography were taught to all the students. It is very important to understand the basic principle of ECG formation, recording & Method prior to interpretation without which the inference is incomplete with respect to disease process.

Dr. Shivani Bansal delivered an interactive lecture on ECG reading and interpretation in various pathologies of the heart. The workshop was an interactive session between the Students and professor with questions and query on ECG reading and interpretation. Closing remarks were delivered by Dr. Ashok Kumar by stressing upon the need for accurate interpretation of ECG by medical professionals in various life threatening emergencies

Department of General Surgery  
Hand on Skill: "Live Suturing and Knotting".  
Time: 10.00 AM to 12.00PM  
Venue - Hall A  
NHSC 2021

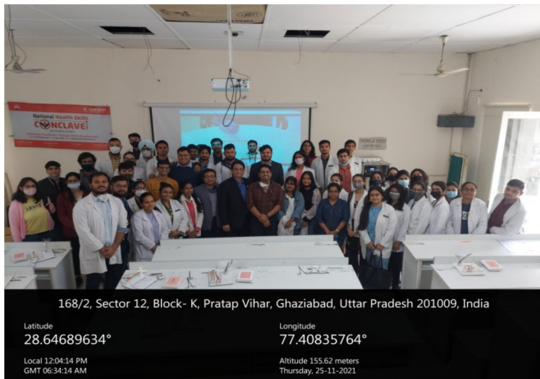

## SURGERY SKILLS - SUTURING & KNOTTING

Department of General Surgery conducted SURGERY SKILLS - SUTURING & KNOTTING on 25<sup>th</sup> Nov 2021 in NHSC 2021. 135 students participated. Faculty who taught the Skills were: Dr Shalabh Gupta Dean Academics and HOD Surgery, Dr Tripta S Bhagat VC and Prof of Surgery, Dr Gyanendra S Mittal Prof of Surgery and Dr Rahul Gautam AP Surgery. Pgs of department also participated actively.

135 students who participated were given Hands on Training on Suture Boards and Knotting Boards. In each session 50 students were taught. They were taught:

1. How to handle Needle holder, Forceps and Scissors
2. How to load a Needle and Suture
3. Hand movements
4. How to make a surgical knot
5. How to make a hand knot
6. How to make proper use of suture
7. Art of Suturing and Knotting

Full one hour was devoted and students enjoyed the practice.

Deemed to be University  
(Established u/s 3 of the UGC Act, 1956)

Department of Gynaecology & Obstetrics  
Hand on Skill: "Skills in management of atopic PPH".

Time: 12.00 Pm to 1.00PM

Venue - Hall A

**Name of Skill** - SKILLS IN THE MANAGEMENT OF ATONIC PPH

**Department**- Department of Obs & Gynae, Santosh Medical College & Hospital

**Faculty Coordinators**- Dr Neelima, Dr Alpana, Dr Manisha

**Organizing Unit /Collaborating agency**- Department Of Obstetrics & Gynaecology, Santosh Deemed To Be University

**Details of Skill** -

Department of Obstetrics & Gynaecology, Santosh Deemed To Be University, conducted a workshop on Skills on prevention of atonic PPH on 25/11/2021.

Following activities were conducted-

Welcome address- Dr Neelima Agarwal (Professor and Head)

Introduction to PPH-A Challenge to Safe motherhood- Dr.Manisha Gupta (Professor)

Role play directed by Dr. Supriya Chaubey (Assistant Professor).The role play depicted a scenario of the labour room where a lady has just delivered and now having Post partum hemorrhage. The concept of PPH drill was well portrayed and the importance of quick reflexes of an obstetrician to control the hemorrhage and thereby saving a young life was emphasized through the role play. The importance of Team work and presence of a senior obstetrician was also illustrated.

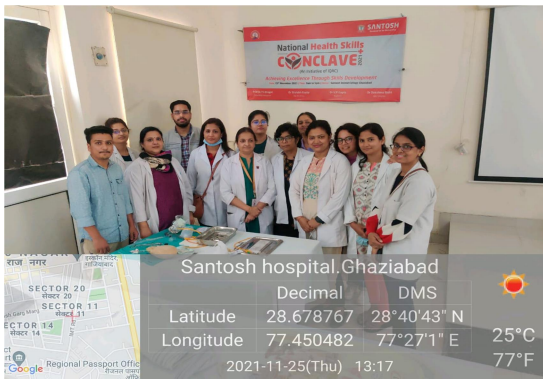

The participants were Interns and Post graduates of the Department

Hands on session

- a. Manual massage, bimanual compression of uterus and exploration of perineum and cervix on Mannequin - Dr Sugandha Dev(Assistant Professor)
- b. B-Lynch sutures were demonstrated on the models of the uterus indigenously made by the Department - Dr. Seema Nishad (Senior Resident)
- c. Condom catheter ...hands on the Foleys catheter and condom - Dr Sonia Kuruvilla (Assistant Professor)

The participants were the students of MBBS. All the participants were given hands on training for different techniques required in emergency in a case of PPH. A total 50 students participated in the workshop.

## CLINICAL ANATOMY & ANATOMICAL SKILLS THROUGH MODEL MAKING

The Dept. of Anatomy is pleased to participate in NATIONAL HEALTH SKILL CONCLAVE, organized by Santosh University under the patronization of our CMD sir-DR P. MAHALINGUM , VC sir- DR SANTOSH MAHALINGUM

& supervision of Prof.(Dr)Shalabh Gupta-(Dean Academics) & his team.

The topic was:

**"CLINICAL ANATOMY & ANATOMICAL SKILLS THROUGH MODEL MAKING"**

*MY SINCERE THANKS TO MY DEAR STUDENTS OF FIRST YEAR, THIRD YEAR & PHD SCHOLAR WHO HAVE ACTIVELY PARTICIPATED IN MAKING THE MODELS AKIN TO ORIGINAL HUMAN BODY STRUCTURES*

**FROM:**

**DR NISHA V KAUL  
DEPT OF ANATOMY**

**OUR AIM:**

- 1. TO MAKE THE STUDENTS UNDERSTAND THE REAL ANATOMY OF HUMAN PARTS & CREATE THEM (AS READ IN BOOKS OR SEEN WHILE DISSECTION).*
- 2. THROUGH MODEL MAKING, WE TEACH THE DEVELOPMENTAL PROCESS OF HUMAN BODY & EXPLAIN THE DEVELOPMENTAL ANOMOLIES*
- 3. HELPS THE STUDENTS IN UPDATING & POLISHING THEIR CREATIVE ABILITIES*
- 4. HELPS IN CORRELATING KNOWLEDGE OF ANATOMY WITH CLINICAL PROBLEMS*

**COORDINATOR, PLANNER & EXECUTOR :**

*DR NISHA V. KAUL*

*PROF & HOD ANATOMY,*

*SMC-GZB*

**STUDENTS OF FIRST YEAR, THIRD YEAR & PHD SCHOLARS OF ANATOMY**

**STUDENTS WHO ACTIVELY PARTICIPATED**

*Ms Manu Gupta- PhD scholar*

*SAHIL PUNIYA*

*SUMAN PANJA*

*SANJIVNI SHARMA*

*SAMIKSHA GOYAL*

*PRARTHANA PATHAK*

*NIDHI YADAV*

*KANISHKA SINGH*

*SANYAM SANGWAN*

*KESHAV SOOD*

*SAMBHAV TRIPATHI*

**HOW WAS IT CONDUCTED**

**THE WHOLE EXERCISE INCLUDED:**

1. Conceptualizing the plan

2. Procurement of material
3. Model making
4. Capturing the pics of models
5. Making a PPT of them
6. Live demonstrations of models along with their projection on screen

### MODELS

### ALL INVOLVED IN MODEL MAKING

### LIVE DEMONSTRATION OF MODELS WITH PROJECTION ON SCREEN

## SKILL CONCLAVE REPORT

Name of the Skill - How to plan and calculate a balanced diet for an adult

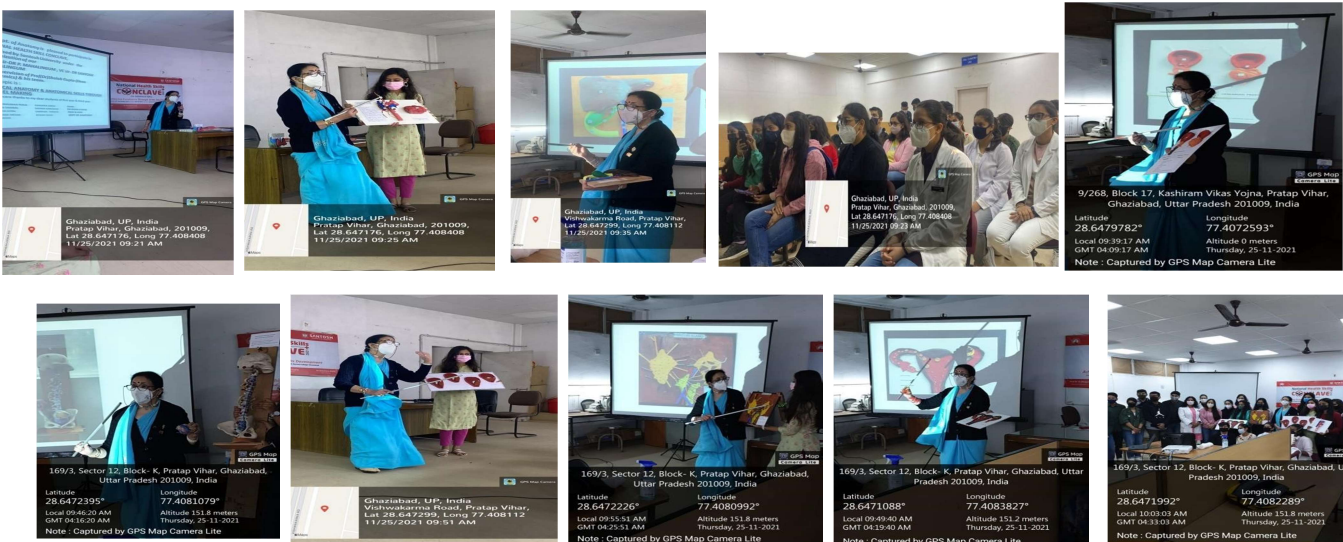

Department - Department of Community Medicine

Faculty Coordinators - Dr. Anupama Singh (Assistant Professor), Dr. Abhishek (PG - II<sup>nd</sup> Year)

Details of Skill - The conclave was conducted on 25/11/21, in Hall B of Dental College. The topic of the session was "How to calculate and plan a balanced diet for an adult?" It was a one- hour session and 28 students enrolled for it. The sub-topics included:

- What is balanced diet?
- What are micro-nutrients and macronutrients?
- How to calculate calorie intake, protein, carbohydrates and fats in a balanced diet.

Students were interested in calculation of Basal Metabolic rate (BMR) and asked questions regarding Ideal weight calculation. Students were given exercise regarding adequate calorie intake calculation based on BMR and level of activity of an adult. Most of the students were able to correctly do the

exercise and understand the procedure for adequate calculation for balanced diet. Furthermore, in future workshops we can hold sessions for dietary calculation in case of diabetics, hypertensive, burn patients and other such

cases.

**Department of Biochemistry & Microbiology**  
**Hand on Skill: "Mantoux & Phlebotomy as skills learning hands on training"**  
**Time: 2.00 PM to 3.00 PM**  
**Venue - Hall B**

**Name of the Skill: PHLEBOTOMY**

**Department: BIOCHEMISTRY**

**Faculty Coordinators: Dr. JUHI AGGARWAL and Dr. SOJIT TOMO**

**Details of Skill:**

The Phlebotomy session at the Skill Conclave was conducted from 2-3 PM at Hall B. The students were divided into two batches with Microbiology and Biochemistry conducting the sessions simultaneously. After half hour each the batches were swapped between the departments. Each session started with the presentation on Phlebotomy given by Dr. Juhi Aggarwal, Head of Department, Biochemistry. The principles of phlebotomy were discussed by Dr. Sojit Tomo.

The presentation introduced to the students the topic of Phlebotomy, its history and the duties of a phlebotomist. The presentation also illustrated the different types of tubes used in Phlebotomy and impressed upon the participants the importance and rationale of the order of draw to be followed while collecting a sample. The presentation illustrated the various sites for drawing blood and concluded with the common problems that may be encountered while drawing blood.

Following the presentation, the students were demonstrated the technique of phlebotomy on Mannequins by Mr. Manoj Tyagi, Senior Technical supervisor, Central Lab, Santosh Hospital. The different colour coded tubes were displayed and the analytes estimated in each tube was discussed. In addition, needles of different gauges were also shown to the participants. The students were given the hands-on opportunity to identify and palpate the vein, draw the blood from the mannequin and transferring the blood to different tubes. The ideal methods of phlebotomy were discussed during the demonstration and the questions raised by the participants were addressed after the demonstration. The session concluded with a group photo of the instructors and participants. The enthusiastic participation of the students encouraged the faculty to bring about various other biochemical techniques for hands on training.

**Name of the skill: Mantoux test**

**Venue: Hall B Dental Block, Santosh University**

**Organizing Department: Microbiology**

**Date: 25/11/2021**

**Duration: 2 hrs**

**Faculty coordinators: Dr. Ashutosh Rawat, Dr. Dakshina Bisht, Dr. Ritu Jain and Dr. Ankita Gupta**

**Details of skill:**

Workshop conducted in skillcon 2021 on 25<sup>th</sup> November 2021. Mantoux test, also known as Tuberculin skin test is a tool for screening tuberculosis and for tuberculosis diagnosis. The skill programme was attended by undergraduate students of medical college, paramedical and postgraduate dental college students. Under this activity the skill was imparted under three sections:

- a) Administration of Mantoux test
- b) Reading of results
- c) Interpretation of Mantoux test

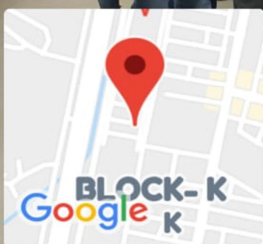

The preparation steps included collecting of supplies, providing patient education, washing hands, locating and cleaning the injection site, and preparing the syringe. When preparing to administer the Mantoux tuberculin skin test, the area for administering the test should have a firm, well-lit surface, and that equipment and supplies should be ready. Supplies should include a vial of tuberculin, a single-dose disposable tuberculin syringe, a ruler with millimeter (mm) measurements, 2x2 gauze pads or cottonballs, alcohol swabs, a puncture resistant sharps disposal container, record-keeping forms for the patient and provider, and a pen. The tuberculin is administered using a single-dose disposable tuberculin syringe that has a one quarter to one-half inch, 27-gauge needle with a short bevel.

Participants were explained about the principle and method of Mantoux administration on suitable mannequins. Students were explained about the process of reading of the test. They were shown the results through charts and diagrams and also explained about the interpretation of results. The participants were given role play to demonstrate Mantoux test on each other. In addition to Mantoux test students were also emphasized on hand hygiene and biomedical waste management. The skill workshop was a great success and each participant enjoyed it a lot.

Number of students participated: 56

## Preface:

Department of Ophthalmology, Santosh Medical College & Hospital (Ghaziabad) participated in National Health Skill Conclave 2021 organized by organizing team of Santosh Deemed to be University on 25<sup>th</sup> November 2021.

Objective of this session was to give hands on training to the MBBS students & interns on Direct Ophthalmoscopy.

## Collaboration:

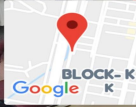

- The skill Conclave was organized by organizing team of Santosh Deemed to be University consisting of chief patrons by Dr. P. Mahalingam & Dr. Santosh Mahalingam, organizing Chairperson Prof. Dr. Tripta S Bhagat & organizing Secretary Prof. Dr. Shalabh Gupta.
- The skill Conclave was carried out under the guidance of HOD of Ophthalmology Department Dr. Sarita Aggarwal, Dr. Yogesh Arora & Dr. Shikha Pawaiya.
- The event was promoted through the official social network of the University as well as on some of the Social Groups of professionals in the individual capacity of the organizing members and promoters.
- All the faculty members and post graduate of the department & participants who enrolled for this skill took part in the event.

## Execution:

- Skill Conclave was executed in Hall B of Dental College of Santosh University, Ghaziabad on 25<sup>th</sup> November 2021 from 4-5 pm.
- A short video was played for the participants to make them understand the concept of Direct Ophthalmoscopy.
- The Direct ophthalmoscope & its various parts were explained to the participants, how to handle direct ophthalmoscope, different slits & their uses were also explained.
- Process of Direct Ophthalmoscopy involves Distant Direct Ophthalmoscopy & Direct Ophthalmoscopy. Both of these were explained as well as demonstrated to the participants.
- After that all the 70 participants were divided into 4 groups, 1 volunteer from each group were selected & rest of the participants were asked to perform Direct Ophthalmoscopy & Distant Direct Ophthalmoscopy in that volunteer.
- Participants were taught about Distant Direct Ophthalmoscopy & normal anatomy of retina. Hands on training were given on how to appreciate retina, its glow & all its structures as well as what all pathologies they could detect while performing this step & to correlate the retinal pathologies with systemic diseases.
- Each of the participants was taught how to approach the optic disc with Direct Ophthalmoscopy & what all points should be noted while doing the process.
- Each participant was able to see optic nerve head, fovea & surrounding blood vessel.
- Each participant will be receiving e certificates for their participation from the organizing team. Vote of thanks was delivered to the participants and organizers by Dr Sarita Aggarwal who extended gratitude to the Chairman Sir, VC sir, MS and Dean, organizing team of skill Conclave & faculty, PGs of department.

## Tangible Outcomes:

All the participants in the event acquired new skill and were benefitted from the same.

(Established u/s 3 of the UGC Act, 1956)

Department of Oral Pathology  
Hand on Skill: "Forensic Dentistry: Tooth Tales".  
Time: 12.00 Pm to 1.00PM  
Venue - Hall C

Department of Oral Pathology conducted a skill workshop on 25<sup>th</sup> Nov 2021 in Santosh Dental College and Hospital under National Health Skill Conclave organized by Santosh Deemed to be University.

Name of the skill: Forensic dentistry: Tooth Tales.

Department: Oral Pathology & Microbiology

Faculty coordinators: Dr. Kanika Bhalla Prabhat, Dr. Neeraj Grover

**Details:** The program was conducted to create awareness about the advances and scope of the Forensic Dentistry amongst the students. Around 60 delegates registered and attended the workshop which included under graduate students, post graduate students and interns. The program was conducted in the Pre-clinical Lab in Santosh Dental College & Hospital from 12-1pm. The events of the program included a brief lecture on Forensic Odontology followed by a demonstration on Chieloscopy and Rugoscopy. The students performed hands-on skill on the study models and did procedures of lip printing and palatal rugae patterns with full zeal. The students enthusiastically and whole heartedly participated as Forensic Odontology is the emerging upcoming stream in the scope of Oral Pathology.

NHSC 2021 25th, NOVEMBER  
DEPARTMENT OF PROSTHODONTICS  
Time- 4.00PM to 5.00PM  
Venue Hall C

The department of prosthodontics participated in the National Health Skill Conclave (NHSC), held on 25th November, 2021 at Santosh Deemed to be university, Ghaziabad. Prof.(Dr.) S.V. Singh demonstrated the fabrication of acrylic resin post & core pattern by direct technique on a multirooted endodontically treated tooth. A severely mutilated tooth can be restored to its function and morphology by using the post-core technique significantly in those patients who are not willing for the extraction of the tooth and going for surgical option of implant. The skill development event was attended by the students in their full capacity of enrolled participants with 22 participants. The procedure lasted for little more than one hour. The department faculty Dr. Priyanka Thakural, Dr Mansi Singh & Dr. Sunil Pal contributed to the success of the event and was present at the venue.

The department expresses its gratitude and is thankful to the organizing committee for giving the opportunity and also for the well-arranged program and providing all required facilities.

Hand on Skill: "How to get rid of worry habit".  
Time: 1.00 Pm to 2.00PM  
Venue - Hall D

Name of the skill: How to get rid of Worry Habit

Venue: Hall-D, Santosh Dental College

Organizing Department: Psychiatry

Date: 25<sup>th</sup> Nov 2021

Duration: 1 hour

Faculty coordinators: Dr. Brijesh Saran, Dr. A. K. Seth, Dr. Rani Srivastava

Details of skill:

On the 25<sup>th</sup> of November, 2021 at 1:00 pm, a skill to get rid of worry habit was conducted. Many students namely the MBBS students, Paramedical students (BOT, BPT, BOT Interns), MBBS Interns, Junior Resident doctors of psychiatry actively participated.

Various heading of the activity were as follows,

( <https://forms.gle/qsY8ibVaN5gBnKBy5>)

- Repetitive Negative Thoughts Checklist
- The Emotional Distress Checklist
- Components of Worry
- Strategies to control Worry
- Worry Domain Checklist
- Reality based worry vs Imaginative worry

Students were made aware of the facts of worry literature and then exposed to solve them with various exercises made on google form provided online.

Their responses were scored with each exercise and shared to monitor their progress in learning the skill. Throughout the presentation common examples of worry were shared and discussed in detail.

Number of students participated: 14

## **Santosh Medical College- Medical Education Unit**

### **Brief Report on Outcome Based Education Workshop in Medical Education Technology**

The Medical Education Unit of Santosh Medical College organised a hands on workshop on Outcome Based Education **in Medical Education Technology on 5th October 2021.**

Faculty from Medical & Dental College of Santosh Deemed to be University were invited to participate in the workshop. Dr Ashutosh, Dr Mayurika, Dr Natasha and Dr Mayank participated in the workshop.

The focus of the academic program began by **Dr. Dakshina Bisht**, MEU Coordinator, who highlighted the need for the workshop which was planned for attainment of PO and Cos and the assessment of learning outcomes. There were 2 sessions taken covering the topics in a 3 hour schedule which included hands on training that was shared to the faculty members along with related resource material.

The program was conducted in sync with Internal Quality Assurance Cell of the University. OBE revolves around the educational system goals (outcomes) and by the end of the educational experience each student should have attained the expected outcome. The methodology was presented in a presentation and the faculty worked around with the details for their respective departments. It was also discussed that more such workshops should be done for all the faculty of the Departments so that they can work to achieve the goals.

## ACTIVITY REPORT

1. Name of the Department : **CENTRAL LIBRARY**
2. Program Title: **Biomedical Reference Collection: A Unique Collection from EBSCO for Clinical Practitioner's**
3. Date: **26 July 2021**
4. Time : **3.00 PM to 4.00 PM**
5. Venue : **Online - Zoom Platform**
6. Duration: **1 Hours**
7. Name & Designation of Speaker/Resource Faculty for Workshop:

**Mr. Lakhpat Singh, Training Manager, EBSCO Information Services India**

**Total Registrations : 136**

Total Attendee's (List is Attached )

**Dean/ Faculties : 48**

**Research Scholars : 88**

Below is the agenda covered in the session :

- Want to know time saving features like folder sharing ,sending emails from EBSCOhost platform.
- Want to save and organize your research information easily?
- Learn how to download articles.
- Quick overview of various filters and limiters to narrow the search results.
- Want to access 24X7? Know more about Mobile App, Google Authentication, Remote Access etc.
- Want to share good reading articles directly to students?
- EBSCO Mobile app.

## Medical Education Unit

15<sup>th</sup> June 2021

Time: 11:00AM

### Enhance Teaching Through Learning Management System

Medical Education Unit encouraged the faculty members to attend the webinar on 'Enhance Teaching through Learning Management System' which was held successfully on 15<sup>th</sup> June 2021. Around 56 faculty attended the webinar. Virtual classroom provides an opportunity for the students to explore and learn new digital tools and enhance their skills. As online teaching is beneficial in effective time management virtual classroom helps recreate a routine that keeps the students and faculties engaged and ensures that they continue to learn. Online classes allow for achieving lessons as well as recording the class. The workshop was fruitful and the faculty were encouraged to incorporate newer method of teaching and learning

The banner features a central illustration of a person at a desk with a laptop, surrounded by virtual classroom windows. On the right, there is a list of speakers with their photos and names. The EBSCO logo is in the top right corner.

## SANTOSH DEEMED TO BE UNIVERSITY

### Minutes of Webinar on Women Empowerment

Department of Community Medicine, Santosh Medical College, Ghaziabad celebrated National Girl Child Day (23<sup>rd</sup> January 2021) on 24<sup>th</sup> January 2021 from 12:00 P.M to 1:00 P.M regarding Women Empowerment and Gender Equity.

An online meeting was organised by Dr. Deepika Agrawal, Head of Department, Community Medicine, Santosh Deemed to be University.

Webinar Topic: Gender Issues and Women Empowerment.

The Webinar was attended by under- graduate students of 2019-2020 batch, Post-graduate students and Faculty members.

Faculty attending were:

1. Dr. Deepika Agrawal, Professor & Head of Department of Community Medicine
2. Dr. Atish Anand, Assistant Professor
3. Dr. A. Revanth Kumar, Assistant Professor
4. Dr. Anupama Singh, Assistant Professor
5. Mr. Ashish Gaur, Statistician

Post – Graduate students of the Department

1. Dr. Priya Verma (JR-III)
2. Dr. Neha Jetli (JR-II)
3. Dr. Abhishek
4. Dr. Mumtaz

The Guest Speaker was Mrs. Neetu Jain Gautam (L.L.B., L.L.M.), Advocate, Supreme Court of India.

She discussed many important points during the lecture:

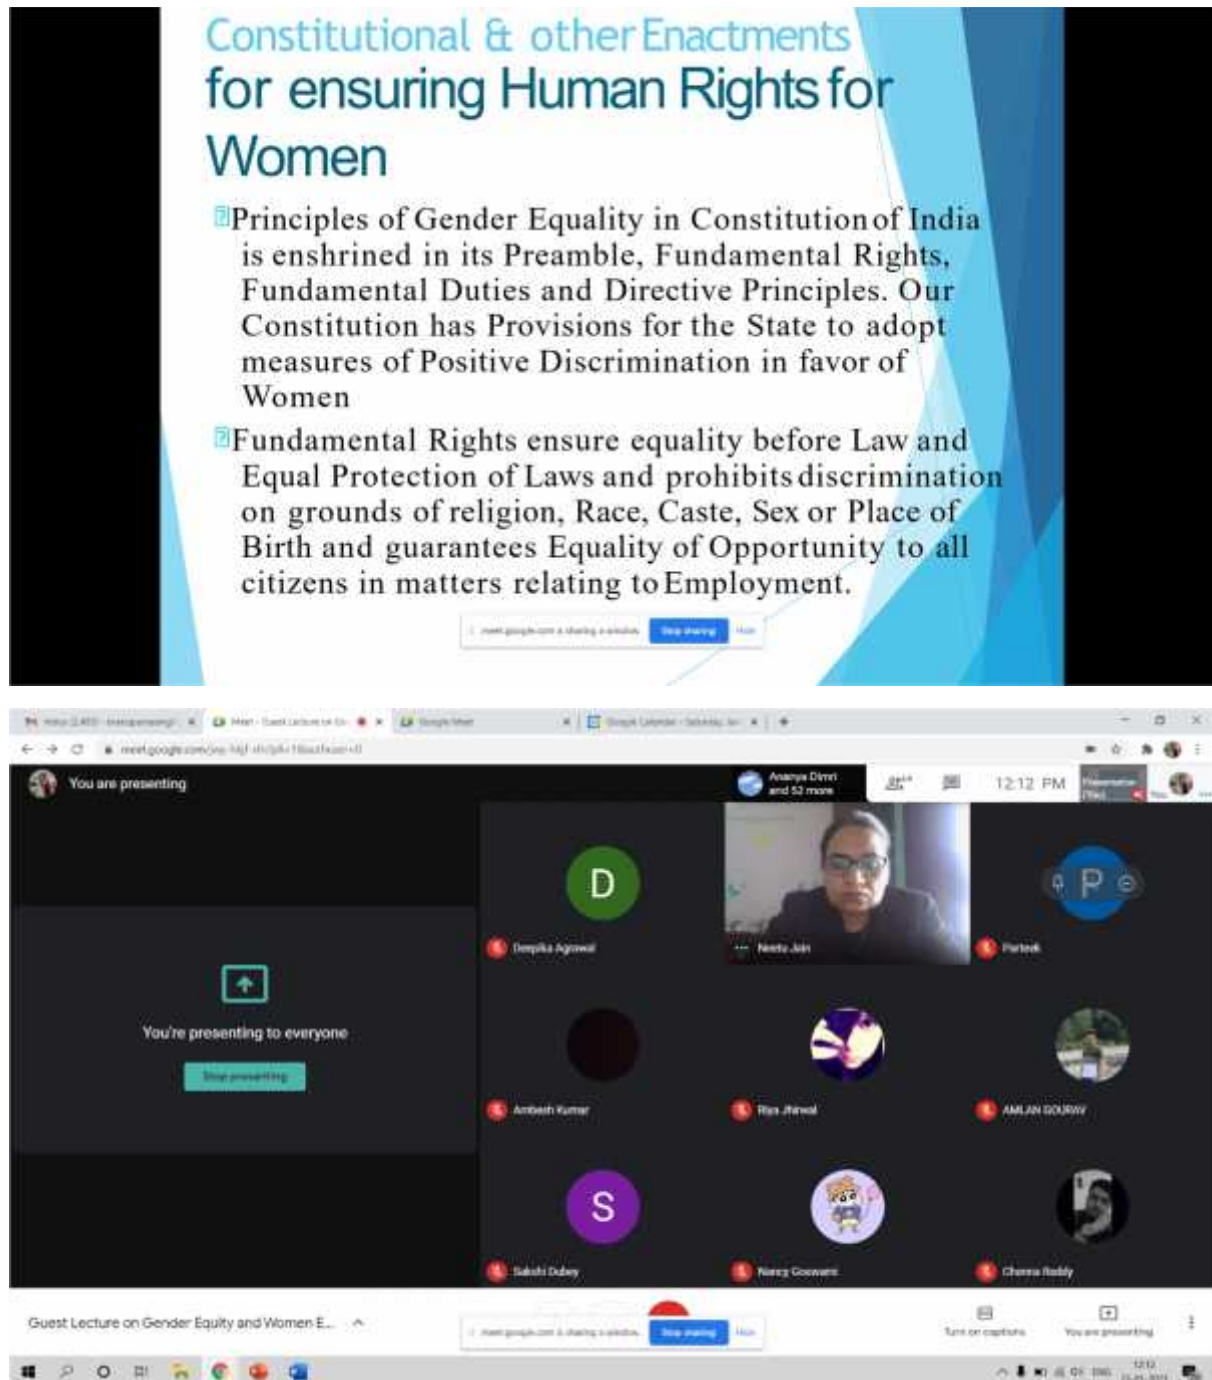

- Rights and Responsibilities of Indian Citizens
- Legislation related to Women Empowerment and Gender Equity.
- Quantum of Punishment for different offences against women.
- Special Legislation for the empowerment of women.

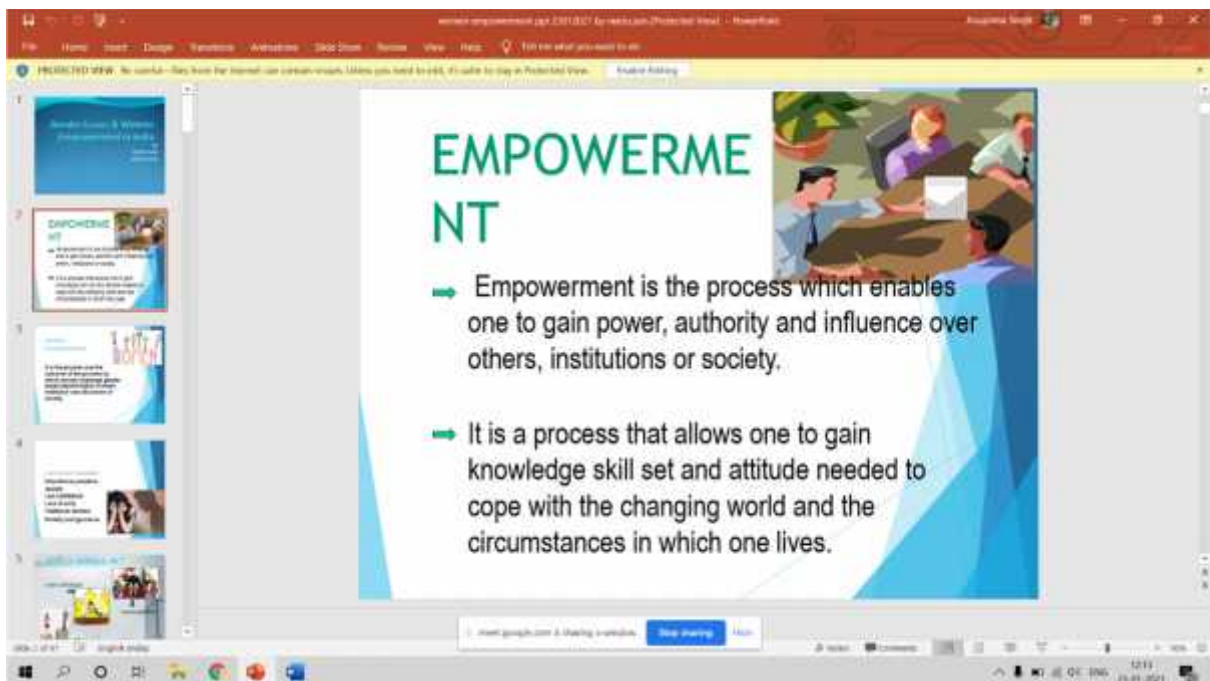

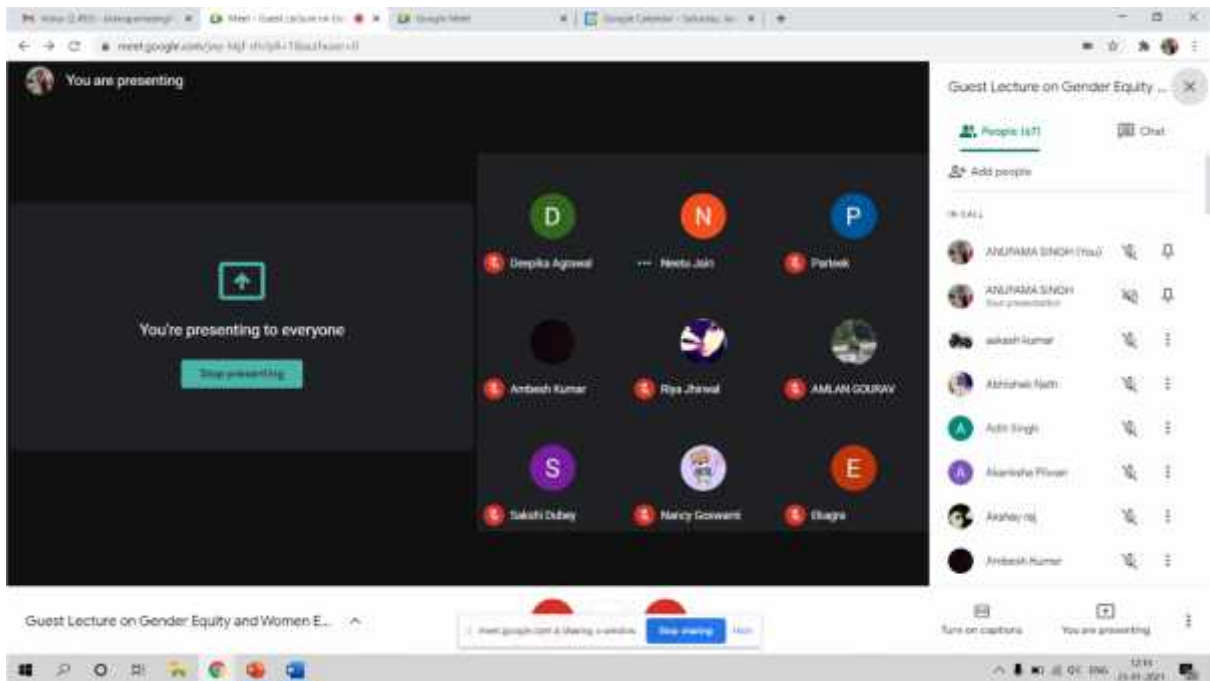

Gender Distribution :

Faculty: Male : Female = 3:2

All Students attending Lecture Including Post Graduate - Male : Female = 30: 36

## Brief Report on OSPE/OSCE Workshop in Medical Education Technology

The Medical Education Unit of Santosh Medical College organised a workshop on Objective Structured Practical Examination/ Objective Structured Practical Examination (OSPE/OSCE) **in Medical Education Technology on 29th January 2021.**

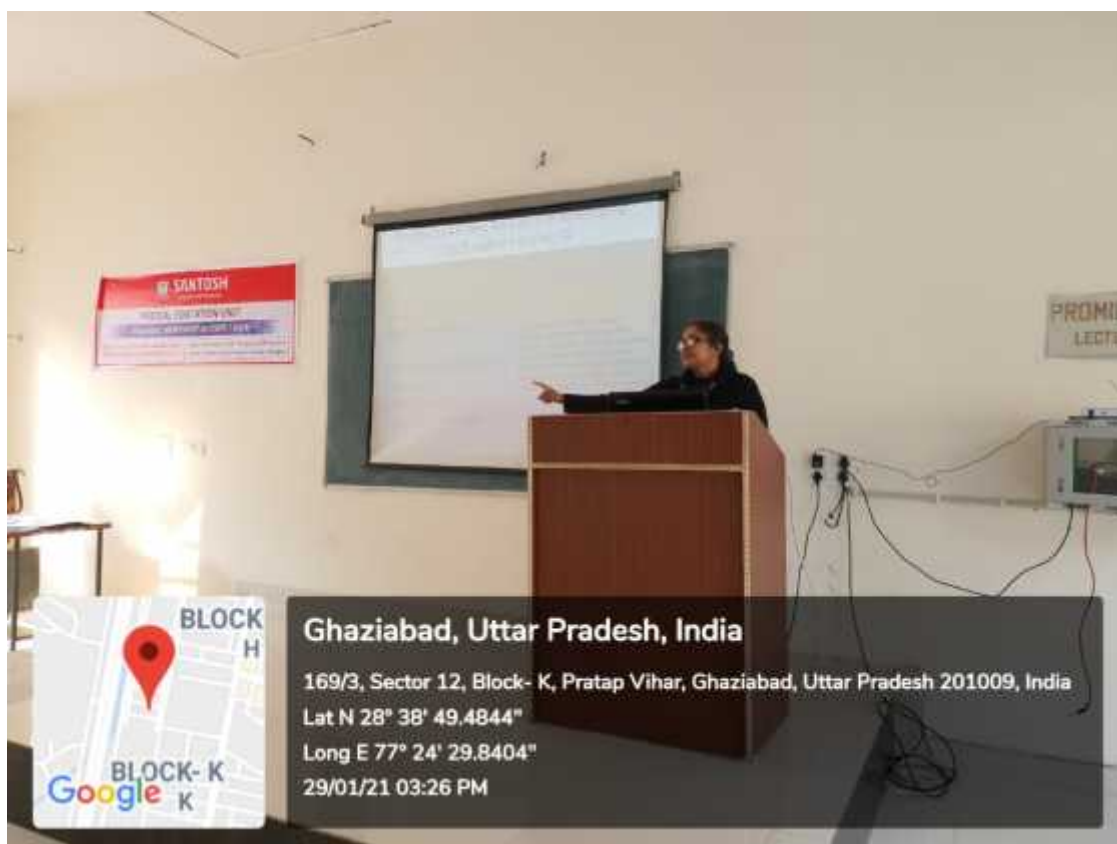

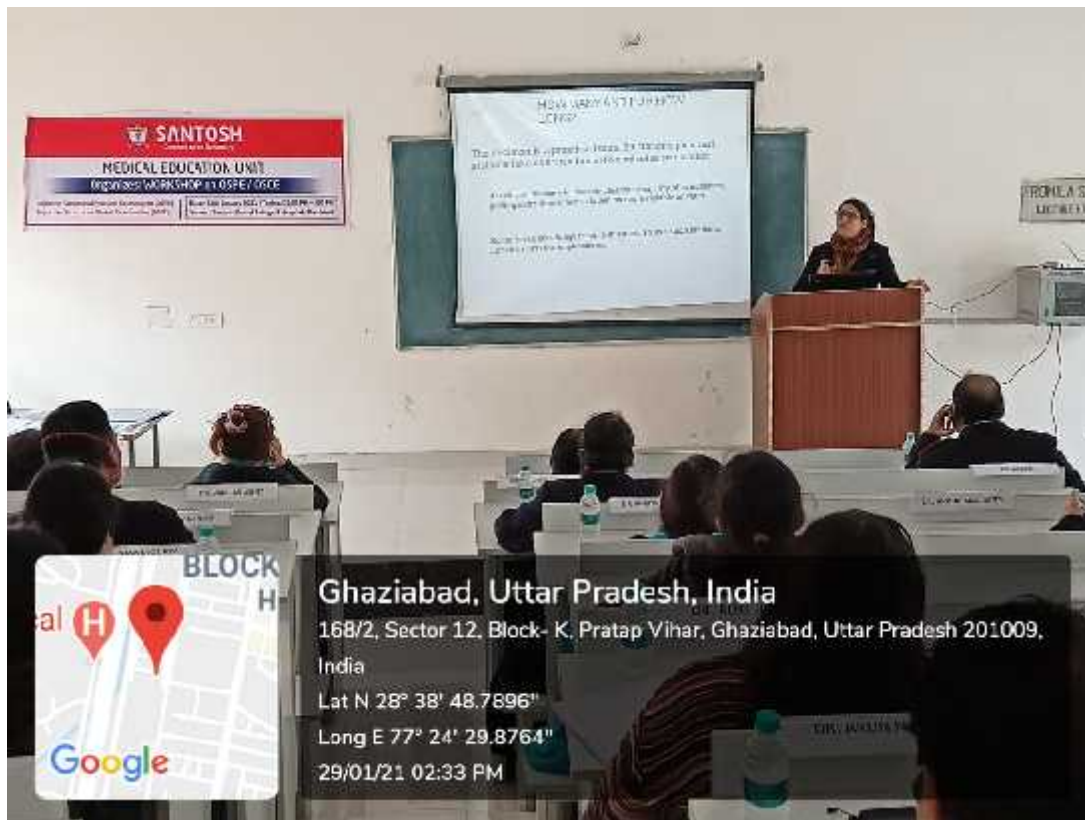

Faculty from Medical & Dental colleges of Santosh Deemed to be University were invited to participate in the workshop. The participants were asked to fill the google form for registration prior to the workshop and 27 Faculty members registered and attended the workshop.

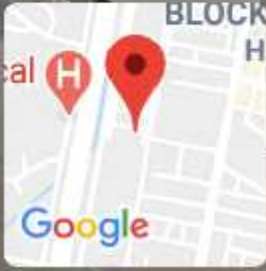

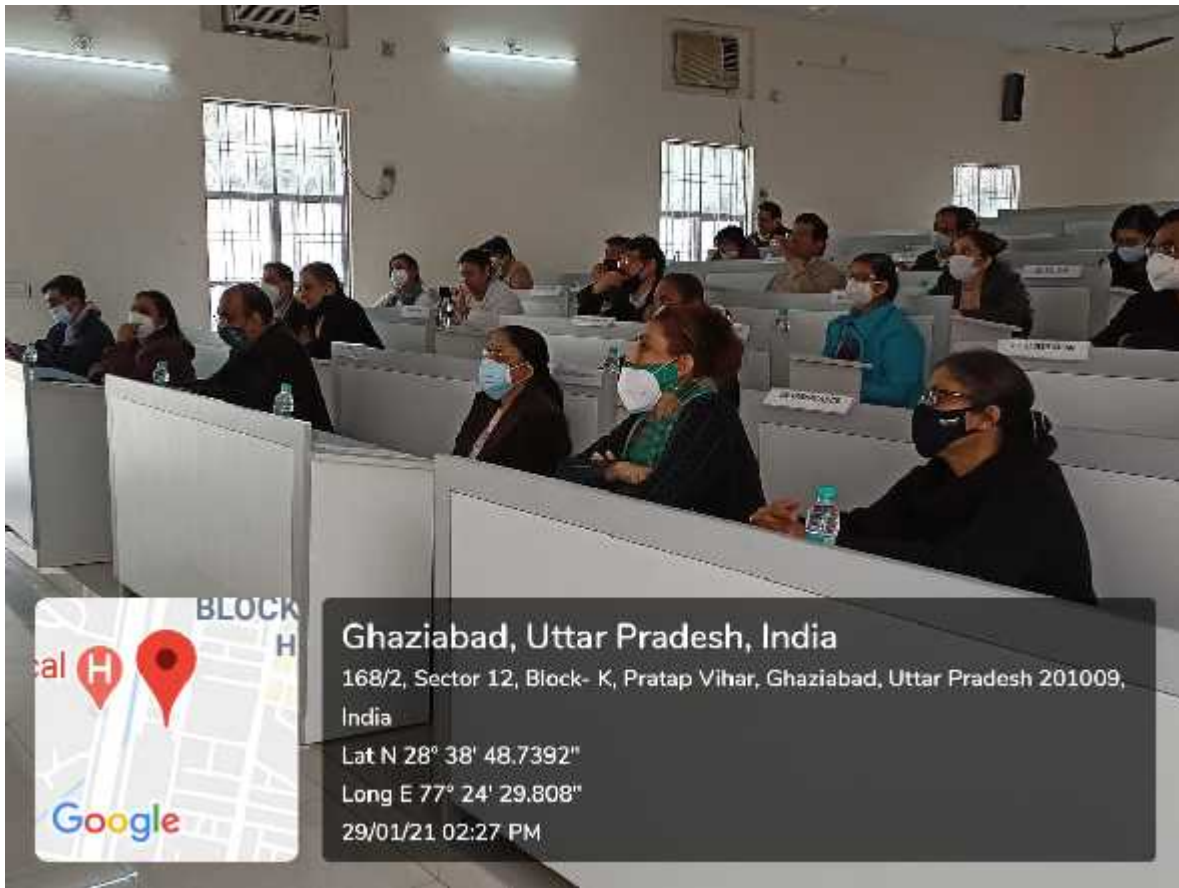

The focus of the academic program began by **Dr. Dakshina Bisht**, MEU Coordinator, who moderated the program and briefed all the participants about workshop. The workshop was planned for quality implementation of OSCE/OSPE. There were 2 sessions taken covering the topics in a 2 hour schedule which included hands on training that was shared to all faculty members along with related resource material.

All the sessions were highly informative and appreciated by the participants. At the beginning a pre-test was conducted for all the participants in the workshop. Dr. Deepika Agarwal took first session which was very informative followed by Dr. Veenu Agrawal who shared with different examples the methods of OSCE/OSPE. Dr. Tripta Bhagat Vice Chancellor, Dr. Alka Agrawal, Dean Medical, Dr. Shalabh Gupta Dean Academic and Dr. Akshay Bhargav, Dean Dental gave their valuable inputs and shared their experience to the participants about their views on innovations in the assessment process of skill enhancement. Next the participants were divided into different groups and given various Worksheets to work on and then were invited to present their process conducting of OSPE/OSCE. Everyone took part in the discussion and participated very enthusiastically. Post completion the participants were asked to fill the post test. The workshop concluded with filling the feedback form by all participants.

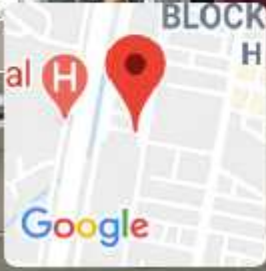

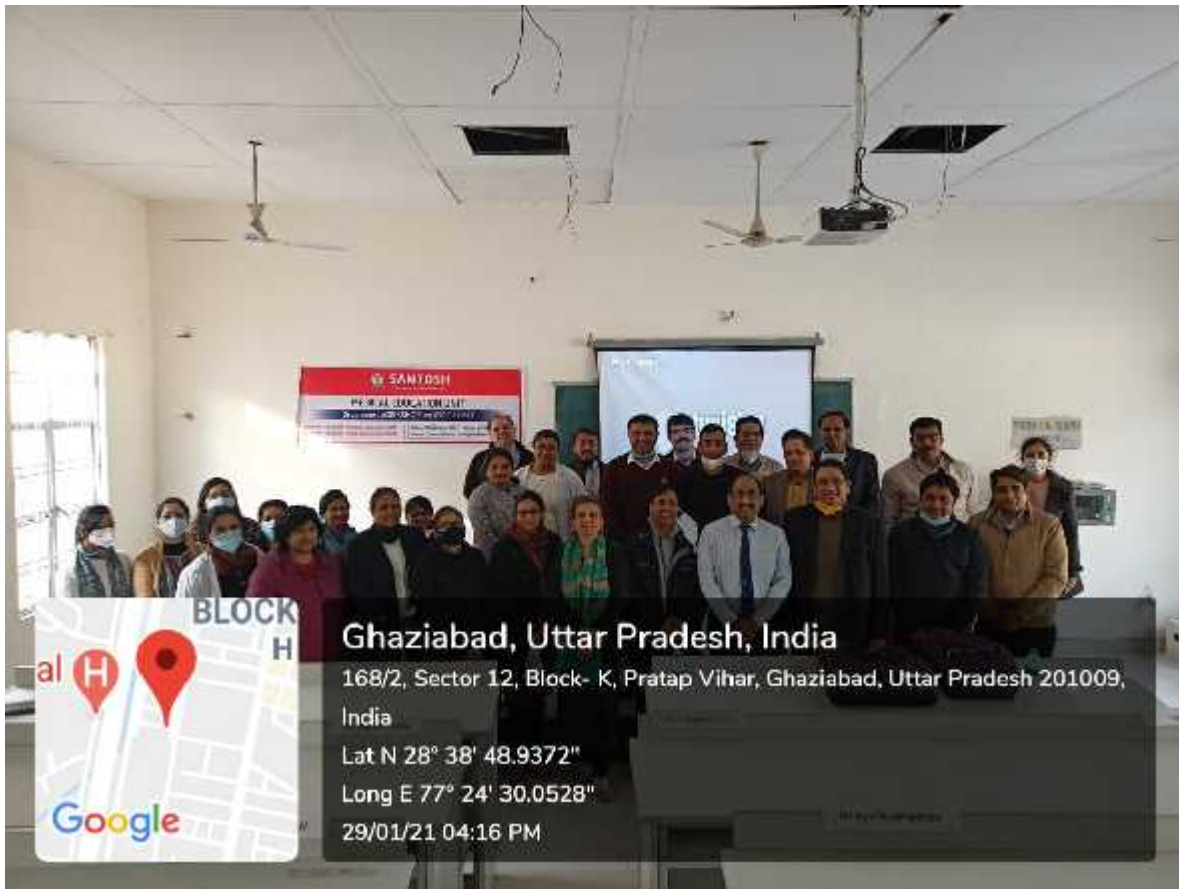

Many participants spoke about their experiences and gave constructive feedback. The participants appreciated the workshop and assured that they would implement what they learnt from various sessions. All the participants were happy to be involved and were asked to conduct one OSCE session in their Department.

The team work and spirit of the MEU in organising the workshop within a short timeframe during the pandemic was appreciated by all the participants. The program was conducted in sync with Internal Quality Assurance Cell of the University.

### **Virtual Orientation Workshop in International Healthcare - 29.11.2020**

Health care system is diverse in its approach in different parts of the world. Healthcare system in India operates as three tier system based on Primary Health Care to provide Universal Health Care to cater the robust population.

In the recent past major advances have been implemented in this field of Health care delivery in the form of new policies, health programs, etc. There has also been a paradigm shift in the Indian Health Education system so that the Indian Medical Graduates are competent to meet the health needs of our nation. At the same time, it is very essential for the Medical & Paramedical graduates to get adequate updates on the Healthcare system in other parts of the globe. On the 29th of November 2020, 2:30 - 4:30 PM, a Virtual Orientation workshop in International Healthcare was organized by the Department of Community Medicine, Santosh Deemed to be University, Ghaziabad in coordination with MediUpSkill. A total number of 17 participants from different courses & 4 faculty attended the workshop.

Dr. Rahul Shrivastav from Plutus Medical Coding Solutions oriented the participants on International Healthcare System in the high-income countries (US & UK), Outsourcing services available in India & abroad, Medical coding & Medical Summarization, Certification for the same & Career, growth & earning potential for the graduates. He presented the comparison of the different approaches in India & high-income countries like, Health economics & types of patient care. The orientation program concluded with updating the participants with the opportunity provided by the Department of Community Medicine, Santosh Deemed to be University, Ghaziabad in collaboration with MediUpSkill is offering 2 Courses - Medical Coding & Hospital Management to advance in these fields.

## Types of Patient Care

There are several different types of care for patients, depending on their needs. Types of patient care are listed below:

- Primary Care
- Specialty Care
- Emergency Care
- Urgent Care
- Long-term Care
- Hospice Care

The image shows a healthcare professional in blue scrubs with a stethoscope around their neck, standing and placing a hand on the shoulder of an elderly woman with short white hair who is smiling. They are in a clinical setting.

Navigation icons: back, forward, search, refresh, close.

## Virtual Orientation workshop in International Healthcare

The image shows a Microsoft PowerPoint presentation window. The slide content includes the title "Virtual Orientation workshop in International Healthcare", a red arrow graphic, and a logo for "The International Health Care Institute". The PowerPoint interface includes a ribbon at the top, a task pane on the left, and a Windows taskbar at the bottom.

## Hospital Systems

Different types of hospital systems have different types of ownership and financial goals. Types of hospital systems include:

- **Public Hospitals**  
Public hospitals are funded and owned by local, state or federal governments and receive money from the government. Some public hospitals are associated with medical schools.
- **Non-profit Hospitals**  
Non-profit hospitals are often community hospitals and may be linked with a religious denomination. The main goal of a non-profit hospital is to provide service to the community.
- **Private Hospitals**  
Private hospitals are owned by investors. Their goal is to earn a profit. Private hospitals tend to offer more profitable services such as rehabilitation, elective or plastic surgery or cardiology.

## **Santosh Medical College- Medical Education Unit**

### **Brief Report on Preparation of E- Content Workshop in Medical Education Technology**

The Medical Education Unit of Santosh Medical College organised a workshop on Preparation of E- Content **in Medical Education Technology on 04th May 2018.**

Faculty from Medical & Dental college of Santosh Deemed to be University were invited to participate in the workshop and 35 Faculty members registered and attended the workshop.

Most of them were not aware of e- content so very keen to learn new things. Document file, Presentation File, Audio File or Video File were discussed to use as study material or lectures and for which it is important to promote and develop e- content by the teachers.

Participants found workshop very useful and innovative. All of them willing to use e contents in their teaching methods.

## **Swachhatta Pakhwara**

**PARTICIPANTS:** Student Volunteers and Faculty Members of the College.

**DURATION:** 100 Hours conducting Swachata-related activities in 4 villages during 1st May to 31st July, 2018.

**VILLAGES SELECTED:**

- 1) Asalat Nagar Village, Muradnagar Block, Ghaziabad, Uttar Pradesh.
- 2) Jalalpur Raghunathpur Village, Muradnagar Block, Ghaziabad, Uttar Pradesh.
- 3) Shobhapur Village, Muradnagar Block, Ghaziabad, Uttar Pradesh.
- 4) Purana Haibatpur, Tigri Village, Ghaziabad, Uttar Pradesh.

**PLAN OF ACTION:**

In pursuant to the vision of Swachh Bharat Abhiyaan, Santosh Medical College, Ghaziabad launched the special cleanliness drive with regular monitoring and co-ordinating cleanliness activities in the selected areas.

The broad plan of action was:

1. Generating mass awareness on cleanliness and hygiene by holding Regular '*Sensitization Programmes*' on 'Swachh Bharat Abhiyaan' so as to motivate them to contribute to this Campaign in a proactive manner.
2. Activities under 'Swachh Bharat Abhiyaan' will be a key component of all the community work being done by the student volunteers of the college.
3. Students and Teachers will regularly participate in the special cleanliness drive on continuing basis.
4. Events such as poster competitions, quizzes, debates, painting competitions, es- say writing, poetry writing/ reciting, speeches, skits on 'Swachh Bharat' will be organized in the college.
5. Rallies on themes connected with 'Swachh Bharat Abhiyan' will be conducted to create mass awareness on such issues.
6. Removal of all kind of waste material like plastic wastes, polythene wastes, unusable non-biodegradable material etc. from the houses, weeding out the areas.
7. Administration of the mass pledge to maintain cleanliness of the village and its surrounding areas on regular basis.
8. Conducting workshop on the reuse and recycle of the waste material.
9. Constitution of the student sub-committees to conduct the regular inspection of the areas selected.

### **Group I**

- **Name of the village adopted - Asalat Nagar Village.**
- **Name of Pradhan - Vinod Pradhan.**
- **Main Village Population - 2000 people.**
- **Number of Participants - 10.**
- **Name of Participants -**
- **Abhilasha mehta - Group Leader,**
- **Harsh Talwar,**
- **Mohd. Adeep Faizy,**
- **Parul Singh,**
- **Sharmeen Hafeez,**
- **Trishla Parihar,**
- **Shubhi Jain,**
- **Kanupriya Mathur,**
- **Anibha Yadav.**
- **Harshit Chauhan.**

### **Group II**

- **Name of the village adopted - Jalalpur Raghunathpur Village.**
- **Name of Pradhan - Sunita Devi.**
- **Population - 2000-2500 people.**
- **Number of Participants - 10.**
- **Name of Participants -**
- **Aishwarya - Group Leader,**
- **Eshan Kumar Dhan,**
- **Gaurav Khurana,**
- **Prakhar Bhardwaj,**
- **Eva Gupta,**
- **Anjali Mamgain,**
- **Nandini Sharma,**
- **Palak Aggarwal,**
- **Sunena Gupta,**
- **Arunima Gupta.**

### **Group III**

- **Name of the village - Shobhapur Village.**
- **Name of Pradhan - Vinod Pradhan.**
- **Population - 1100-1200 people.**
- **Number of Participants - 9**
- **Name of the Participants -**
- **Anjali Ojha - Group leader,**

- Shubham Varshney,
- Rohit Tanwar,
- Sadhna Rana,
- Suman Rai,
- Rashmi Gupta,
- Anukriti Mamgain,
- Nandini Yadav,
- Shivani Vashishta.

#### Group IV

- Name of the village adopted - Purana Haibatpur, Tigri Village.
- Name of Pradhan - Sandhya Sharma.
- Main Village Population - 4000-5000 people.
- Number of Participants - 7.
- Name of Participants -
- Smriti Paliwal - Group Leader,
- Shweta Bhadana,
- Tripti Verma,
- Yash Malhotra,
- Dipesh Grover,
- Mohit Sharma,
- Shabiba Jamil.

### GROUP 1,2 AND 3 ACTIVITIES

VILLAGE SELECTED	DURATION	NO. OF HOURS	ACTIVITIES CONDUCTED
<ul style="list-style-type: none"> <li>• Asalat Nagar</li> <li>• Jalalpur Raghunathpur</li> <li>• Shobhapur</li> </ul>	01/05/2018 - 07/05/2018	8	1) Created awareness among villagers and participated in Nigrani Committee to stop open defecation in villages. 2) Organised Swachhata related movie screenings in school to help spread the message of swachhata. 3) Conducted Cleaning drive and educated the villagers about proper waste segregation, collection and disposal.

## **OUTCOMES:**

### **Group 1:**

#### **Achieved-**

- Special cleanliness drive in the primary school and villages initiated with the pledge.
- Mass awareness generated on hygiene and open defecation through door to door visit.
- Tree plantation drive for a Green village.
- Drawing competition on 'Swachh Bharat' were organized for school going children.
- Mass awareness by conducting Rallies on themes connected with 'Swachh Bharat Abhiyan' helped participation of various age group amongst the villagers.
- Display of posters related to 'Swachh Bharat Abhiyan'.
- Educated villagers to stop open defecation under the guidance of Nigrani Committee.
- Nukkad Natak around Swachhata as a creative initiative for villagers with no formal education was found to be very effective.
- Swachhata related movie screenings in school helped in providing a convivial yet educational interaction.
- Graffiti in public places on the theme of Swachhata.
- Blue Green dustbin was donated for segregation of waste into degradable and non degradable waste in primary school which was found to be effective.
- Swachhata Mela in School helped create awareness by:
  - Song
  - Poem
  - Dance
  - Pamphlet distribution
  - Interactive group participation

#### **LIMITATIONS:**

- Compost pits could only be worked on under the supervision of Pradhan.

## **Group 2:**

### **Achieved-**

- Mass awareness generated on hygiene through door to door visit allowing personal interaction and understanding for the necessity of swachhata.
- Tree plantation drive for a Green village.
- Special cleanliness drive in the primary school and villages showed great response.
- Swachhata Mela in School helped create awareness by
  - Drawing competition on 'Swachh Bharat' for school going children.
  - Interactive games helped educate the application of cleanliness at school and home.
  - Pamphlet distribution creating awareness for Clean India.
  - Display of posters related to 'Swachh Bharat Abhiyan'.
- Mass awareness during rallies was impactful.
- Educated villagers to stop open defecation under the guidance of Nigrani Committee.
- Nukkad Natak around Swachhata was able to generate participation and curiosity amongst villagers and made interaction easy.
- Screening of movies made it enjoyable and easy for children to understand the concept of swachhata.
- Awareness for segregation of biodegradable and non-biodegradable waste was effective amongst the school children as conscious efforts were made for its practical application by the student and teachers.

### **LIMITATIONS:**

- Open drainages could not be cleaned and closed.
- Graffiti on walls could not be achieved as most areas were already painted with information on Swachhata.
- Knowledge about Biogas was understood but not applicable as the villagers were not conducive to the idea.

- In spite of awareness amongst villagers there was less participation from the older community.
- More time and work is required to fulfill the mission of Swachhata in this village.

### **Group 3:**

#### **Achieved-**

- Sanitation among school children became effective by soap distribution process.
- Mass awareness generated on hygiene through door to door visit.
- Tree plantation drive for a Green village.
- Special cleanliness drive in the primary school and villages.
- Drawing competition on 'Swachh Bharat' for school going children.
- Rallies on themes connected with 'Swachh Bharat Abhiyan' creating mass awareness.
- Pamphlet distribution creating awareness for Clean India.
- Poster display related to 'Swachh Bharat Abhiyan'.
- Motivated villagers to stop open defecation and construction of toilets.
- Awareness of diseases spread through water, food, human and animal waste.
- Nukkad Natak around Swachhata.
- Waste segregation into biodegradable and non biodegradable through demonstration in school and villagers helped achieved the need to practice waste segregation.
- Awareness created the use of biodegradable waste as biofertilizers.
- Encouraged area to be designated for compost pits for waste disposal.

#### **LIMITATIONS:**

- No sewage disposal.
- Not enough dustbins at schools and public places.
- Follow up on Initiated programs.

## **OUTCOMES:**

### **Group 4:**

#### **Achieved-**

- School children and villagers pledged to support the Swachhata Abhiyan.
- Participation of villagers in spreading awareness.
- Motivated school children helped in participating in various swachhata activities.
- Tree plantation for Green India.
- Dustbins donated for proper segregation of waste.
- Swachhata mela for oral/personal hygiene was effective for creating awareness.

#### **LIMITATIONS:**

- Compost pit areas could not be designated although agreed upon to work on.
- Due to limited participants in the group certain group activities like Nukkad Natak could not be completed.
- Excessive water logging caused a hindrance in conducting the drive.

**SANTOSH**  
**MEDICAL COLLEGE HOSPITAL**  
A Unit of SANTOSH Deemed to be University

## **Medical Education Unit**

### **Brief Report on Online Resource for E- Content Workshop in Medical Education Technology**

The Medical Education Unit of Santosh Medical College organised a workshop on Online Resource for E- Content **in Medical Education Technology on 20th August 2018.**

Faculty from Medical & Dental college of Santosh Deemed to be University were invited to participate in the workshop and 79 Faculty members registered and attended the workshop.

All the participants were very enthusiastic and actively participated in all activities. They were very keen to use these resources in their teaching schedule.
