Date: 27th March 2023

The Registrar
Santosh
(Deemed to be University),
No. 1, Santosh Nagar,
Ghaziabad – 201 009, Uttar Pradesh

Subject: Renewal of Recognition of Scientific and Industrial Research Organisations (SIROs).

Dear Sir,

This has reference to your application for renewal of recognition of **Santosh (Deemed to be University), Ghaziabad, Uttar Pradesh** as a Scientific and Industrial Research Organisation (SIRO) by the Department of Scientific and Industrial Research under the Scheme on Recognition of Scientific and Industrial Research Organisations (SIROs), 1988.

2. This is to inform you that it has been decided to accord renewal of recognition to **Santosh (Deemed to be University), Ghaziabad, Uttar Pradesh** from **01.04.2023 to 31.03.2026**. The recognition is subject to terms and conditions mentioned overleaf.
3. Receipt of this letter may kindly be acknowledged.

Yours faithfully,

(Dr. P.K. Dutta)
Scientist - 'G'

TERMS AND CONDITONS FOR RECOGNITION OF SCIENTIFIC AND INDUSTRIAL RESEARCH ORGANISATIONS (SIROs)

1. The organizations should acknowledge receipt of the recognition letter by stating that they will abide by the terms and conditions of recognition.
2. The recognition will entitle the SIRO to receive such administrative support from the DSIR, Ministry of Science & Technology as may be required on issue to promote or encourage scientific research activities.
3. SIROs recognized by DSIR are also deemed to be registered. A separate certificate of registration** is issued along with the recognition letter. The recognition would be valid for the period specified in the recognition letter and application for renewal of recognition shall be submitted in the prescribed proforma at least 3 months before the expiry of the valid recognition. Failure to submit application in time may lead to automatic lapsing of the recognition& registration.
***However, the certificate of registration is not issued to SIROs engaged in activities falling within the definition of 'hospital' as per notification No. 51/96-Cus. Dt. 23.07.1996 issued by the Department of Revenue.*
4. The recognition of DSIR does not amount to approval u/s 35(1)(ii)/(iii) of Income Tax Act, 1961.
5. The registration will entitle the SIROs to avail of custom duty exemption on purchase of equipment, instruments, spares thereof, consumables, etc. used for research and development subject to relevant Government policies in force from time to time. Custom duty exemption has to be separately dealt with the customs authorities. The SIROs should abide by the terms & conditions of the customs notifications issued/amended from time to time.
6. Separate books of accounts shall be maintained by the SIRO for research & development activities and the R&D expenditure, both capital and recurring should be reflected the Annual Report and Statement of Accounts of the Organization in separate schedules.
7. Disposal/sale of equipment and products/prototypes/intermediates, if any, emanating from the R&D/pilot plant, should be intimated to DSIR immediately. The realization, if any, from above or any services rendered etc. shall be shown in the R&D accounts of the organization as income of the SIRO in the audited accounts as well as annual report and should be used or reinvested for research activities only. In case of disposal/sale of R&D equipment, clearance from custom authorities will also be required in view of the applicable notifications under which the equipment was imported/purchased in India.
8. Accelerated depreciation allowance as per Rule 5(2) of Income Tax Rules 1962 will be available on investments on plant & machinery by any industrial unit which has made these investments for the purpose of commercialization of technology/know-how acquired from a SIRO recognition by DSIR.
9. Brief summary of the achievements of the organization shall be submitted to the DSIR every year. This should include details related to papers published, patents obtained and process developed, new products introduced, awards & prizes received, copy of Annual Report and Statement of Accounts of the organization etc. List of equipment, instruments, parts and consumables imported/purchased using the duty exemption should also be submitted to DSIR along with the Annual Report.
10. Any violation of the terms & conditions mentioned-above and / or provisions of taxation in force will make the organization liable to de-recognition.
11. The organization will also conform to such other conditions for recognition stipulated in the Guidelines or as may be specifically provided in the recognition letter.

Introduction

In recent decades' medical education curricula have undergone many modifications for a variety of reasons. In spite of these changes, ethics education has not received adequate attention in medical schools throughout the world. There is an emerging need for introduction of teaching medical ethics as a consequence of several social and scientific processes.

There is good evidence to prove that many medical schools will sincerely welcome guidance in the teaching of ethics. They will send physicians to courses; they will welcome novel methods of teaching the subject, they will adopt a new syllabus either in its entirety or insofar as it suits their environment. Universities and institutions realize that a 21st century ethical approach by physicians to their colleagues as well as to their patients will strengthen the efficiency of the medical profession. The need for a modernized curriculum derives not only from the fact that many of the existent curricula are antiquated and completely out of tune with the intricacies of recent scientific advances, but also from the safeguards which we require in the form of educational innovations which will insemminate ethical values into our students, in spite of this materialistic age in which we live in. The UNESCO Chair adopted the idea and undertook the mission.

The Asia Pacific Bioethics Division of the UNESCO Chair Haifa acknowledges this region is host to over 60% of the global population. With the advent of Globalisation, this has impacted on many regions and societies in the Asia Pacific are rapidly facing transformation and transition both happening simultaneously. This has brought about significant changes. Consequently, leading to change in Social scenarios. These can impact on Cultural identities and expressions affecting not only

arts, language but also Values traditions, norms. This has brought new ethical challenges in many areas and importantly Bioethics that doctors and health care profession have now to confront.

The Aims of The Asia Pacific Bioethics Division of the UNESCO Chair Haifa

The Network will aim to be the leader in the region mandated to study and develop curriculum teaching, training and research in the changing bioethics needs of the populations of the region, using the network's national units of the UNESCO chair in Bioethics.

- The network will aim to ameliorate the current teaching of ethics in medical schools in the regions by dialogue and deliberations among the national units of the network and explore pilot initiatives in teaching and training methods with evaluations of the new and current initiatives in order that evidence based methods and content might be developed to bridge the gap in the identified post-modern ethics education and practice needs of this era.
- The network will offer opportunities to collaborate and participate in research across countries of the Asia Pacific region in answering research questions in ethical issues including areas that might have cultural variations which could impact of the method of teaching of ethics and the practice of ethics in clinical and other arenas.
- The network will offer opportunities to train and research the area of bioethics. Bioethics is based on the premise of complexity and approaches problems inherent to humanity and its environment in a Trans disciplinary manner. Its object of study and of intervention is the perpetual and specific interplay of the interrelationships between humans, humans and their environment and humans moved by ethical principals in accordance with their respective nationalities and cultures.

Requirements for Establishing A Bioethics Unit of the International Network of the UNESCO Chair in Bioethics' Asia Pacific Division

Please answer these:

1. Do you want to establish a Bioethics Unit of the International Network of the UNESCO Chair?
2. Is your University / College / institution willing to host the Bioethics Unit of the UNESCO chair?
3. Who will be the Chair / Head of the unit at your institution / University / College?
4. Will a steering committee be appointed (which will have members of disciplines and a member with a legal / Medical Law background a secretary and chair who will be the head / chair of the unit) that will be able to meet periodically and offer directions in Teaching, Training and Research directions for the Bioethics Unit?
5. Will you agree to the Head of the Asia Pacific Division will be a member of the steering committee and will receive a appointment of Honorary / Visiting / Adjunct Professor of your institution while serving on the steering committee and working with the Bioethics Unit of the UNESCO Chair Haifa at your Institution?
5. Will your institution be willing to collaborate with Bioethics units of the Asia Pacific network in Research Activities Teaching faculty development and developing teaching curriculum for Medical, Dental Health Law and Health Science courses?
6. Will your institution offer funds / resources (Admin Secretary / equipment etc) to establish and support a functioning Bioethics unit of the University?
7. Will the Head of the unit on behalf of your institution 'Bioethics Unit and other members participate and present scientific information of the scientific work of the unit / Asia Pacific network and promote the World Congress of Bioethics Medical Ethics and Medical Law of the UNESCO Chair in Bioethics?

United Nations
Educational, Scientific and
Cultural Organization

UNESCO Chair
in Bioethics
University of Haiti

8. Will the unit in time be able to host a meeting of the Bioethics Network of UNESCO Chair in Bioethics?
9. Will your unit head be willing to prepare the required an annual report to be submitted to the administration of the UNCESCO and then presented at the unit heads meeting?
- 10 Will the head of the unit attend the annual meeting of the Heads of units of the International Network of the UNESCO Chair in Bioethics?
- 11 Will your university will be able to invest the necessary funds: for establishing Bioethics department that will take part in Bioethics Teaching Faculty Development program
12. Will your Institution Host accommodation, travel (Internal) local hospitality, Secretarial and local transport requirements when the Asia Pacific Heads attends the University / Institution?

On behalf of

I agree to the requirements to establish the Bioethics Unit of the International Network of the UNESCO chair in Bioethics at our University / Institution and will endeavour to work to achieve the UNESCO Chair in Bioethics' objectives in teaching, training and research.
