HOLI CELEBRATION

Santosh family celebrated Holi festival in the department of Pathology with full enthusiasm on 16.03.2022. Festival of Holi celebrates the arrival of spring and it signifies the triumph of good over evil. Holi is known as the Festival of Colours and the vibrant colours of Holi represent love & Harmony with Diversity. On this day all the staff members came together as one and celebrated holi with flowers & coloured powder (Gulal) to express love & respect. All the members actively engaged in different games & Prizes were distributed.

We certainly felt the love, fun & bonding among all the teaching, non-teaching & management team at Holi Celebrations on this day at Santosh deemed to be university, Ghaziabad UP.
