REPORT

Preface:

Every year countries around the world celebrate World Blood Donor Day (WBDD). The event serves to raise awareness of the need for safe blood and blood products and to thank voluntary, unpaid blood donors for their life-saving gifts of blood.

A blood service that gives patients access to safe blood and blood products in sufficient quantity is a key component of an effective health system. The global theme of World Blood Donor Day changes each year in recognition of the selfless individuals who donate their blood for people unknown to them.

Tangible Outcomes

To highlight the significance of blood donation and mark the contribution of voluntary blood donors.

REPORT

Preface:

Santosh Deemed to be University (Ghaziabad) organized an Awareness Session on World Health Day on 07-04-2021. Theme - BUILDING A FAIRER, HEALTHIER WORLD. Objective of the awareness session is to impart basic knowledge about Mental illness and how the taboo regarding mental health is causing more harm and stigma for the patients in the society

Collaboration:

- The event was organized in collaboration with Community Health Centre, Muradnagar on the World Health Day 2021
- The event was organised by the Department of Community Medicine, Santosh Medical College, Ghaziabad.
- The event was promoted through the official social network of the University as well as on some of the Social Groups of professionals in the individual capacity of the organizing members.

Execution:

- Event was executed at Community Health Centre, Muradnagar. The participation was received in physical mode on the location.
- The Interns posted in the Department of Community Medicine, Santosh Medical College, Ghaziabad prepared a NukkadNatak on a teenager suffering from psychological distress on a daily basis.
- The common symptoms to recognise mental illness among patients were portrayed in an easy to understand manner. The social stigmatisation of patients and their family members were also laid emphasis on.
- Following superstitious practices and going to quacks were also discouraged instead of seeking proper treatment.
- More than 50 patients were present at the CHC that day and many of their staff members were present at the awareness session.
- Feedback of the event was collected towards the end of the event and the most appreciated part of the event was the interactive session after the nukkadnatak where the patients frankly discussed their doubts regarding these issues.
- Total beneficiaries - 60

REPORT

Preface

Santosh Deemed to be University (Ghaziabad) organized a session on COVID 19 AWARENESS. Dr Manisha Gupta, Professor, Department of Obstetrics and Gynaecology delivered lectures to A K Children Academy (23/4/2021), NGO AAROHAN (30/5/2021) and Springfield school (24/5/2021).

Objective of the program was to reinforce the importance of VARIOUS DOS AND DONTs during the COVID era. Various myths regarding COVID vaccination were dispelled and the audience were encouraged to get themselves and their family members vaccinated.

Execution

Event was executed on the virtual platform in the Santosh Medical College Hospital, Santosh Deemed to Be University, Ghaziabad. Many participants of different age groups ranging from school children to their family members attended the session. All sessions were highly interactive with all actively participating in the discussion and clearing their doubts.

Tangible Outcomes

To encourage the society to follow COVID protocols to protect themselves and society from COVID 19 and to make people aware of the advantages of COVID vaccination.

SANTOSH MEDICAL COLLEGE
Menstruation MATTERS
 TO EVERYONE, EVERYWHERE

THE ISSUES:

ALL WOMEN AND GIRLS SHOULD BE ABLE TO MANAGE THEIR MENSTRUATION HYGIENICALLY, SAFELY, IN PRIVACY AND WITH DIGNITY.

34% Only 34% of girls in India have functioning toilets.	17% Only 17% of girls in India have access to change their sanitary materials.	2.5% Only 2.5% of schools have the menstrual health care kits.	1/3 Only 1/3 of schools have separate disposal bins.
--	--	--	--

THE GOALS:

AN END TO TABOOS: Taboo prevents menstruating women from doing their things involving their own dignity, women can take good personal health care for personal activities too.	INFORMATION: Factual information and education about menstrual hygiene should be provided in schools, via health workers and others, via the media and at home.	HYGIENIC MATERIALS & SAFE DISPOSAL: Hygienic feminine care products are easily accessible and affordable. Used materials are safely disposed of in an environmentally convenient way.	FACILITIES: Clean and private toilets with water and soap available at schools, at low cost places, in workplaces, at public toilets and at home.

REPORT

Adolescence is a critical link between childhood and adulthood, characterized by significant physical, psychological, and social transitions. These transitions carry new risks but also present opportunities to positively influence the immediate and future health of young people.

The department of Obstetrics and gynaecology observed Adolescent Health Care Awareness Day on 8.3.2021, in continuation of International women's week. Young girls and their mothers were counselled about the health problems associated in adolescent girls, with special emphasis on menstrual hygiene and teenage pregnancy.

Execution:

Event was executed at Primary Health Centre, Bamheta. The participation was received in physical mode on the location.

The Interns and postgraduate students of the Department of Community Medicine, Santosh Medical College, Ghaziabad prepared Monologues and educational material on common issues specific to Women like menstruation, pregnancy, lactation.

The pathophysiology and risk factors of common reproductive tract infections, and common symptoms of nutritional deficiency diseases due to poor diet were explained to the patients and staff of the PHC. The importance of early recognition and prompt treatment in deciding the prognosis of these diseases were emphasised to the patients.

Various schemes specific to Women being run by the government were also explained like Janani Suraksha Yojana, BetiBachaoBetiPadhao etc.

More than 40 patients attended the session at the PHC that day and 5 of their staff members were also present during the awareness session.

Feedback of the event was collected towards the end of the event and the most appreciated part of the event was the interactive session where the patients frankly discussed their doubts regarding these issues.

Total beneficiaries - 45

REPORT

We started for camp at 9:30 am from the college and reached Springfield School, Ghaziabad at 9:45 am. The camp was organized by our college and was conducted on.'.....We diagnosed around 22 students as it was a Diagnostic Camp so we first distributed Camp Cards to the respected classes for filling of initials by the students themselves or under the guidance of their class teachers. Sterilization was properly maintained during the course of diagnosis. Oral hygiene instructions and proper brushing method, with the help of a model and a tooth brush was demonstrated in the presence of principal and other teachers of the school along with the guardians of the students. We also motivated the students by giving them free toothpaste samples. We were there till 12:30 pm and reached college by 12:45 pm.
