Indian Council of Medical Research

Short Term Studentship

Welcome: Ms. Mannat Singh (tmannat12@gmail.com)

REPORT SUBMISSION FORM FOR SHORT TERM STUDENT

Dear Ms. Mannat Singh

You have successfully submitted report for STS-2022. (Reference Id:2022-12237)

For any queries please sent an email to stshrd2017@gmail.com. In case you want to speak to us for queries related to stipend and certificate call on 011-26588930, 2658889, 26588707, 26589335 Extn 369. For any other matters call on 26588980, 2658889, 26588707, 26589335 Extn 369.

For technical support related to online submission you may call on 9911761800(Monday-Friday 9:00 to 5:00PM) speak to our IT team Sh. Vikas Kataria.

Please kindly note that your report will be evaluated by experts. If the report is approved, stipend and certificate will be issued between August - October, 2023. For further updates please refer to STS-2022 website.

[Click here to download your submitted information](#)

Please provide feedback (Optional)

Regarding STS online program

Q) How would you rate the STS online program?

Poor Fair Good Very Good Excellent

Q) Can you list out the difficulties that you faced using online program (If any)?

Subject: Request for research funding

Respected Mam,

We have received a request from your side for a research grant to conduct medical/dental research in various departments. We have received your proposals and revert back after review committee's decision.

S.No	Name of the Project	Name of the Principal Investigator
1	Morphometric study of Intratemporal course of facial nerve in relation to pneumatization of temporal bone	Dr Latika Arora
2	A prospective study to investigate the the utility of anthropometric airway parameters as predictors of difficult airway in neonates	Dr Gauresh Singh
3	An observational study to assess different airway assessment methods in predicting difficult laryngoscopy	Dr Suveer Sharma
4	A pilot study to compare Triglyceride glucose (TyG) index with HbA1C as a marker of prediabetes and also with HOMA-IR (Homeostatic model assessment for assessing insulin resistance) as a marker of insulin resistance.	Dr Preeti Sharma
5	A cross sectional study to assess Acute ECG changes during smoking and tobacco chewing	Dr Harshbardhan
6	Knowledge, attitude, and practices of tobacco vendors toward selling tobacco products to young children and adolescents in Ghaziabad	Ms Namrata Soni

Respected Mam,

We have received a request from your side for a research grant to conduct medical/dental research in various departments. We have received your proposals and revert after review committee's decision.

S.No.	Name of the Project, Clinical Trial, Endowment, Chairs	Name of the Principal Investigator/Co Investigator
1	A comparison of two doses of palonosetron in the prevention of postoperative nausea vomiting in patients undergoing laparoscopic gynecological surgery.	Dr Vinod Kumar Yadav
2	A randomised controlled trial to compare Dexmedetomidine and propofol at different sedation depths during drug-induced sleep endoscopy	Dr Anshul Gaur
3	A randomized controlled trial to compare 5 different laryngoscope blades in ease of intubation and incidence of dental injury during direct laryngoscopy.	Dr Mahima Lakhanpal
4	Role of Fructose Enriched Foods in Metabolic Syndrome and cardiovascular Diseases.	Dr Juhi Aggarwal
5	Effect of hydroxychloroquine on beta cell function, insulin resistance, and inflammatory markers in type 2 diabetes patients uncontrolled on glimepiride and metformin therapy	Dr Jyoti Batra
6	Demographic profile of patients with right ventricular failure admitted in tertiary care center	Dr Deepika Agarwal

7	A cross-sectional observational study to assess the perceived effect of increased pricing on smoked tobacco products quit rates	Mr Pradhumn Katara
8	An In-Vitro Analysis of Root Fracture Strength Using Single File Systems	Dr Shivani Mangal
9	Incidence and Intensity of Pain Following Endodontic Treatment by Different Instrumentation Techniques in Teeth With Periapical Lesion	Dr Avdesh Sharma
10	The relationship between continuous and long term use of mobile phones and hearing aids among adults	Dr Abhay Kumar Singh
11	A randomized clinical trial to evaluate the Clinical and radiographic success of immediate implants using commercially available bone augmentation materials: A two year follow up study.	Dr SV Singh
12	Utility of Microbiology Culture in Pediatric Appendicitis to Risk Stratify Patients	Dr Ashutosh Rawat
13	A Randomized controlled trial to investigate the effect of Postoperative Pain on Early Initiation of Breastfeeding and Ambulation After Cesarean Section	Dr Alpana Agrawal
14	A retrospective cohort study to identify clinical characteristics of patients with hypertensive disorders of pregnancy associated with requiring multiple anti-hypertensive medications to optimize blood pressure in the postpartum setting.	Dr Gunjan Gulati Bhagat
15	Manifestations of cardiac myopathy Imaging studies with pathologic correlations	Dr Ashish Kumar Sukla
16	A prospective study to examine the effect of site and shape of scleral incisions for cataract surgery on corneal curvature	Dr Sarita Agrawal
17	A comparative study to assess the lumbar intervertebral disc parameters in patients with chronic low back pain and healthy individuals	Dr Rajeev Anand
18	Efficacy of Cefazolin versus Ceftriaxone for Extremity Open Fracture Management	Dr Amit Dwivedi
19	Awareness, knowledge and perception on Organ donation among students of health care profession	Dr Swati Singh

20	A comparative study on deciduous teeth eruption among infants born after low-risk pregnancy compared to infants diagnosed with intrauterine growth restriction	Dr Natasha Gambhir
21	Epidemiology of Acute Gastroenteritis Caused by Rotavirus Among Children Less than Five Years Old Admitted in a tertiary care center in Northern Indian region	Dr Alka Agrawal
22	Assessment of serum copper and zinc concentrations in North Indian children with overweight and obesity.	Dr K C Aggarwal

Respected Madam,

This is in reference to our ongoing discussions on funding research for health sciences projects for your esteemed institution.

I am pleased to inform you that as at Kadambri Educational and Charitable Trust, **we are committed to contribute to research and development by providing monetary support, our board has approved** a fund of INR 23,10,000/- towards research grant for the following projects.

S.No.	Name of the Project, Clinical Trial, Endowment, Chairs	Name of the Principal Investigator/Co Investigator	Duration of the project	Funds provided (INR in Lakhs)	Department of Principal Investigator/ Co Investigator
1	A comparison of two doses of palonosetron in the prevention of postoperative nausea vomiting in patients undergoing laparoscopic gynecological surgery.	Dr Vinod Kumar Yadav	0.80	12 months	Faculty of Medicine
2	A randomised controlled trial to compare Dexmedetomidine and propofol at different sedation depths during drug-induced sleep endoscopy	Dr Anshul Gaur	1.20	12 months	Faculty of Medicine
3	A randomized controlled trial to compare 5 different laryngoscope blades in ease of intubation and incidence of dental injury during direct laryngoscopy.	Dr Mahima Lakhanpal	1.10	12 months	Faculty of Medicine
4	Role of Fructose Enriched Foods in Metabolic Syndrome and cardiovascular	Dr Juhi Aggarwal	0.70	12 months	Faculty of Medicine

17	A comparative study to assess the lumbar intervertebral disc parameters in patients with chronic low back pain and healthy individuals	Dr Rajeev Anand	0.90	18 months	Faculty of Medicine
18	Efficacy of Cefazolin versus Ceftriaxone for Extremity Open Fracture Management	Dr Amit Dwivedi	0.80	18 months	Faculty of Medicine
19	Awareness, knowledge and perception on Organ donation among students of health care profession	Dr Swati Singh	0.60	6 Months	Faculty of Medicine
20	A comparative study on deciduous teeth eruption among infants born after low-risk pregnancy compared to infants diagnosed with intrauterine growth restriction	Dr Natasha Gambhir	0.50	6 Months	Faculty of Dentistry
21	Epidemiology of Acute Gastroenteritis Caused by Rotavirus Among Children Less than Five Years Old Admitted in a tertiary care center in Northern Indian region	Dr Alka Agrawal	1.60	18 months	Faculty of Medicine
22	Assessment of serum copper and zinc concentrations in North Indian children with overweight and obesity.	Dr K C Aggarwal	1.40	18 months	Faculty of Medicine

Please share the full proposals within 30 days of receiving this letter. Further, please submit a copy of final project report post completion.

Respected Mam,

We have received a request from your side for a research grant to conduct medical/dental research in various departments. We have received your proposals and revert back after review committee's decision.

S.No	Name of the Project	Name of the Principal Investigator
1	Morphometric study of Intratemporal course of facial nerve in relation to pneumatization of temporal bone	Dr Latika Arora
2	A prospective study to investigate the the utility of anthropometric airway parameters as predictors of difficult airway in neonates	Dr Gauresh Singh
3	An observational study to assess different airway assessment methods in predicting difficult laryngoscopy	Dr Suveer Sharma
4	A pilot study to compare Triglyceride glucose (TyG) index with HbA1C as a marker of prediabetes and also with HOMA-IR (Homeostatic model assessment for assessing insulin resistance) as a marker of insulin resistance.	Dr Preeti Sharma
5	A cross sectional study to assess Acute ECG changes during smoking and tobacco chewing	Dr Harshbardhan
6	Knowledge, attitude, and practices of tobacco vendors toward selling tobacco products to young children and adolescents in Ghaziabad	Ms Namrata Soni

Respected Mam,

I am pleased to inform you I am ready to provide you a grant of INR 8,30,000 towards following projects by your faculty

S.No	Name of the Project	Name of the Principal Investigator	Funds provided (INR in Lakhs)
1	Morphometric study of Intratemporal course of facial nerve in relation to pneumatization of temporal bone	Dr Latika Arora	1.30
2	A prospective study to investigate the the utility of anthropometric airway parameters as predictors of difficult airway in neonates	Dr Gauresh Singh	1.50
3	An observational study to assess different airway assessment methods in predicting difficult laryngoscopy	Dr Suveer Sharma	2.50
4	A pilot study to compare Triglyceride glucose (TyG) index with HbA1C as a marker of prediabetes and also with HOMA-IR (Homeostatic model assessment for assessing insulin resistance) as a marker of insulin resistance.	Dr Preeti Sharma	1.30
5	A cross sectional study to assess Acute ECG changes during smoking and tobacco chewing	Dr Harshbardhan	0.90
6	Knowledge, attitude, and practices of tobacco vendors toward selling tobacco products to young children and adolescents in Ghaziabad	Ms Namrata Soni	0.80

Please share with me the full proposals within 30 days of receiving this letter. Further, please submit a copy of final project report post completion as well as the outcome/impact of the project.

Thank you and regards.

Respected Mam,

We have received a request from your side for a research grant to conduct medical/dental research in various departments. We have received your proposals and revert after review committee's decision.

S.No.	Name of the Project, Clinical Trial, Endowment, Chairs	Name of the Principal Investigator/Co Investigator
1	A comparison of two doses of palonosetron in the prevention of postoperative nausea vomiting in patients undergoing laparoscopic gynecological surgery.	Dr Vinod Kumar Yadav
2	A randomised controlled trial to compare Dexmedetomidine and propofol at different sedation depths during drug-induced sleep endoscopy	Dr Anshul Gaur
3	A randomized controlled trial to compare 5 different laryngoscope blades in ease of intubation and incidence of dental injury during direct laryngoscopy.	Dr Mahima Lakhanpal
4	Role of Fructose Enriched Foods in Metabolic Syndrome and cardiovascular Diseases.	Dr Juhi Aggarwal
5	Effect of hydroxychloroquine on beta cell function, insulin resistance, and inflammatory markers in type 2 diabetes patients uncontrolled on glimepiride and metformin therapy	Dr Jyoti Batra
6	Demographic profile of patients with right ventricular failure admitted in tertiary care center	Dr Deepika Agarwal

7	A cross-sectional observational study to assess the perceived effect of increased pricing on smoked tobacco products quit rates	Mr Pradhumn Katara
8	An In-Vitro Analysis of Root Fracture Strength Using Single File Systems	Dr Shivani Mangal
9	Incidence and Intensity of Pain Following Endodontic Treatment by Different Instrumentation Techniques in Teeth With Periapical Lesion	Dr Avdesh Sharma
10	The relationship between continuous and long term use of mobile phones and hearing aids among adults	Dr Abhay Kumar Singh
11	A randomized clinical trial to evaluate the Clinical and radiographic success of immediate implants using commercially available bone augmentation materials: A two year follow up study.	Dr SV Singh
12	Utility of Microbiology Culture in Pediatric Appendicitis to Risk Stratify Patients	Dr Ashutosh Rawat
13	A Randomized controlled trial to investigate the effect of Postoperative Pain on Early Initiation of Breastfeeding and Ambulation After Cesarean Section	Dr Alpana Agrawal
14	A retrospective cohort study to identify clinical characteristics of patients with hypertensive disorders of pregnancy associated with requiring multiple anti-hypertensive medications to optimize blood pressure in the postpartum setting.	Dr Gunjan Gulati Bhagat
15	Manifestations of cardiac myopathy Imaging studies with pathologic correlations	Dr Ashish Kumar Sukla
16	A prospective study to examine the effect of site and shape of scleral incisions for cataract surgery on corneal curvature	Dr Sarita Agrawal
17	A comparative study to assess the lumbar intervertebral disc parameters in patients with chronic low back pain and healthy individuals	Dr Rajeev Anand
18	Efficacy of Cefazolin versus Ceftriaxone for Extremity Open Fracture Management	Dr Amit Dwivedi
19	Awareness, knowledge and perception on Organ donation among students of health care profession	Dr Swati Singh

22/15

20	A comparative study on deciduous teeth eruption among infants born after low-risk pregnancy compared to infants diagnosed with intrauterine growth restriction	Dr Natasha Gambhir
21	Epidemiology of Acute Gastroenteritis Caused by Rotavirus Among Children Less than Five Years Old Admitted in a tertiary care center in Northern Indian region	Dr Alka Agrawal
22	Assessment of serum copper and zinc concentrations in North Indian children with overweight and obesity.	Dr K C Aggarwal

Subject: Approval for research funding

Respected Madam,

This is in reference to our ongoing discussions on funding research for health sciences projects for your esteemed institution.

I am pleased to inform you that as at Kadambri Educational and Charitable Trust, **we are committed to contribute to research and development by providing monetary support, our board has approved** a fund of INR 23,10,000/- towards research grant for the following projects.

S.No.	Name of the Project, Clinical Trial, Endowment, Chairs	Name of the Principal Investigator/Co Investigator	Duration of the project	Funds provided (INR in Lakhs)	Department of Principal Investigator/ Co Investigator
1	A comparison of two doses of palonosetron in the prevention of postoperative nausea vomiting in patients undergoing laparoscopic gynecological surgery.	Dr Vinod Kumar Yadav	0.80	12 months	Faculty of Medicine
2	A randomised controlled trial to compare Dexmedetomidine and propofol at different sedation depths during drug-induced sleep endoscopy	Dr Anshul Gaur	1.20	12 months	Faculty of Medicine
3	A randomized controlled trial to compare 5 different laryngoscope blades in ease of intubation and incidence of dental injury during direct laryngoscopy.	Dr Mahima Lakhanpal	1.10	12 months	Faculty of Medicine
4	Role of Fructose Enriched Foods in Metabolic Syndrome and cardiovascular	Dr Juhi Aggarwal	0.70	12 months	Faculty of Medicine

5	Effect of hydroxychloroquine on beta cell function, insulin resistance, and inflammatory markers in type 2 diabetes patients uncontrolled on glimepiride and metformin therapy	Dr Jyoti Batra	1.00	24 months	Faculty of Medicine
6	Demographic profile of patients with right ventricular failure admitted in tertiary care center.	Dr Deepika Agarwal	0.60	6 Months	Faculty of Medicine
7	A cross-sectional observational study to assess the perceived effect of increased pricing on smoked tobacco products quit rates	Mr Pradhumn Katara	0.60	6 Months	Faculty of Medicine
8	An In-Vitro Analysis of Root Fracture Strength Using Single File Systems	Dr Shivani Mangal	1.20	24 months	Faculty of Dentistry
9	Incidence and Intensity of Pain Following Endodontic Treatment by Different Instrumentation Techniques in Teeth With Periapical Lesion	Dr Avdesh Sharma	0.60	12 months	Faculty of Dentistry
10	The relationship between continuous and long term use of mobile phones and hearing aids among adults	Dr Abhay Kumar Singh	3.60	24 months	Faculty of Medicine
11	A randomized clinical trial to evaluate the Clinical and radiographic success of immediate implants using commercially available bone augmentation materials: A two year follow up study.	Dr SV Singh	1.10	12 months	Faculty of Dentistry
12	Utility of Microbiology Culture in Pediatric Appendicitis to Risk Stratify Patients	Dr Ashutosh Rawat	0.80	12 months	Faculty of Medicine
13	A Randomized controlled trial to investigate the effect of Postoperative Pain on Early Initiation of Breastfeeding and Ambulation After Cesarean Section	Dr Alpana Agrawal	0.80	12 months	Faculty of Medicine
14	A retrospective cohort study to identify clinical characteristics of patients with hypertensive disorders of pregnancy associated with requiring multiple anti-hypertensive medications to optimize blood pressure in the postpartum setting.	Dr Gunjan Gulati Bhagat	0.60	6 Months	Faculty of Medicine
15	Manifestations of cardiac myopathy Imaging studies with pathologic correlations	Dr Ashish Kumar Sukla	1.20	18 months	Faculty of Medicine
16	A prospective study to examine the effect of site and shape of scleral incisions for cataract surgery on corneal curvature	Dr Sarita Agrawal	1.40	18 months	Faculty of Medicine

17	A comparative study to assess the lumbar intervertebral disc parameters in patients with chronic low back pain and healthy individuals	Dr Rajeev Anand	0.90	18 months	Faculty of Medicine
18	Efficacy of Cefazolin versus Ceftriaxone for Extremity Open Fracture Management	Dr Amit Dwivedi	0.80	18 months	Faculty of Medicine
19	Awareness, knowledge and perception on Organ donation among students of health care profession	Dr Swati Singh	0.60	6 Months	Faculty of Medicine
20	A comparative study on deciduous teeth eruption among infants born after low-risk pregnancy compared to infants diagnosed with intrauterine growth restriction	Dr Natasha Gambhir	0.50	6 Months	Faculty of Dentistry
21	Epidemiology of Acute Gastroenteritis Caused by Rotavirus Among Children Less than Five Years Old Admitted in a tertiary care center in Northern Indian region	Dr Alka Agrawal	1.60	18 months	Faculty of Medicine
22	Assessment of serum copper and zinc concentrations in North Indian children with overweight and obesity.	Dr K C Aggarwal	1.40	18 months	Faculty of Medicine

Subject: Approval for research funding

Respected Madam,

This is in reference to our ongoing discussions on funding research for health sciences projects for your esteemed institution.

I am pleased to inform you that as at Kadambri Educational and Charitable Trust, **we are committed to contribute to research and development by providing monetary support, our board has approved** a fund of INR 23,10,000/- towards research grant for the following projects.

S.No.	Name of the Project, Clinical Trial, Endowment, Chairs	Name of the Principal Investigator/Co Investigator	Duration of the project	Funds provided (INR in Lakhs)	Department of Principal Investigator/ Co Investigator
1	A comparison of two doses of palonosetron in the prevention of postoperative nausea vomiting in patients undergoing laparoscopic gynecological surgery.	Dr Vinod Kumar Yadav	0.80	12 months	Faculty of Medicine
2	A randomised controlled trial to compare Dexmedetomidine and propofol at different sedation depths during drug-induced sleep endoscopy	Dr Anshul Gaur	1.20	12 months	Faculty of Medicine
3	A randomized controlled trial to compare 5 different laryngoscope blades in ease of intubation and incidence of dental injury during direct laryngoscopy.	Dr Mahima Lakhanpal	1.10	12 months	Faculty of Medicine
4	Role of Fructose Enriched Foods in Metabolic Syndrome and cardiovascular	Dr Juhi Aggarwal	0.70	12 months	Faculty of Medicine

5	Effect of hydroxychloroquine on beta cell function, insulin resistance, and inflammatory markers in type 2 diabetes patients uncontrolled on glimepiride and metformin therapy	Dr Jyoti Batra	1.00	24 months	Faculty of Medicine
6	Demographic profile of patients with right ventricular failure admitted in tertiary care center.	Dr Deepika Agarwal	0.60	6 Months	Faculty of Medicine
7	A cross-sectional observational study to assess the perceived effect of increased pricing on smoked tobacco products quit rates	Mr Pradhumn Katara	0.60	6 Months	Faculty of Medicine
8	An In-Vitro Analysis of Root Fracture Strength Using Single File Systems	Dr Shivani Mangal	1.20	24 months	Faculty of Dentistry
9	Incidence and Intensity of Pain Following Endodontic Treatment by Different Instrumentation Techniques in Teeth With Periapical Lesion	Dr Avdesh Sharma	0.60	12 months	Faculty of Dentistry
10	The relationship between continuous and long term use of mobile phones and hearing aids among adults	Dr Abhay Kumar Singh	3.60	24 months	Faculty of Medicine
11	A randomized clinical trial to evaluate the Clinical and radiographic success of immediate implants using commercially available bone augmentation materials: A two year follow up study.	Dr SV Singh	1.10	12 months	Faculty of Dentistry
12	Utility of Microbiology Culture in Pediatric Appendicitis to Risk Stratify Patients	Dr Ashutosh Rawat	0.80	12 months	Faculty of Medicine
13	A Randomized controlled trial to investigate the effect of Postoperative Pain on Early Initiation of Breastfeeding and Ambulation After Cesarean Section	Dr Alpana Agrawal	0.80	12 months	Faculty of Medicine
14	A retrospective cohort study to identify clinical characteristics of patients with hypertensive disorders of pregnancy associated with requiring multiple anti-hypertensive medications to optimize blood pressure in the postpartum setting.	Dr Gunjan Gulati Bhagat	0.60	6 Months	Faculty of Medicine
15	Manifestations of cardiac myopathy Imaging studies with pathologic correlations	Dr Ashish Kumar Sukla	1.20	18 months	Faculty of Medicine
16	A prospective study to examine the effect of site and shape of scleral incisions for cataract surgery on corneal curvature	Dr Sarita Agrawal	1.40	18 months	Faculty of Medicine

17	A comparative study to assess the lumbar intervertebral disc parameters in patients with chronic low back pain and healthy individuals	Dr Rajeev Anand	0.90	18 months	Faculty of Medicine
18	Efficacy of Cefazolin versus Ceftriaxone for Extremity Open Fracture Management	Dr Amit Dwivedi	0.80	18 months	Faculty of Medicine
19	Awareness, knowledge and perception on Organ donation among students of health care profession	Dr Swati Singh	0.60	6 Months	Faculty of Medicine
20	A comparative study on deciduous teeth eruption among infants born after low-risk pregnancy compared to infants diagnosed with intrauterine growth restriction	Dr Natasha Gambhir	0.50	6 Months	Faculty of Dentistry
21	Epidemiology of Acute Gastroenteritis Caused by Rotavirus Among Children Less than Five Years Old Admitted in a tertiary care center in Northern Indian region	Dr Alka Agrawal	1.60	18 months	Faculty of Medicine
22	Assessment of serum copper and zinc concentrations in North Indian children with overweight and obesity.	Dr K C Aggarwal	1.40	18 months	Faculty of Medicine

Subject: Approval for research funding

Respected Madam,

This is in reference to our ongoing discussions on funding research for health sciences projects for your esteemed institution.

I am pleased to inform you that as at Kadambri Educational and Charitable Trust, **we are committed to contribute to research and development by providing monetary support, our board has approved** a fund of INR 20,20,000/- towards research grant for the following projects.

S.No.	Name of the Project, Clinical Trial, Endowment, Chairs	Name of the Principal Investigator/Co Investigator	Duration of the project	Funds provided (INR in Lakhs)	Department of Principal Investigator/ Co Investigator
1	Comparison of Blood Pressure Measurements by Currently Available Multiparameter Monitors and Mercury Column Sphygmomanometer in Pediatric Patients Admitted in Intensive Care Unit	Dr Veenu Agrawal	0.40	6 Months	Faculty of Medicine
2	An observational study to investigate the association of changes in GS over 1 year and the second (2D) and fourth (4D) digit lengths in young children using the 4D as a covariate	Dr Archana Singh	1.30	18 months	Faculty of Medicine

2022
6/15

12	Pathophysiological changes in cord blood & Placenta in hypertensive & anemic pregnant women	Dr Latika Arora	1.70	6 Months	Faculty of Medicine
13	Intratympanic steroid therapy for treatment of idiopathic sudden sensory neural hearing loss.	Dr Abhay Kumar Singh	0.40	6 Months	Faculty of Medicine
14	Corelation of tear function test and conjunctival impression cytology in dry eye.	Dr Sarita Agrawal	0.40	6 Months	Faculty of Medicine
15	Clinicopathological and immunological correlation in viral conjunctivitis.	Dr Yogesh Chander Arora	0.40	6 Months	Faculty of Medicine
16	Alzheimer's and Role of Serum Homocysteine Level in its Prognosis	Dr Preeti Sharma, Dr Jyoti Batra	0.60	6 Months	Faculty of Medicine
17	Evaluation of Lung Health of the Workers Occupationally Exposed to Petroleum Products	Dr Sanjay Sahai	0.20	6 Months	Faculty of Medicine
18	Role of LABA and Ultra-LABA in Asthma Symptom Control	Dr Mahendran. C.S.	0.40	6 Months	Faculty of Medicine
19	Incidence, Risk Factors & Outcomes of retinopathy of prematurity in North Indian rural and suburban population	Dr Shikha Pawaiya	0.20	6 months	Faculty of Medicine
20	An investigation of relationship between severe malaria and malnutrition in pediatric age group.	Dr KC Agrawal	0.40	6 months	Faculty of Medicine
21	An observational study to determine the microbial aetiology and possible risk factors of diarrhoea in children less than five years of age	Dr Virendra Yadav	0.25	4 months	Faculty of Medicine
22	A radiological study on Metacarpal lengths & ratios as a marker of	Dr Nisha Kaul	0.05	12 months	Faculty of Medicine

23	Effect of Pollution on the oral health in the children of age group 1 to 5 years in Ghaziabad region	Dr. Mohit Dadu	2.45	12 months	Faculty of Dentistry
----	--	----------------	------	-----------	----------------------

Please share the full proposals within 30 days of receiving this letter. Further, please submit a copy of final project report post completion.

Thank you and regards.

Dated: 01 Jan, 2022

Sub.: Approval of Grant/cost for Research Support

Respected Sir/Madam,

This is in continuation to our past discussions and communications that Nirmal Integrated Consultancy Private Limited (Team-NIC) is pleased to approve a grant/cost of a total amount of 5,00,000 (INR Five Lakh Only) for support of below mentioned research projects at your University.

List of Approved Projects:

#	Title of Project	Principal Investigator	Co-Investigator(s)	Amount (In Lakhs)
1.	Oral Health related quality of life among geriatric population in old age home in Ghaziabad City	Dr Kush Kalra	Dr. Mohit Dadu	1.35
2.	Evaluation of hematological profile in Oral Sub mucous fibrosis	Dr. Chandni Batra	Dr. Kanika Bhalla	0.55
3.	Effectiveness of International System for Reporting Serious Fluid Cystology in Routine Practice	Dr. Swati Singh	Dr. Mayurika Tyagi	1.75
4.	"Various Medications Used for Gastritis among Post-operative Patients in Surgery IPD in a Tertiary Care Hospital."	Dr. Shaktibala Dutta	Dr. Jyotsna Sharma	1.35

Terms of Grant/cost:

- The grant/cost has been approved for consumption and deliveries within 12 month of release of this letter.
- The utilization details, progress reports, and the interim/final results of the investigations are required to be submitted to undersigned periodically for their reviews and comments.
- The respective departments of the University set free to choose the research team with the mentioned Principal Investigator/Co-Investigator(s). The respective team is expected to submit the expected project plan to Team-NIC within 30-days of release of this letter.
- Team-NIC reserves the right of using the outcomes of the research without further permissions/consents/intimations to/from the researcher(s) and at the same time it sets free the researcher and their affiliating organizations for the same.
- The research team is expected to share the complete and unbiased outcomes of the research within the timeline of the projects.
- 50% of the approved grant/cost would be released to the institution within 90-days of release of this letter whereas the balance would be released after receiving the satisfactory outcomes of the research or as to be mutually agreed.
- Team-NIC is free to cancel the balance grant/cost anytime without any obligation of clarifications to the research team/organization and at the same time there is no obligation on the research team/organization about refund of the released grant/cost for any reasons.

Kindly feel free to connect to undersigned for any further clarifications or support.

Best regards,
Prof. (Dr.) J. D. Jain
Hon. Chief Advisor

Santosh Deemed to be University

Ghaziabad, U.P., India

Sub.: Grant for Research Support

Respected Sir/Madam,

This is to inform you that after thorough review of your research proposals submitted, we are pleased to approve a grant/donation of a total amount of 12,80,000 (INR) for support of your below mentioned research projects:

S.No	Title	Name of Principal Investigator	Amount Sanctioned (INR)
1	Mucin 4 expression in Oral Leukoplakia : An immunohistochemical study	Dr Kanika Bhalla Prabhat	0.85
2	An evaluation of changes in anxiety and behavior profile of children treated under inhalation sedation using nitrous oxide over 2-6 sequential follow up treatment visits	Dr Neeti Mittal	0.80
3	A randomized clinical trial to compare the clinical performance of indirect composite onlays and preformed zirconia crown for full coverage restoration of primary molars post-pulpectomy	Dr Shweta Bali	1.95
4	Prevalence of TMJ disorders in the local population of Ghaziabad City	Dr Chandni Batra, Dr Kanika Bhalla, Dr Priyanka Bhushan	1.35
5	Effect of premedication with three oral analgesics on the success of inferior alveolar nerve block in patients with symptomatic irreversible pulpitis - randomize control trial	Dr Chetna Arora	0.49
6	Oral Health related quality of life among School going Children in District Ghaziabad	Dr Mohit Dadu	0.09
7	To detect and assess DNA damage by Comet Assay from buccal epithelial cells of Smokeless tobacco users and non user.	Dr Shreya Singh	2.12
8	Prevalence of non-alcoholic fatty liver diseases in children	Dr Veenu Aggarwal	1.20
9	Efficacy of aminophylline versus caffeine for preventing apnea of prematurity	Dr Alka Aggarwal	1.10
10	Acute renal failure in full term neonates with perinatal asphyxia	Dr Veenu Aggarwal	1.85
11	Aging and Levels of Leptin in Our Body	Dr Jyoti Batra	1.00

Terms of Grant:

- The utilization details and the final results of the investigations are required to be submitted to undersigned at project completion for their reviews and comments.
- The respective departments of the University are free to choose the research team with the mentioned Principal Investigator/Co-Investigator(s).

Kindly feel free to connect to undersigned for any further clarifications or support.

Best regards

Department of Microbiology
Santosh Medical College and Hospital
Santosh Deemed to be University
Ghaziabad, U.P.

Dear Doctor,

We are pleased to inform you that following a thorough examination of your project titled as below :

Title	Department	Principal Investigator	Amount
Surveillance of drug resistant gram negative bacteria in tertiary care hospital	Microbiology	Dr. Geeta Gupta	50,000/-
Virulence factors in candida species from various clinical samples	Microbiology	Dr.Dakshina Bisht	50,000/-
Fungal infection in CSOM	Microbiology	Dr.Ritu Jain	25,000/-
Prevalence of candidiasis in school going children	Microbiology	Dr.Ashutosh Tawat	25,000/-
			1,50,000/-

Against the above projects, consumables worth Rs.150,000.00 (Rs. One Lakh Fifty Thousand Only) have been supplied to the Hospital /College.

Please send us a detailed report of your results after the assignment is complete.

Best Regards, and thank you for your time and attention

Subject: Request for research funding

Respected Mam,

We have received a request from your side for a research grant to conduct medical/dental research in various departments. We have received your proposals and revert back after review committee's decision.

S.No	Name of the Project, Clinical Trial, Endowment, Chairs	Name of the Principal Investigator/Co Investigator
1	Pattern of caries in adolescents	Dr. Mohit Dadu
2	A Comparative Assessment of the Upper Pharyngeal Airway Dimensions in different facial types : a cephalometric study	Dr Tina Chugh
3	A randomized controlled trial to comparatively evaluate the effect of Silver diamine fluoride and Fluoride varnish on preventing new carious lesions in children with high caries risk	Dr Nidhi Gupta
4	To compare and evaluate the primary and secondary implant stability between calcium phosphate surface coated implants and alumina blasted/acid etched implants using resonance frequency analysis.	Dr Shweta Bali

Respected Mam,

I am pleased to inform you I am ready to provide you a grant of INR 4,00,000 towards following projects by your faculty

S.No	Name of the Project	Name of the Principal Investigator/Co Investigator	Funds provided (INR in Lakhs)	Duration of the project
1	Pattern of caries in adolescents	Dr. Mohit Dadu	0.40	6 months
2	A Comparative Assessment of the Upper Pharyngeal Airway Dimensions in different facial types : a cephalometric study	Dr Tina Chugh	0.80	12 Months
3	A randomized controlled trial to comparatively evaluate the effect of Silver diamine fluoride and Fluoride varnish on preventing new carious lesions in children with high caries risk	Dr Nidhi Gupta	1.25	9 months
4	To compare and evaluate the primary and secondary implant stability between calcium phosphate surface coated implants and alumina blasted/acid etched implants using resonance frequency analysis.	Dr Shweta Bali	1.55	6 months

Please share with me the full proposals within 30 days of receiving this letter. Further, please submit a copy of final project report post completion as well as the outcome/impact of the project.

Thank you and regards.

Subject: Approval for research funding

Respected Mam,

I am pleased to inform you I am ready to provide you a grant of INR 6,00,000 towards following projects by your faculty.

S.No.	Title	Name of Principal investigator	Funds Provided (INR in Lakhs)	Duration of the Project
1	Oral health indicators of oral health related quality of life among Indian elderly: A cross-sectional study	Dr Mansi Singh, Dr Priyanka Bhushan	0.30	3 months
2	A randomized, double-blind clinical trial was to evaluate the effect of preoperative administration of intraligamentary injections of diclofenac sodium and dexamethasone on the anesthetic efficacy of 2% lidocaine given as an inferior alveolar nerve block in the endodontic management of symptomatic irreversible pulpitis	Dr Nidhi Gupta, Dr Neeti Mittal	0.50	6 Months
3	A study to evaluate and compare the accuracy of two age estimation methods in Indian children by using the open apex method proposed by Cameriere et al and the London Atlas of Tooth Development.	Dr Natasha Gambhir	0.45	6 Months
4	An assessment of the incidence of postoperative pain, treatment time and analgesic intake after single visit endodontic treatment of mandibular molars using XP-endo Shaper, 2Shape and ProTaper Gold rotary systems.	Dr Deepika Yadav	0.55	6 Months
5	Effect of nonsurgical periodontal therapy on gingival crevicular fluid levels of Interleukin-35 in patients with periodontitis	Dr Aruna Nautiyal	1.45	24 months
6	A study to assess the impact of age on osteometric measurements of patella.	Dr Sumit Tellewar	0.20	3 Months

7	Influence of Parenting Styles and Peer Attachment on Life Satisfaction Among Adolescents: Mediating Role of Self-Esteem	Dr Parul Gairola	0.15	3 Months
8	A randomised controlled trial to evaluate the anaesthetic efficacy of 2% lidocaine with different concentrations of epinephrine (1:80,000 and 1:200,000) in intraligamentary injection after a failed primary inferior alveolar nerve block	Dr Manoj Goyal	0.60	6 Months
9	The pattern of road accident and trauma in Ghaziabad	Dr. Manish Sabbharwal	0.65	6 Months
10	Effect of addition on dexmedetomidine on local anesthesia efficacy: a randomised controlled trial	Dr Neeti Mittal	0.75	6 Months
11	Relability of Self evaluation of treatment needs index for endodontic intervention	Dr Chetna Arora	0.40	6 Months

Please share with me the full proposals within 30 days of receiving this letter. Further, please submit a copy of final project report post completion as was the outcome/impact of the project.

Thank you and regards.

Subject: Request for research funding

Respected Mam,

We have received a request from your side for a research grant to conduct medical/dental research in various departments. We have received your proposals and revert back after review committee's decision.

S.No	Name of the Project, Clinical Trial, Endowment, Chairs	Name of the Principal Investigator/Co Investigator
1	Fixed dexmedetomidine infusion versus fixed-dose midazolam bolus as primary sedative for maintaining intra-procedural sedation during endobronchial ultrasound-guided transbronchial needle aspiration: a double blind randomized controlled trial	Dr Suveer Sharma
2	Influence of epidural ropivacaine with or without dexmedetomidine on postoperative analgesia and patient satisfaction after thoraco-lumbar spine instrumentation: a randomized, comparative, and double-blind study	Dr Mahima Lakhanpal
3	A retrospective cohort study to investigate the effect of smoking on rates of progressive visual field (VF) damage over time in glaucoma	Dr Priya Singh
4	A study to check the reliability of human dental pulp for identification of gender using Barr bodies.	Dr Shobroze Tantray
5	The effect of Neonicotinoid on Chick Embryos and its development	Dr. Yogesh Yadav
6	An invitro study was to evaluate the accuracy of the apex locator in the presence of different irrigating solutions	Dr Avdesh Sharma
7	A randomised controlled trial to assess the efficacy of holistic approaches (naturopathy and yoga) alone as well as in combination with pharmacological therapy in the treatment of chronic orofacial pain of non-odontogenic origin	Dr Swati Verma, Dr Priyanka Bhushan
8	A prospective, cluster-randomized, examiner-masked, 3-arm trial to evaluate the efficacy of time outdoors per school day over 2 years on myopia onset and shift.	Dr Sarita Agrawal

Inclusion Criteria

Inclusion Criteria	
Age From	18.00 Year(s)
Age To	65.00 Year(s)
Gender	Both
Details	1. Male & female (non-pregnant, non-lactating, post-menopausal, surgically sterilized or practicing a reliable method of birth control during the duration of study) Subjects with age ranging from 18 to 65 years (both inclusive). 2. Subjects having dry cough (less than 7 days) of any origin and may be with related symptoms as Throat Pain, throat redness, Throat irritation/itching, (Fever if present) (absence of bronchial mucus/phlegm production). 3. Not under any antibacterial or antiviral treatment before recruitment. 4. Subjects ready to abstain from using any drug (which will affect the study outcome) other than Investigational Product for the treatment of the study condition during the study period (except in cases when patient's condition worsens as per study physician. In this case, Study physician will decide to prescribe antibiotic, if required). 5. Ready to abstain from the administration of any herbal or ayurvedic treatment

Exclusion Criteria

or
6. Willing to provide written informed consent
7. Willing and able to understand and comply with all study requirements

Exclusion Criteria	
Details	<ol style="list-style-type: none"> Subjects with known allergy or hypersensitivity to Codeine Phosphate or Chlorpheniramine Maleate or any of its components. Subjects who had taken any medicated confectionary, throat pastille, spray or any product with demulcent properties, any cough medicines or drugs containing antihistamines within last 24 hours prior to screening. Subjects taking medications with known cough promoting side effects (e.g., angiotensin converting enzyme inhibitors or angiotensin II receptor blockers) that in the opinion of the investigator are causing symptoms of cough. Subjects with diagnosis of diseases of pneumonia, asthma, sinusitis, allergic rhinitis, as well as heart disease. Severe cough requiring hospitalization Subjects who had used any local anesthetic within the past 24 hours. Subjects who have used a longer acting or slow release analgesic during the previous 24 hours. Maintenance therapy with any drug, or history of drug dependency, alcohol abuse, or serious neurological or psychological disease Any other condition, which in the opinion of the clinician/investigator, could interfere significantly with the treatment and assessment process Use of any investigational therapy within 30 days prior to randomization

Details	Subjects meeting all the following criteria will be included in the study: 1. Male & Female patients with age ranging from 40 to 65 years (both inclusive) & female (non-pregnant, non-lactating, post-menopausal, surgically sterilized or practicing a reliable method of birth control during the duration of study) 2. Clinically stable condition for at least 6 months before enrollment. 3. Confirmed diagnosis of at least moderate COVID-19 symptoms demonstrated by: a. Positivity in RT-PCR 2019-nCov test on

Handwritten signature and initials: "Red" and "6/5"

Exclusion Criteria

respiratory tract (nasopharyngeal / oropharyngeal) specimens.
b. Presence of clinical features of dyspnea and/or hypoxia, fever, cough, including SpO2 < 94% (range 90-94%) on room air, Respiratory Rate > 24 and < 30 breaths per minute.
4. Significant COVID-19 symptoms, and judged by the treating doctor to be at high risk of progression to severe category due to presence of any of the following:
a. Having at least one of the high-risk criteria, i.e. obesity (BMI ≥ 30 kg/m²), diabetes mellitus, uncontrolled hypertension (diastolic blood pressure > 90 mm Hg systolic blood pressure ≥ 150 mm Hg), known respiratory disease (including asthma or chronic obstructive pulmonary disease), known heart failure, known coronary disease;
b. Demonstrating signs of cardiac injury due to Elevated troponin level,
5. Patients who require hospitalization for control of disease at the time of study entry.
6. Within 7 days from symptom onset or within 48 hours of laboratory diagnosis of SARS-CoV2.
7. Able to take oral tablets and agreeing not to participate in any other study for duration of participation in this study.
8. Willing to sign voluntary informed consent for participation in the study and willing to adhere to all protocol procedures. In case the subject is unable to provide informed consent than the same should be obtained from legally acceptable representative (LAR).

Exclusion Criteria	
Details	<p>1. History of present illness (will be based on treating physician's opinion)</p> <p>a. Neurological and neurodevelopmental disorders. b. Congenital heart disease c. Severe heart disease or a history of clinically significant arrhythmias which may affect participants safety (According to the ECG or medical history). Corrected QT interval of 450 milliseconds or higher (according to the Bazett formula) on a 12 lead surface ECG / Abnormal ECG (to eliminate concerns that a potential interaction between colchicine and hydroxychloroquine could lead to excess QT prolongation)</p> <p>2. Requirement of oxygen supplementation greater than 8L nasal cannula at the time of enrollment.</p> <p>3. Treating physician clinical judgement that the patient will require mechanical respiratory support within 24 hours.</p> <p>4. Patient currently in Septic shock or with hemodynamic instability requiring vasopressors.</p> <p>5. History of cirrhosis.</p> <p>6. A subject undergoing hemodialysis.</p> <p>7. Severe gastrointestinal failure, severe gastrointestinal disorders, or stomach ulcer.</p> <p>8. Patient is currently taking colchicine for other indications (gout or Familial Mediterranean Fever).</p> <p>9. Patient with inflammatory bowel disease (Crohn's disease or ulcerative colitis), chronic diarrhea or malabsorption</p> <p>10. Severe Hepatic Insufficiency (ALT or AST greater than 5 times ULN) or Renal Failure (eGFR using the MDRD equation for all</p>

	<p>subjects less than 30 mL per min).</p> <p>11. Patient received Remdesivir, Sarilumab, Tocilizumab, Lopinavir, Ritonavir or other immunomodulator given for COVID-19 treatment prior to study entry.</p> <p>12. Patient is on (and cannot discontinue) a strong CYP3A4 inhibitor (e.g. clarithromycin, indinavir, itraconazole, ketoconazole, nefazodone, nelfinavir, ritonavir, saquinavir, telithromycin, atazanavir), a moderate CYP3A4 inhibitor (e.g. diltiazem, verapamil, fluconazole, amprenavir, aprepitant, fosamprenavir) or a Pgp Inhibitor (e.g. cyclosporine, ranolazine).</p> <p>13. Patients who may require IL 6 inhibitors as per clinical judgment of the investigator for management of inflammation at the time of study entry.</p> <p>14. Pregnant or lactating women women of a childbearing age with a positive pregnancy test</p>

Brief Summary

This is a Pilot Phase II, randomized, open label, prospective, comparative, two-arm, multi-center clinical study to evaluate the efficacy and safety of Colchicine for improvement of overall clinical outcomes when added to Standard of Care (SOC) treatment in high-risk Indian patients suffering with coronavirus (COVID-19) disease.

The proposed study is a two phase clinical study wherein first phase is Treatment Phase of 28 days followed by Follow-up Phase of 14 days. High risk patients with clinically confirmed & documented diagnosis of moderate coronavirus disease (COVID-19) as per MOH Criteria who require hospitalization for management of the disease, i.e.,

- Confirmed diagnosis of COVID-19 demonstrated by positivity in RT-PCR 2019-nCoV test on respiratory tract (nasopharyngeal / oropharyngeal) specimens.
- Presence of clinical features of dyspnea and/or hypoxia, fever, cough, including SpO₂ < 94% (range 90-94%) on room air, Respiratory Rate > 24 and < 30 breaths per minute
- Age above 40 to 65 years (both inclusive).
- Having at least one of the high-risk criteria, i.e., obesity (BMI ≥ 30 kg/m²), diabetes mellitus, uncontrolled hypertension (diastolic blood pressure > 90 mm Hg & systolic blood pressure ≥ 150 mm Hg), known respiratory disease (including asthma or chronic obstructive pulmonary disease), known heart failure, known coronary disease.

will be screened and enrolled for participation in the study as per study protocol.

The treatment period with investigational product in test group will be 28 days from the day of first dose. It is however necessary that all patients in either test or control groups be allowed to take concomitant SOC as per the prescribed schedule for entire duration of the study, as applicable.

CLINICAL TRIAL AGREEMENT

This Clinical Trial Agreement (“**Agreement**”) is made as of this 19th day of May, 2021 (the “**Effective Date**”) by and between:

1. **INSIGNIA CLINICAL SERVICES PRIVATE LTD. (ICS)**, a company incorporated under the laws of India as registered under the Indian Companies Act, 2013 having its business address at Unit No. 512, 5th Floor, Best Sky Tower, Netaji Subhash Place, Pitampura, New Delhi-110034 (hereinafter referred to as “**CRO**”) (which expression unless repugnant to the context includes its associates, administrators, successors in interest and permitted assigns) through **Mr. Amardeep Singh**, who has been authorized by M/s **Laxai Life Sciences Pvt. Ltd.** (hereinafter referred to as “**Sponsor**”) to execute this Agreement on behalf of CRO and Sponsor.

AND

2. **SANTOSH MEDICAL COLLEGE HOSPITAL** i.e. a world class, multispeciality, Teaching and Training Hospital at No.1, Ambedkar Road, Ghaziabad - 201 001 (U.P.) (herein after referred to as “**Trial Site**”) owned and managed by **Santosh Trust** (which expression unless repugnant to the context includes its associates, administrators, successors in interest and permitted assigns) through **Dr. Alpana Agrawal** who has been authorized to execute this Agreement on behalf of Trial Site.

AND

3. **Dr. Shivani Bansal** (hereinafter referred to as the “**Principal Investigator**” or “**PI**”), an independent consultant / employee of the Trial Site, who has been appointed as Principal Investigator for the purpose of conducting clinical trial at Trial Site.

(The “**CRO**”, “**Trial Site**” and “**Principal Investigator**” are hereinafter individually referred to as a “**Party**”, and collectively as “**Parties**”)

WHEREAS:

- A. ICS is a Delhi-based Contract Research Organization (“**CRO**”) providing services primarily in India, directly or through its affiliates, associates, agents and subsidiaries. The major activities conducted by ICS include design, setup and management of clinical studies with human beings for the owners and / or manufacturers of pharmaceutical products, medical devices and food supplements / nutraceuticals.

 INSIGNIA CLINICAL SERVICES PVT. LTD. DELHI CRO	 ALPANA AGRAWAL TRIAL SITE	 Dr. Shivani Bansal M.D. (Medicine) Professor Santosh Medical College And Hospital Ghaziabad (U.P.) MCI-25922 PRINCIPAL INVESTIGATOR
---	---	--

- B. **Laxai Life Sciences Pvt. Ltd. (Sponsor)** is a pharmaceutical company engaged in the development of pharmaceutical product and desires to carry out a clinical trial involving study drug "**Colchicine Tablets 0.5 mg**", according the **Protocol Title:A prospective, pilot, clinical trial to evaluate the efficacy and safety of COLchicine for improvement of clinical outcomes during COronaVirus (COVID-19) disease treatment in high-risk INdian patients.** [Acronym: **COLCOVIN Study**] (herein after referred to as '**Study**') incorporated herein by reference as **Exhibit- A** and all subsequent amendments thereto;
- C. Sponsor has appointed CRO to manage the Study and assist Sponsor with site selection, management services for conduct of clinical trials at Trial Site and determine the safety and efficacy of Sponsor's product through submission of all information/documentation provided by Principal Investigator to the CRO under the Agreement;
- D. CRO and Trial Site are related through a **Memorandum of Understanding ("MoU")** dated 19th October 2020 for conduct of such Clinical Studies at the Trial Site. This Agreement will be an extension to the said MoU and will cover specific aspects related to terms and conditions of arrangements between CRO, Trial Site and Principal Investigator for the purposes of successful execution of the Study at the Trial Site.
- E. The **Principal Investigator** is a qualified medical practitioner and has been engaged by the Trial Site to participate in the study as an investigator and is responsible to conduct the study, the detailed statement issued by Trial Site attached hereto as Exhibit -C working with the **Trial Site** and has agreed to conduct the Study at the Trial Site only after the prior written approval of **Institutional Review Board/Independent Ethics Committee ("IRB/IEC")** at the Trial Site.
- F. The Trial Site is a medical facility qualified and equipped with adequate resources to undertake the study and the Trial Site and Principal Investigator have agreed to perform the study on the terms and conditions hereinafter set forth.

NOW, THEREFORE in consideration of the premises and the mutual promises and covenants express herein the Parties agree as flows:

1. SCOPE OF THE AGREEMENT

- 1.1 Trial Site and Principal Investigator will undertake an sponsored clinical trial ("**Study**") described in Exhibit-A, i.e. study of drug "**Colchicine Tablets 0.5 mg**", according the **Protocol Title:A prospective, pilot, clinical trial to evaluate the efficacy and safety of COLchicine for improvement of clinical outcomes during COronaVirus (COVID-19)**

 	 	   
--	--	---

disease treatment in high-risk Indian patients. [Acronym: COLCOVIN Study]. The Study will be conducted by the Trial Site under the direction of Principal Investigator.

- 1.2 In the event of any conflict between the terms and conditions of this Agreement and the Protocol or between this Agreement and any of its Exhibits, the terms and conditions of the Protocol shall control with respect to matters of the clinical conduct of the Study, and the terms of this Agreement shall control with respect to all other matters.
- 1.3 Unless otherwise agreed to by the Parties, Sponsor and/or CRO will provide to the Trial Site on a timely basis, without charge, the required quantities of properly-labelled Sponsor drug(s) or biologics(s) and other materials (e.g., Principal Investigator's brochure, handling and storage instructions, and, if applicable, placebo) necessary for Trial Site to conduct the Study in accordance with the protocol. Unless stated otherwise in writing by CRO, all such items are and will remain the sole property of CRO/Sponsor until administered or dispensed to Study subjects during the course of the Study. Receipt, storage, and handling of Study drug will be in compliance with all applicable laws and regulations, and CRO's or Sponsor's instructions.
- 1.4 CRO, Trial Site and Principal Investigator shall comply with and conduct all aspects of the Study in compliance with all applicable laws and regulations, including generally accepted standards of good clinical practice relating to exportation of technical data, computer software, laboratory prototypes, and other commodities as applicable. Trial Site and Principal Investigator will only allow individuals who are appropriately trained and qualified to assist in the conduct of the Study.
- 1.5 Trial Site shall obtain approval (if any) for this Study and proof thereof shall be provided to CRO. Trial Site shall obtain from each subject, prior to the subject's participation in the Study, a signed informed consent and necessary authorization to disclose health information to CRO and/or Sponsor in a form approved in writing by the CRO or a waiver of consent as directed by the CRO and further provided that the informed consent is consistent with Trial Site policies.

2. PERFORMANCE OF THE STUDY:

2.1 Compliance with the Agreement: The purpose of this Agreement is to conduct the Study at the Trial Site. The protocol has been sponsored by the Sponsor and is approved by / or is subject to the approval of the Drug Controller General of India ("DCGI") under the Drugs & Cosmetics Act, 1940 including any amendments thereof (hereinafter referred as "Drugs & Cosmetics Act, 1940") and /or any other law or rules for the time being in force in India as well as approved by the Ethics Committee ("EC"). In the event the protocol is amended,

<p>AS</p> 		<p>Dr. Shivani Bansal Professor Medical College And Hospital Ghaziabad (U.P.) MCI-608</p> <p>Principal Investigator</p> <p>dsd 6/5</p>
---	---	--

such change shall be notified and if required under the law, prior approval of DCGI and/or EC shall be obtained. The Trial Site and the Principal Investigator agree to perform the Study in strict compliance with the protocol and terms and conditions of this Agreement including any amendments thereto. The Principal Investigator shall perform the Study at the study site of the institution. The Trial Site and Principal Investigator further represent, warrant and covenant that the Principal Investigator is and at all times, during the term of this Agreement, shall be (a) in good professional standing, (b) in possession of all requisite professional licenses, approval and permissions, (c) full qualified to conduct the study and to act as Principal Investigator under this Agreement, (d) fully experienced and knowledgeable with respect to all matters pertaining to the study and (e) responsible for supervision of all persons who may assist the Principal Investigator or otherwise be engaged in the Study. In the event that the Trial Site and/or the Principal Investigator use the services of sub-investigator, investigational staff, or other to conduct the Study pursuant to this Agreement, the Principal Investigator and Trial Site shall be responsible that all are appropriately licensed and credentialed and shall conduct the study in compliance with the terms and conditions of this Agreement. The Trial Site and PI shall be liable for any breach of such agreement by such individuals.

2.2 Replacement of Principle Investigator: In the event the Principal Investigator is unable to continue, either on account of his death or early termination of engagement from Trial Site or becoming incapacitated, in such circumstances, the Trial Site shall provide a written notice to CRO within three (3) calendar days of becoming aware of Principal Investigator's inability to continue. The Sponsor/ CRO shall then appoint the Co-Investigator as a party to this Agreement by way of amendment/novation to this Agreement. In case the Sponsor /CRO terminate this Agreement, the Trial Site shall take all necessary steps to accommodate the decision.

2.3 Delegation of Duties: The Principal Investigator will personally supervise the Study and may not delegate this duty to any other individual without Sponsor/ CRO's prior written approval. Principal Investigator may delegate other duties as necessary to their investigators and qualified personal in accordance with regulatory requirement and upon notice to sponsor/CRO. The Trial Site may not replace the Principal Investigator without Sponsor's/CRO's prior written approval. If the Principal Investigator is to be temporarily absent from the Trial Site, the Trial Site shall designate an investigator qualified and trained to assume such responsibilities to temporarily supervise/continue the Study on behalf of Principal Investigator. All such designation of responsibility will be reported to Sponsor/ CRO in writing and DCGI and/or EC prior to its commencement.

		<p>DR. Shivaji Bansal M.D. (Medicine) Professor Santosh Medical College And Hospital (U.P.) MCI-1</p>
	TRIAL SITE	PRINCIPAL INVESTIGATOR

Page 7 of 42

2.4 Investigator and Staff Training: The Trial Site and Principal Investigator shall insure that other investigators and designated staff attend all Study related training conducted by Sponsor/CRO.

2.5 Use of Study drug: CRO shall provide the Study drug and all related document and any material wherever require for conduct of Study. Neither the Principal Investigator nor Trial Site shall make use of Study drug, Study related documents and materials, for purposes other than performance of the Study in accordance of the protocol and this Study. The Principal Investigator and Trial Site shall account for and return to CRO or otherwise dispose of in accordance with CRO's Instruction any unused Study drug, materials and equipments and confidential information provided for the purposes of the Study. In case of destruction of Study drug at Trial Site, the Trial Site shall promptly provide certificate of such destruction. This provision does not apply to the documents that should be maintained and retained in secure manner by the Principal Investigator at the Trial Site as per study protocol, the Agreement and/or applicable guidelines laws and regulations.

2.6 Adverse Event Reporting: Principal Investigator and Trial Site also agrees to report to Licensing Authority as defined in Clause 3(2) (i), (ii),(iv) of New Drugs and Clinical Trials Rules, 2019 including any amendments thereof, Ethics Committee and CRO immediately, but not later than 24 hours or within such mandatory timelines as amended from time to time and specifically mentioned hereabove, After learning of any adverse event and all other important medical events, including but not limited to adverse reactions, as identified in the protocol, affecting any Study subject. Principal Investigator and Trial Site further agree to follow up such report with detailed written reports in compliance with all applicable legal and regulatory requirements.

2.7 Additional Research: Trial Site and Principal Investigator shall not conduct any additional research nor facilitate any third party to conduct any such research on study subject during the study or biological samples collected from Study subjects during the Study, data derived from the Study without prior written concern of Sponsor and CRO.

3. TRIAL DRUG; MATERIALS TRANSFER; RECORDS RETENTION; INSPECTION:

3.1 Trial Site and Principal Investigator acknowledge that the trial drug/device is owned or controlled by Sponsor/CRO and that neither the terms of this Agreement nor the protocol, nor any activities conducted by Trial Site or Principal Investigator for the trial/Study, shall be construed to grant to either Trial Site or Principal Investigator any rights in or to the compound.

		<p><i>Dr. Shivani Bansal</i> M.D. (Medicine) Professor Medical College And Hospital Ghaziabad (U.P.) Principal Investigator MCI-2492</p> <p><i>4/5</i></p>
---	---	--

- 3.2 Except as otherwise agreed by the Parties, CRO will provide the compound and any control/placebo material to be administered to trial subjects as part of the trial (collectively, the "Trial Drug") free of charge to Trial Site for administering or dispensing solely by or under the supervision of Principal Investigator or sub-investigator to trial subjects at the Trial Site in strict compliance with the protocol.
- 3.3 Trial Site and Principal Investigator shall use the Trial Drug solely to conduct the Trial in strict compliance with the protocol and for no other purpose, and shall not transfer the Trial Drug to any third parties. Trial Site and Principal Investigator shall handle, store, ship and dispose of the Trial Drug as directed by Sponsor/CRO or its designee and in compliance with all applicable laws, rules and regulations.
- 3.4 Trial Site and Principal Investigator will ensure that empty and partially used Trial Drug container and any Trial Drug remaining at the trial close-out visit at the Trial Site or upon early termination of this Agreement are disposed of or returned to CRO in accordance with the protocol.
- 3.5 Neither support of the trial, nor Trials Site's participation in the trial, impose any obligation, express or implied, on Trial Site or Principal Investigator to purchase, prescribe, provide favorable formulary status for or otherwise support Sponsor's/ CRO's products.
- 3.6 Unless required by the Protocol, Trial Site will not modify the Trial Drug or its container. If the Trial Site policy requires any modification to the Trial Drug container, such modification must be approved in advance in writing by Sponsor/CRO.

4. RECORDS MAINTENANCE AND RETENTION:

- 4.1 The Trial Site and Principal Investigator shall prepare and maintain records, reports and Data provided in the Protocol, Ethics Committee (EC) requirements, and in accordance with all applicable laws and regulations. Trial Site or Principal Investigator shall cooperate with the Sponsor/CRO in making records, reports and Data developed under this Agreement.
- 4.2 Trial Site or Principal Investigator shall ensure the storage of data related to Study in accordance with the requirements of current Good Clinical Practices, in suitable and secured storage facilities and under appropriate conditions, for a period of time required under the Agreement, applicable laws and regulations in India or until 5 years after completion of all regulatory activity, whichever period is longer, unless to the extent that Sponsor/CRO requires the return or destruction of this data, in which case this request shall be complied with to the extent allowed by applicable laws and regulations. Before the destruction or deletion of such data, Sponsor/CRO's written approval shall be obtained.

		<p><i>Dr. Shivan</i> M.D. (Medicine) Professor Sankar Medical College And Hospital Ganpat (U.P.) PRINCIPAL INVESTIGATOR</p>

5. PAYMENTS:

5.1 Budget and Compensation: The compensation and fees to be paid by the Sponsor/CRO for this Study is contained in the budget described in **Exhibit- B** attached hereto and incorporated by reference in this Agreement. Payment shall be due and payable in accordance with the schedule set forth in **Exhibit- B**.

5.2 Fair Market Value: The Party's acknowledge that the compensation and support provided by the Sponsor/CRO to the Trial Site, subject to provision of this Agreement represents the fair market value for the research service conducted by Trial Site and the Principal Investigator has been negotiated in an arm's length transaction, and has been determined in a manner that takes into account the volume or value of any reference or other business otherwise generated between the Sponsor/CRO and the situation are the principal investigator. The Parties acknowledge that the budget amounts represent an equitable exchange for the conduct of the Study in light of the professional time and expenses required for the performance of the Study.

5.3 Third Party Pay or Billing: Neither the Trial Site nor the Principal Investigator shall bill any third party for the Study of the Trial Drug or any other item or services furnished by the Sponsor/CRO in connection with the Study, or any services provided to subjects in connection with the Study for which payment is made as part of the Study except as may be specifically authorised by compensation standard set forth in **Exhibit- B**.

5.4 No part of any consideration paid hereunder are a prohibited payment for the recommending or arranging of the referral of business or the ordering of item of services; nor are the payments intended to include illegal referrals of business Nothing contained in this Agreement shall be construed connected in any manner as an obligation or inducement for the Trial Site or Principal Investigator to recommend that any person or entity purchase Sponsor's/CRO's product or those of any entity affiliated with the Sponsor/CRO.

6. TERM & TERMINATION:

6.1 This term of this Agreement shall commence upon the Effective Date and terminate upon the completion of the Parties' Study-related activities under the Agreement, unless terminated early as further described in this section.

6.2 This Agreement will become effective after it is fully executed and signed by all the Parties hereto and shall continue in effect for the full duration of the Study according to the protocol unless extended or sooner terminated in accordance with the provisions of this Agreement.

		<p><i>Muvai Ban</i> Dr. Shivam Bansal I.A.D. (Medicine) Professor Santosh Hospital Ghaziabad (U.P.) MCI-25550R</p>
---	---	---

6/5

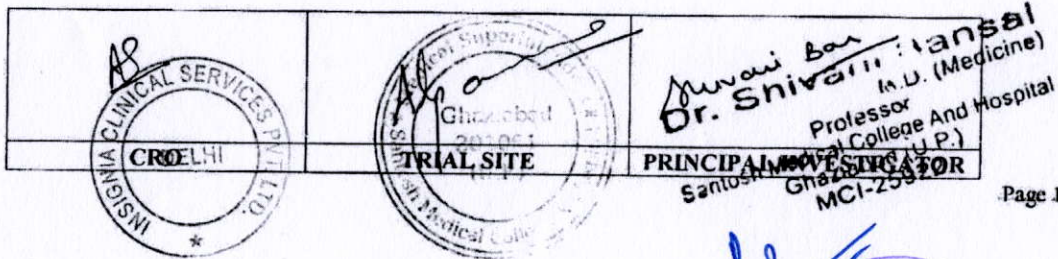

6.3 Unless earlier terminated in accordance with the provisions of this Agreement, the term of this Agreement shall commence on the Effective Date and shall terminate 6 months after completion of Study at Trial Site (hereinafter known as "Expiration Date"). The term of this Agreement shall commence upon the Effective Date and terminate upon the completion of the Parties' Study-related activities under the Agreement, unless terminated early as further described in this section.

6.4 CRO has the right to terminate this Agreement upon thirty (30) days prior written notice to the Trial Site. This Agreement may be terminated immediately at any time for any reason by the Trial Site or CRO when, in their judgment or that of the Principal Investigator, the Ethics Committee, if applicable, or the Drug Controller General of India, it is determined to be in appropriate, impractical, or inadvisable to continue, in order to protect the Study subjects' rights, welfare, and safety, or the committee otherwise disapproves the Study. If for any reason Principal Investigator becomes unavailable to direct the performance of the work under this Agreement, Trial Site shall promptly notify CRO. If the Parties are unable to identify a mutually acceptable successor, this Agreement may be terminated by either Party upon thirty (30) days written notice. Notwithstanding the above a Party may, in addition to any other available remedies:

- a) immediately terminate this Agreement upon the other Party's material failure to adhere to the protocol, except for deviation required to protect the rights, safety, and welfare of Study subjects; and/or
- b) terminate this Agreement upon the other Party's material default or breach of this Agreement, provided that the defaulting/breaching Party fails to remedy such material default, breach, or failure to adhere to the Protocol within thirty (30) business days after written notice thereof.

6.5 In addition to the above, this Agreement may be terminated by Trial Site in the event of a material default or breach of this Agreement by CRO/Sponsor, or by CRO in the event of a material breach of this Agreement by Trial Site, provided that the defaulting/breaching party fails to remedy such material default or breach within thirty (30) business days after written notice thereof. In the event that this Agreement is terminated prior to completion of the Study, for any reason, Trial Site shall:

- a) Notify the appropriate authority that the Study has been terminated;
- b) cease enrolling subject sin the Study;
- c) cease treating Study subjects under the protocol as directed by CRO to the extent

Page 11 of 42

medically permissible and appropriate;

- d) Terminate, as soon as practicable, all other Study activities; and
- c) Furnish to CRO any required final report for the Study in the form reasonably acceptable to CRO.

6.6 Promptly following any such termination, Trial Site will provide to CRO copies of data collected pursuant to the Study protocol. Upon Sponsor's or CRO's written request, Trial Site shall provide to the requesting Party, at Sponsor's or CRO's expense, all Sponsor's Confidential Information provided under this Agreement provided, however, that Trial Site may retain such copy of Confidential Information for record keeping purposes, monitoring its obligations, and exercising its rights here under, subject to Trial Site's ongoing compliance with the confidentiality and non-use obligations set for thin this Agreement.

6.7 If this Study is terminated early by either Party, the Trial Site shall be reimbursed for all work completed, on a prorate basis, and reasonable costs of bringing the Study to termination incurred through the date of termination, and for non-cancellable commitments properly incurred through that date. Upon receipt of notice of termination, Trial Site will use reasonable efforts to reduce or eliminate further costs and expenses and will cooperate with CRO to provide for an orderly wind-down of the Study. In the event the prepaid any portion of payment for work pursuant to this agreement that is not actually performed as a result of termination of this agreement, the Trial Site and PI shall return such payment for such unperformed services or unexpended or cancelled fees. In the event Trial Site fails to repay such funds in a timely manner, Sponsor/CRO may deduct an equivalent amount from any payment then or later due from Sponsor/CRO to Trial Site under this or any other arrangement between the parties subject to prior intimation and detailed explanation by the Sponsor/CRO.

7. **OWNERSHIP:**

7.1 All reports, data, technical information,(including without limitation, written, printed, graphic video and audio material, any computed data base and computer data readable data form), original works of authorship and all other information generated by the Trial Site, the Principal Investigator , any other designated personnel in the course of conducting the study shall be the sole and exclusive property of Sponsor or its designee i.e. CRO, which may utilise the Data in any way it deems appropriate, subject to and in accordance with applicable laws and regulations of India and the terms of this agreement.

Page 12 of 42

7.2 For the purpose of this Agreement data shall mean all data and information generated / collected by Trial Site and Principal Investigator as a result of conducting the Study in accordance with the approved protocol which may include but not limited to collection of original Study subject or patient medical records, research notebooks, source documents, or other routine internal documents. Any other data / information collected as part of routine internal documents by the Trial Site in its ordinary course of business operations shall remain the sole and exclusive property of the Trial Site. Sponsor owns and has all rights to use only the Study related Data / Information in accordance with the signed informed consent and authorization form, applicable laws, and the terms of this Agreement.

8. CONFIDENTIALITY:

8.1 All the Parties agree to treat any confidential information obtained from the other Party, or generated by the Party or its representatives as a sole and direct result of performing the services under this Agreement including, without limitation, confidential commercial, business, scientific, medical and technical information, the study drug, Protocol, Investigator Brochure, Case Report Forms, safety information, and any other data or information generated or resulting from the study recorded and available in any form or on any media (paper, disc, photos, computer systems) (hereinafter "the Confidential Information")

8.2 All the Parties agree not to divulge the Confidential Information to any third party or Parties, unless necessary as it relates to the performance of duties outlined in the scope of services or use said Confidential Information for any purposes other than understanding and evaluating the performance of those services. Parties further agrees to limit disclosure only to those of its officers, employees, agents, affiliates and consultants as are necessary to carry out the services in this Agreement. Parties shall take all reasonable steps to prevent the disclosure of the Confidential Information as provided herein.

8.3 Parties will ensure that it will incorporate similar confidentiality language (no less restrictive than this Agreement) in its written contracts with all representatives, agents, affiliates and consultants to protect Confidential Information. Any Confidential Information or intellectual property produced for performing services under this Agreement can only be used by the Sponsor/CRO for the specific Study.

8.4 The above provisions of confidentiality shall not apply to that part of the information which any Party is able to demonstrate by documentary evidence:

- a. was fully in their possession prior to receipt from the other Party; or
- b. was in the public domain at the time of receipt; or
- c. becomes part of the public domain through no fault of the Party; or

		<p><i>Dr. Shivani Bansal</i> Dr. Shivani Bansal As. D. (Medicine) Professor Medical College And Hospital Ghaziabad (U.P.) MCI-2588</p>
--	--	---

- d. is lawfully received by it from a third party having a right of further disclosure; or
- e. is developed by it independent of the Information; or
- f. is required by law or upon a court injunction to be disclosed.

8.5 Trial Site and Principal Investigator may disclose the existence of this Agreement and any additional information necessary to ensure compliance with applicable, regulations, and laws in accordance with Clause 9 of this Agreement. Further data and results generated in the course of conducting the Study are Confidential Information are not allowed for publishing without prior written approval from Sponsor / CRO.

8.6 Parties agree that upon termination or expiration of this Agreement, at the other party's request, it shall return to the other party all Confidential Information, retaining copies of any such Confidential Information as is reasonably necessary for regulatory and insurance purposes or as it deems necessary to demonstrate the satisfaction of its obligations hereunder, all subject to the on-going obligation to maintain the confidentiality of such Confidential Information.

9. DISCLOSURES:

9.1 The confidentiality obligation shall not, however, be applied to Confidential Information, which:

- a. Was, as evidenced, in the possession of the receiving Party prior to receipt of the confidential information from the other Party,
- b. The Party has received from a third party without any obligation of confidentiality and which has a right to deliver such information to the other Party, or
- c. On ground of law has to be delivered.

Any party invoking an exception set forth above has the burden of proof with respect to the existence of such an exception.

9.2 Each Party shall promptly return to the other Party all Confidential Information no longer needed for the purposes of this Agreement or if so requested by the other Party.

9.3 Should any third party, e.g. Regulatory Authority demand access to Confidential Information on grounds of law, the party shall without any delay and prior to making such a disclosure notify the other party of such a demand in writing and take prior written consent before making such disclosure. The party may then deliver only the specified Confidential Information, which the request concerns.

		<p><i>Dr. Shama Kansal</i> M.D. (Medicine) Professor Medical College And Hospital Ghaziabad (U.P.)</p> <p>PRINCIPAL INVESTIGATOR</p>
		

10. PUBLICATION:

- 10.1 The Parties also understand and recognize that this Study is part of a multi-site study and that data from all sites will be pooled and analyzed, and agree that premature disclosures of data from a single site may be misleading. Sponsor /CRO, shall have the right to coordinate one or more publications of the aggregate multi-site Study results.
- 10.2 The Trial Site/Principal Investigator will report the findings of the Study to Sponsor/CRO in the form of Study reports, to be submitted to Sponsor/CRO at such stages or intervals in such forms and containing such information as set out in the protocol (including for instance the progress and the number of included patients) and/or as further agreed between the Parties.
- 10.3 The Parties acknowledge that Sponsor/CRO shall have the exclusive right to publish and present the results of the Study. Sponsor/CRO shall take into account that these results represent a joint effort among Sponsor, CRO, Trial Site and Principal Investigator. Sponsor/CRO shall mention the Principal Investigator of the Trial Site in a footnote in the manuscript as one of the participating Principal Investigators of the Study.
- 10.4 The Principal Investigator/Trial Site shall have no right to publish and present the results of the Study unless the prior written consent of Sponsor/CRO has been obtained. Sponsor/CRO recognizes the wishes of Site/PI to publish details of academic research in scientific journals. Sponsor/CRO shall however have the full right to withhold such consent.
- 10.5 Sponsor/CRO shall retain ownership of all original and completed CRFs, data, analyses and reports that result or are derived from the Study.

11. INVENTIONS& PATENTS:

- 11.1 Any invention, discovery, or improvement related to Sponsor/CRO's products or technology which is conceived or reduced to practice as a consequence of Trial Site's performance of the services hereunder (the "Inventions") shall be the sole and exclusive property of Sponsor/CRO and shall be used by Sponsor/CRO as Sponsor/CRO deems appropriate. Trial Site agrees to execute and have executed, at Sponsor/CRO's cost, assignments of the inventions to Sponsor/ CRO (including ensuring contracts between Trial Site and its representatives include appropriate assignment language to require its representatives to comply with the terms of this assignment provision and this Agreement), along with other documents that may be necessary or helpful to Sponsor / CRO in filing patent applications, or which may relate to any litigation or interference and/or controversy in connection therewith. The entire control, prosecution, and conduct of any patent application filed by Sponsor shall be outside the jurisdiction of, and without expense to, Trial Site/Principal Investigator or its Representatives. Trial Site/Principal Investigator acknowledges that

Dr. Shivani Bansal
M.D. (Medicine)
Professor
Santosh Medical College And Hospital
Ghazabad (U.P.)
MCI-25922

	 TRIAL SITE	PRINCIPAL INVESTIGATOR
---	---	------------------------

therewith. The entire control, prosecution, and conduct of any patent application filed by Sponsor shall be outside the jurisdiction of, and without expense to, Trial Site/Principal Investigator or its Representatives. Trial Site/Principal Investigator acknowledges that Sponsor / CRO has the exclusive right to file patent applications in connection with the Inventions. Trial Site /PI warrants that it will not, and will ensure (including incorporating similar language in its contracts with study sites and investigators) that its Representatives will not prevent Sponsor / CRO from filing patent applications for, or from applying the results of research carried out for Sponsor / CRO hereunder.

11.2 All reports, data, technical information, original works of authorship and all other information, furnished by or on behalf of Sponsor / CRO, or created specifically for Sponsor / CRO as a deliverable under this Agreement (“**Work Product**”), shall be the sole and exclusive property of Sponsor.

11.3 Notwithstanding the foregoing, Sponsor / CRO acknowledges that Trial Site /Principal Investigator possesses certain inventions, processes, know-how, trade secrets, improvements, other intellectual properties and other assets, including but not limited to analytical methods, procedures and techniques, procedure manuals, personnel data, financial information, computer technical expertise and software, which have been independently developed by Trial Site /Principal Investigator and which relate to its business or operations (collectively “**Trial Site Property**”). Sponsor / CRO and Trial Site /Principal Investigator agree that any Trial Site Property or improvements thereto which are used, improved, modified or developed by Sponsor / CRO under or during the term of this Agreement are the sole and exclusive property of Trial Site and Sponsor / CRO shall be liable for any misuse or unauthorized use/ dissemination of the same. In no event shall Trial Site /Principal Investigator be precluded from use of this property and its general knowledge, skills and experience, and any of its ideas, concepts, know-how and techniques used or developed by it in the course of providing services under this Agreement.

12. INSURANCE AND INDEMNIFICATION:

12.1 Trial Site shall maintain medical professional liability insurance with limits in accordance with local standards for each medical professional involved in the Study, or require that each medical professional maintain such insurance.

12.2 The Sponsor/CRO shall indemnify and hold harmless the Trial Site from any and all liability of trial subjects, loss, or damage it may suffer as a result of the Sponsor’s negligence or breach of contract or caused by the investigational medicines, compliance with the protocol written by the Sponsor, or use of the results. Sponsor/CRO will ensure that appropriate medical insurance cover is obtained to cover the financial cost of any liabilities arising out of loss / damages occurring to trial subjects as a result of participation in the clinical trial under

	 <p>TRIAL SITE</p>	 <p>Dr. Shivani Bansal M.D. (Medicine) Professor Santosh Medical College And Hospital Ghaziabad MCI-25922</p>
		

the conditions specified as per the terms of this Agreement.

12.3 The Trial Site and Principal Investigator agrees to indemnify and hold harmless the Sponsor/CRO from any and all liability of trial subject's loss, or damage it may suffer as a result of lack of performance / negligence / harm they may suffer during their routine treatment at Trial Site which is not a part of the present study protocol and is outside the scope of this Agreement.

12.4 The obligation of the Sponsor hereunder shall apply only if the indemnities provides prompt notification upon receipt of notice of any claim or suit, permits the Sponsor and its attorneys and personnel to handle and control the defense of such claims or suits including pretrial , trial or settlement and the indemnitees further agrees that it will not settle or compromise any such claim or suit without the prior written consent of the Sponsor/CRO.

13. USE OF OTHER PARTIES' NAMES:

13.1 Neither the Trial Site nor CRO may use the name, trade mark, logo, symbol, or other image or trade name of the other Party or their employees and agents in any advertisement, promotion, or other form of publicity or news release or that in any way implies endorsement without the prior written consent of an authorized representative of the other Party whose name is being used. Such approval will not be unreasonably withheld.

13.2 Trial Site, CRO and Sponsor understand that the amount of any payment made here under may be disclosed and made public by the other party as required by law or regulation, provided that the disclosure clearly designates the payment having been made to Trial Site for research and not to the physician.

14. NO JOINT VENTURE ETC.:

14.1 This Agreement shall not constitute, create, or in any way be interpreted as, a joint venture, partnership, or business organization of any kind.

15. MONITORING; AUDIT; REGULATORY INSPECTIONS:

15.1 The Principal Investigator and Trial Site shall, permit authorized personnel of the Sponsor/ CRO and any Regulatory Authority including EC to inspect the facilities of the Study site before, during and after the Study.

15.2 The Principal Investigator and Trial Site shall notify to the Sponsor/CRO immediately by telephone or facsimile if the Drugs Controller General-India, or any other governmental or regulatory authority requests permission to or does inspect the Principal Investigator and Trial Site's facilities or research records relating to this Study whenever and will provide in

		
---	---	--

Page 17 of 42

writing to the inspecting authority copies of all materials, correspondence, statements, forms and records which the Principal Investigator and Trial Site receives, obtains, or generates pursuant to any such study.

15.3 The Principal Investigator and Trial Site will permit the Sponsor/CRO to;

- (a) Examine, inspect and audit the work performed here under and the facilities, systems and equipment at or with which the work is conducted.
- (b) Inspect and copy all data, documents and records related to such work and the Study.

16. FORCE MAJEURE:

16.1 Any event occurring after signing the Agreement, which a party could not reasonably have taken into account at the time of the conclusion of the agreement and which prevents or delays the affected party from fulfilling of its obligations under the agreement or makes the fulfillment thereof unreasonably difficult and which cannot be overcome without unreasonable loss of time or cost, shall constitute an event of force majeure. An event of force majeure shall include: strike, war, revolt, import or export prohibition, acts of God, interruption of public traffic or distribution of energy, legal labour dispute, fire, epidemic, pandemic or any other reason having as severe and unusual effects beyond the control of the Party.

16.2 If a party would wish to invoke existence of an event of force majeure as a cause for the non compliance with any of its obligations under the Agreement or delay or exemption from liability, it shall without delay inform the other Party of the delay or termination of its contractual obligation in writing.

17. NOTICES

17.1 Any notice, authorization, approval, consent or other communication will be in writing and deemed given:

- a. Upon delivery in person;
- b. Upon delivery by courier;
- c. Upon delivery date by a nationally- recognized overnight delivery service such as Blue Dart/DHL etc.

18. GOVERNING LAW:

18.1 The validity, interpretation, and performance of this Agreement shall be governed and construed in accordance with the laws of India.

19. JURISDICTION:

19.1 The place of jurisdiction for any dispute or claim before a court or an arbitrator shall be at New Delhi, notwithstanding any other provision to the contrary in any law in this regard.

20. ARBITRATION:

20.1 All disputes or claims whatsoever arising out of or in respect of the terms and conditions of this agreement or relating to the admissibility or liability or quantity of compensation or damages payable to or by any of the parties to this Agreement to the trial subject or his/her legal representative or the nominee shall be referred by the aggrieved party or person to the arbitration of a sole arbitrator to be appointed mutually by the Parties within a period of thirty

		
---	---	--

6/5

(30) days of the receipt of a written request by the aggrieved. The Arbitration and conciliation Act 1996 as amended from time to time shall be applicable to such arbitration proceedings. The award of the arbitrator shall be final and binding on all the Parties thereto.

21. AMENDMENT:

21.1 This Agreement and protocol may only be amended by the mutual written consent of the Parties hereto. The Parties agree that this Agreement constitutes the sole, full and complete Agreement by and between the Parties and supersedes all other written and oral Agreements and representation between the parties with respect to the Study. No amendments, changes, additions, deletions, or modifications to or of this Agreement shall be valid unless reduced to writing and signed by the Parties. All changes and amendments to this Agreement shall be agreed in writing between the Parties.

22. ENTIRE AGREEMENT

22.1 Section and clause headings are used here in solely for convenience of reference and are not intended as substantive parts of the Parties' Agreement. This Agreement incorporate the Exhibits referenced herein. This written Agreement constitutes the entire a matter, and supersedes all other or prior agreements or understandings, whether written or oral, with respect to that subject matter except for MoU. Any changes made to the terms, conditions or amounts cited in this Agreement require the written approval of each Party's authorized representative.

IN WITNESS WHEREOF, the Parties hereto have caused this Agreement to be executed, in triplicate, by their officers, thereunto duly authorized to sign on behalf of their Party.

Exhibit-A

Insignia Clinical Services Pvt. Ltd.

ICS/LAX/2021-001
Ver. 1.0. 18 Jan. 2021

PROTOCOL SYNOPSIS

TITLE: A prospective, pilot, clinical trial to evaluate the efficacy and safety of Colchicine for improvement of clinical outcomes during CoronaVirus (COVID-19) disease treatment in high-risk Indian patients.

STUDY ACRONYM: COLCOVEN

PROTOCOL NUMBER: ICS/LAX/2021-001

NUMBER OF SUBJECTS TO BE ENROLLED AND RANDOMIZED: Total of 84 subjects (42 per group) to be screened & enrolled in 1:1 ratio in either of the two study treatment arms to achieve statistically powered minimum sample.

CLINICAL PHASE: Phase-II Clinical Trial

INDICATION: Coronavirus (COVID-19) Disease.

STUDY OBJECTIVES:

Primary Objective:

- To evaluate the efficacy of Colchicine for improvement of overall clinical outcomes in high risk patients infected with coronavirus (COVID-19).

Secondary Objective:

- To evaluate the safety and tolerability of Colchicine when used for improvement of overall clinical outcomes in high risk patients infected with coronavirus (COVID-19).

STUDY DURATION:

Total duration of participation for all subjects, who participate in the study will be for a maximum period of 45 days, from the time of beginning of treatment. The total duration of treatment in test and reference groups may vary, however, the daily dosing of Colchicine in Test group may continue up to 28 days from the day of first dose. Based on the Principal

CONFIDENTIAL

Page 21 of 42

Investigator discretion, the study medication may be stopped during the study.

STUDY DESIGN AND METHODOLOGY:

This is a Pilot Phase II, randomized, open label, prospective, comparative, two-arm, multi-center clinical study to evaluate the efficacy and safety of Colchicine for improvement of overall clinical outcomes when added to Standard of Care (SOC) treatment in high-risk Indian patients suffering with coronavirus (COVID-19) disease.

The proposed study is a two phase clinical study wherein first phase is Treatment Phase of 28 days followed by Follow-up Phase of 14 days. High risk patients with clinically confirmed & documented diagnosis of moderate coronavirus disease (COVID-19) as per MOH Criteria who require hospitalization for management of the disease, i.e.,

- Confirmed diagnosis of COVID-19 demonstrated by positivity in RT-PCR 2019-nCoV test on respiratory tract (nasopharyngeal / oropharyngeal) specimens.
- Presence of clinical features of dyspnea and/or hypoxia, fever, cough, including SpO₂ \leq 94% (range 93-94%) on 10cm air, Respiratory Rate \geq 24 and \leq 30 breaths per minute
- Age above 40 to 65 years (both inclusive)
- Having at least one of the high-risk criteria, i.e. obesity (BMI \geq 30 kg/m²), diabetes mellitus, uncontrolled hypertension (diastolic blood pressure \geq 90 mm Hg & systolic blood pressure \geq 150 mm Hg), known respiratory disease (including asthma or chronic obstructive pulmonary disease), known heart failure, known coronary disease.

will be screened and enrolled for participation in the study as per study protocol.

The treatment period with investigational product in test group will be 28 days from the day of first dose. It is however necessary that all patients in either test or control groups be allowed to take concomitant SOC as per the prescribed schedule for entire duration of the study, as applicable.

During entire duration of participation in the study, all patients in both test and/or control groups will take SOC as advised per individual treatment plan and will be asked to monitor signs & symptoms of disease, status of clinical recovery and adverse events, if any.

CONFIDENTIAL

Page 11 of 74

Handwritten initials/signature

Handwritten signature: Dr. Shivani Bansal
Dr. Shivani Bansal
 M.D. (Medicine)
 Professor
 Santosh Dewani College And Hospital
 Ghaziabad (U.P.)
 MCI-25522

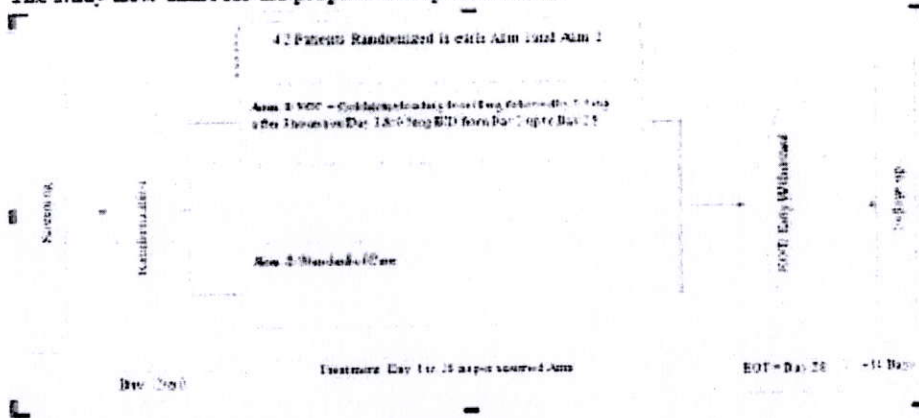

During the both phases of study, clinical evaluations shall be performed as per the below mentioned schedule:

- Screening Period (Day -2 to Day 0)
- Randomization (Day 1*)
- Treatment Period (Day 2 to Day 28)
- End of Treatment ("Next day of last treatment dose" Or Day 29)
- Follow-up Period (Day 42 ± 2, i.e. 14 ± 2 days (2 weeks) from EOT** or "Death" whichever is earlier]

*Day 1 to be considered from the day when the first dose of study medication as per treatment plan is administered to the patient.

** Based on the treating physician's opinion, patient's clinical status & outcome of disease treatment, hospital discharge time points may vary for specific patient. Discharge from hospital will depend on clinical status of patient and signs & symptoms of the disease, according to standard clinical practices. Patients who demonstrate improvement in disease status and do not show signs of respiratory distress, breathlessness and hypoxia (SpO2 > 93% on room air) and not requiring auxiliary oxygen may qualify for discharge based on clinical judgement of the investigator. Hospital discharge will be independent of the treatment schedule for investigational product.

The study flow-chart for the proposed study is as below:

CONFIDENTIAL

Page 12 of 74

		<p>Dr. Shivam Bansal M.D. (Medicine) Professor Medical College And Hospital Santosh University, Ghaziabad (U.P.) MCPREGATOR</p>
CRO	TRIAL SITE	PRINCIPAL INVESTIGATOR

Page 23 of 42

6/15

At screening, all subjects will undergo following study assessment:

- Demographics.
- Personal history.
- Complete medical and surgical history.
- Vital signs (heart rate, blood pressure, body temperature, respiratory rate, oxygen saturation).
- Physical examination.
- Concomitant medications.
- Laboratory Investigations to be done at Screening shall include:
 - CBC (including RBC, Hematocrit (HCT, packed cell volume, PCV), Hemoglobin, Platelet, Mean platelet volume, Differential & Absolute Leukocyte Count)
 - Biochemistry (LFT, RFT, CRP, D-Dimer, St. Ferritin)
 - Urinalysis (physical, microscopic & chemical examination)
 - Inflammatory markers [hs-cTnI, NT-ProBNP, Neutrophil-Lymphocyte (N/L) ratio, IL-6, TNF- α]
- Urine pregnancy test (only for females of child bearing potential).
- ECG (12-lead)
- Chest X-Ray / CT-Scan (based on PI Discretion if required to assess pneumonia)
- 2D-Echocardiography
- A positive nasopharyngeal / oropharyngeal swab test for COVID-19 nucleic acid test to be done using RT-PCR technique (if not performed already within 72 hours prior to screening).
- Any additional tests / screening procedures which are not part of above study assessments, however, may be required as per standard clinical practice for management of COVID-19 patients or in line with national COVID-19 management protocol are allowed for study participants, however, details of all such investigations should be captured in respective patient CRF.

After screening, all patients who will qualify for participation in the study as per inclusion / exclusion criteria will be randomized in a 1:1 ratio in either of the two study groups.

Note: If screening and randomization are on same day, then assessments of screening

CONFIDENTIAL

6/5

will be considered for baseline. All laboratory investigations and X-Ray performed within 72 hours prior to study enrolment can be considered for baseline values)

During randomization (Day 1), all eligible enrolled patients in test group will receive Colchicine loading dose (1mg followed by 0.5mg after 5 hours) on Day 1 & 0.5mg BID from Day 2 up to Day 28 plus Standard of Care (SOC) whereas patients in control group shall receive only Standard of Care (SOC).

During the hospitalization and for entire duration of the study, patients will be monitored to assess clinical signs and symptoms of the disease, laboratory tests values (biochemical & hematology) and adverse events as required per standard clinical practice.

SOC to be given will be decided by the investigator based on the clinical condition of the patients and should be in line with per the Clinical Management Protocol for COVID-19 patients prescribed by Government of India. Details of SOC and supportive care will be recorded for each patient in their respective Case Report Form (CRF) on daily basis for the entire duration of hospitalization. Upon discharge, patients will be given diary cards to record the time of intake of study medications which may be prescribed to them for usage during remain duration of study.

To ensure consistency in line of treatment being administered for all patients who will participate in the study, different institutions/study sites/investigator's participating will be advised / encouraged to refer the updated / latest Clinical Management Protocol for COVID-19 prescribed Government of India while choosing SOC for patients.

Clinical assessment during the study shall be performed as per following schedule:

Treatment Phase (Day 2 to Day 28):

- Vital signs, physical examination, adverse events, concomitant medication and clinical signs & symptoms of disease (body temperature, respiratory rate, oxygen saturation, respiratory examination) of the subject will be monitored on the daily basis during hospitalization.
- Routine laboratory investigations as per national COVID-19 management protocol are allowed during the study.
- Nasopharyngeal / Oropharyngeal swab for COVID-19 nucleic acid test (RT-PCR)

CONFIDENTIAL

to be repeated at Discharge (in cases of -ve report not achieved already).

As per Investigator's opinion, if there is need to change the line of treatment for any patient due to safety issues, such patient shall be withdrawn from the study and managed as per investigator's clinical judgement. In case there is a 2-point deterioration in clinical status of the patient during the treatment, such patients will be immediately withdrawn from the study and shall be treated as per investigator's judgement and shall be considered as treatment failures. In cases of early withdrawal due to any reasons, all possible attempts shall be made by the investigator to complete laboratory investigations, clinical, safety and efficacy assessments specified for EOT time point.

Discharge from hospital may occur anytime depending on investigator judgement and clinical recovery status of individual patient according to standard clinical practice. Upon discharge from hospital, patients will be advised to monitor the overall health and status of clinical recovery and adverse events, if any. In case of Discharge before ECT, patients will continue treatment & mandatory investigations as per the prescribed schedule, however, investigational product will not be administered beyond Day 28 to patients who will participate in test group.

Follow-up Phase (Day 29 to Day 42 ± 2 days):

Follow Phase will begin from EOT, i.e. Day 29 and will be independent of hospital discharge. Follow-up Phase shall continue for next 14 ± 2 days for each patient during which each patient required to visit study site at the end of study and earlier in case of deterioration in signs & symptoms of disease and / or adverse events (if any). During follow-up visit following study related clinical investigations / assessments may be performed based on clinical judgement of the investigator:

- Vital signs, physical examination, adverse events, concomitant medication and clinical signs & symptoms of disease (body temperature, respiratory rate, oxygen saturation, respiratory examination) of the subject will be monitored on the daily till discharge.
- ECG (12-lead) to be repeated at follow-up visit.
- Routine laboratory investigations which are required as per routine clinical practice.

CONFIDENTIAL

Page 15 of 74

		<p><i>Shivani Bansal</i> M.D. (Medicine) Professor Santosh College And Hospital Ghaziabad MCI-25922</p>
---	---	---

6/16

- If at any time during the follow-up period, the investigator performs any laboratory test / clinical investigation as per his/her clinical judgment the date & reasons for such testing should be promptly recorded in the patient CRF
- Adverse events (serious, non-serious, expected, not expected, related, not related) will be monitored throughout the complete study period. All serious adverse events will be reported within 24 hours of occurrence to DCGI, Ethics Committee and Sponsor (vijay.dhondge@laxai.com and pvj@insigniacs.com).

The primary outcome measure for this study will be:

- Time to clinical improvement of 2-points on WHO 5-point ordinal scale [Time frame: 28 days from randomization]

Secondary outcome measures for this study will include:

- Improvement in cardiac & biochemical inflammatory markers [hs-cTnT], D-dimer, NT-ProBNP, CRP, Neutrophil-Lymphocyte (N/L) ratio, Sr. Ferritin, IL-6, TNF- α
- Time to discharge from hospital
- Rate of viral clearance
- Patients requiring auxiliary oxygen therapy (non-invasive/invasive) & time on auxiliary oxygen therapy.

Other outcome measures for this study will be:

- All-cause mortality.
- Adverse events (Serious, Expected/Unexpected, Related/Non-Related).

Safety and tolerability to study medication will be evaluated based on laboratory tests (hematology and biochemistry), ECG (12-lead), routine clinical examinations, and the incidence, severity and type of AEs reported by the patient over the course of treatment and entire study duration. All AEs (Serious/Non-Serious, Expected/Not expected, Related/Not Related) reported during the study will be coded using the Medical Dictionary for Regulatory Activities (MedDRA updated with COVID-19 terms) and grouped by treatment.

CONFIDENTIAL

6/5

Clinical efficacy and safety data will be collected everyday till discharge from hospital & during the follow-up phase as per safety & efficacy assessment schedule.

DIAGNOSIS TARGET POPULATION AND KEY INCLUSION CRITERIA:

Male and female subjects between 40 to 65 years (both inclusive) with clinically confirmed and documented diagnosis of moderate coronavirus disease (COVID-19) confirmed by positivity in RT-PCR 2019-nCov test on respiratory tract (nasopharyngeal / oropharyngeal) specimens and presenting clinical features of dyspnea and/or hypoxia, fever, cough, including SpO₂ < 94% (range 90-94%) on room air, Respiratory Rate > 24 and < 30 breaths per minute.

All qualified subjects should have at least one of the high-risk criteria, i.e. obesity (BMI ≥ 30 kg/m²), diabetes mellitus, uncontrolled hypertension (diastolic blood pressure ≥ 90 mm Hg & systolic blood pressure ≥ 150 mm Hg), known respiratory disease (including asthma or chronic obstructive pulmonary disease), known heart failure, known coronary disease OR should demonstrate signs of cardiac injury due to Elevated troponin level at the time of screening / study entry.

All patients who present above symptoms and are able to provide voluntary informed consent by self and/or legally accepted representative (LAR) will be screened for participation in the study and will be enrolled for treatment and randomized in either treatment groups (Test vs. Control) in a 1:1 ratio.

Other inclusion and exclusion criteria for the study shall be as follows:

Inclusion Criteria:

1. Male & Female patients with age ranging from 40 to 65 years (both inclusive) & female (non-pregnant, non-lactating, post-menopausal, surgically sterilized or practicing a reliable method of birth control during the duration of study)
2. Clinically stable condition for at least 6 months before enrollment.
3. Confirmed diagnosis of at least moderate COVID-19 symptoms demonstrated by:
 - a. Positivity in RT-PCR 2019-nCov test on respiratory tract (nasopharyngeal / oropharyngeal) specimens.

CONFIDENTIAL

- b. Presence of clinical features of dyspnea and/or hypoxia, fever, cough, including SpO₂ < 94% (range 90-94%) on room air, Respiratory Rate > 24 and < 30 breaths per minute.
- 4. Significant COVID-19 symptoms, and judged by the treating doctor to be at high risk of progression to severe category due to presence of any of the following:
 - a. Having at least one of the high-risk criteria, i.e. obesity (BMI ≥ 30 kg/m²), diabetes mellitus, uncontrolled hypertension (diastolic blood pressure ≥ 90 mm Hg systolic blood pressure ≥ 150 mm Hg), known respiratory disease (including asthma or chronic obstructive pulmonary disease), known heart failure, known coronary disease;
 - b. Demonstrating signs of cardiac injury due to Elevated troponin level.
- 5. Patient who require hospitalization for control of disease at the time of study entry.
- 6. Within 7 days from symptom onset or within 72 hours of laboratory diagnosis of SARS-CoV-2.
- 7. Able to take oral tablets and agreeing not to participate in any other study for duration of participation in this study.
- 8. Willing to sign voluntary informed consent for participation in the study and willing to adhere to all protocol procedures. In case the subject is unable to provide informed consent then the same should be obtained from legally acceptable representative (LAR).

Exclusion Criteria

- 1. History of present illness: (will be based on treating physician's opinion)
 - a. Neurological and neuro-developmental disorders.
 - b. Congenital heart disease
 - c. Severe heart disease or a history of clinically significant arrhythmias which may affect participants' safety (According to the ECG or medical history) Corrected QT interval of 450 milliseconds or higher (according to the Bazett formula) or a 12-lead surface ECG / Abnormal ECG (to eliminate concerns that a potential interaction between colchicine and hydroxychloroquine could lead to excess QT prolongation)

2. Requirement of oxygen supplementation: SI used, cannot at the time of enrollment.
3. Treating physician's clinical judgement that the patient will require mechanical respiratory support within 24 hours.
4. Patient currently in Septic shock or with hemodynamic instability requiring vasopressors.
5. History of embolism.
6. A subject undergoing hemodialysis.
7. Severe gastrointestinal failure, severe gastrointestinal disorders, or stomach ulcer.
8. Patient is currently taking colchicine for other indications (gout or Familial Mediterranean Fever).
9. Patient with inflammatory bowel disease (Crohn's disease or ulcerative colitis), chronic diarrhea or malabsorption.
10. Severe Hepatic Insufficiency (ALT or AST > 5 times ULN) or Renal Failure (eGFR using the MDRD equation for all subjects < 30 mL/min).
11. Patient received Remdesivir, Sarilumab, Tocilizumab/Lopinavir / Ritonavir or other immunomodulator given for COVID-19 treatment prior to study entry.
12. Patient is on (and cannot discontinue) a strong CYP3A4 inhibitor (e.g. clarithromycin, indinavir, itraconazole, ketoconazole, nefazodone, nefinavir, ritonavir, saquinavir, telithromycin, azatanavir), a moderate CYP3A4 inhibitor (e.g. diltiazem, verapamil, fluconazole, amprenavir, aprepitant, fosamprenavir) or a P-gp inhibitor (e.g. cyclosporine, ranolazine).
13. Patients who may require IL-6 inhibitors as per clinical judgement of the investigator for management of inflammation at the time of study entry.

Handwritten initials: KJ, GJ

14. Pregnant or lactating women: women of a childbearing age with a positive pregnancy test

INVESTIGATIONAL MEDICINAL PRODUCT (IMP):

Test Group: Colchicine loading dose (1mg followed by 0.5mg after 3 hours) on Day 1 & 0.5mg BID from Day 1 up to Day 28 + SOC

Control Group: Standard of Care (SOC)

Notes:

- SOC will be administered as per Principal Investigator discretion in line with national COVID-19 clinical management protocol. Standard of Care (SOC) may include licensed antivirals, oxygen inhalation, oral or intravenous rehydration, electrolyte correction, antipyretics, analgesics, anti-inflammatory and antiemetic drugs.
- In cases where there is significant increase in oxygen requirement and/or inflammatory markers are increasing, even after 48 hours of admission into the study, investigator is allowed to use either 6 mg of dexamethasone (IV or Oral) OR 40 mg of prednisone OR 32 mg of methylprednisolone for management of inflammation.
- Details of all such concomitant medications, usage will be captured and specific patient CRF for subset analysis at the end of study.

DISPENSING OF IMP:

IMP will be handled by a pharmacist or designated personnel at the site.

Patients who are randomized in the study will be instructed to take the study drug as per the protocol. Patients will be informed during the consent process that if they are selected in test group they will receive Colchicine for a period of maximum 28 days upon randomization and will be followed up for additional 14 days (2 weeks) for signs &

6/5

symptoms of clinical recovery.

The test product will be supplied by the Sponsor for dispensing to the patient during the study treatment phase. The Investigator should confirm the receipt of the study drugs in writing, including follow-up supplies. The investigator designated personnel will be responsible for dispensing / re-dispensing of study medication and collection of used / empty packs as per patient allocation & randomization schedule. Only patients enrolled in the test group will receive the IMP.

Sponsor representative/designee will ensure at their interim visits that all unused cartons / packs are intact and not opened. Investigator/designee will file opened treatment allocation carton/pack in subject file as documented evidence and accordingly dispense during the study period. Designated study team member at site will have to dispense the treatment to the subject and prior to dispensing the treatment will have to record the randomization number appearing on the treatment allocation envelope and the visit code prior to dispensing it.

The storage and handling instructions for Colchicine oral tablets will be mentioned on the label carton. Store at Room Temperature. Keep out of the reach and sight of children. Do not use after the expiry date. Investigator/Pharmacist will be advised to store the study drugs in a cool place, protected from heat, freeze and direct sunlight. Reconciliation between the amount of medication supplied, dispensed and returned to sponsor must be performed and any discrepancies accounted for should be documented with a reason for the same.

Compliance will be checked by the count of used and unused study drug returned. Study drug accountability log will be maintained by the investigator or the authorized personnel. Any discrepancies should be well documented in the source notes as well as in the case report form.

DOSE AND MODE OF ADMINISTRATION:

Test products is for oral use only.

Subjects will be randomized to either of the two treatment groups:

Test Group: Colchicine loading dose (img + Standard of Care

for 6/5

followed by 0.5mg after 3 hours) on
Day 1 & 0.5mg BD from Day 2 up to
Day 28

Control Group: Standard of Care

CLINICAL ENDPOINTS:

EVALUATION OF SAFETY:

An adverse event is defined as any untoward medical occurrence (sign, symptom or laboratory finding), regardless of severity and whether or not attributed to the investigational product.

All adverse events, whether observed by an Investigator or Study Coordinator or reported by the subject, whether related to study drug or not related to study drug, shall be documented on the CRF and subject records, together with details, i.e. date of onset, the duration and intensity of each episode, the action taken, the relationship to the investigational product and the degree of severity, the seriousness and the outcome.

Safety and tolerability to treatment were evaluated according to routine laboratory tests (haematology and biochemistry), 12-lead ECGs, clinical examinations, and the incidence, severity and type of AEs reported by the patients over the course of treatment.

All AEs were coded using the Medical Dictionary for Regulatory Activities (MedDRA updated with COVID-19 terms) and grouped by treatment. The number and percentage of AEs, SAEs, AEs leading to discontinuation, and AEs related to study drug will be summarized by system organ class, preferred term and treatment group. The number and percentage of AEs by severity will also be summarized. All AEs will be displayed in listings. No inferential analyses are planned.

Summary of vital signs, laboratory parameter values at relevant time points as well as change from baseline will be presented. Summary of physical examination findings will be presented by visit. Summary of concomitant medications will be presented.

Safety evaluations in the study will be performed using Safety Analysis Set (SAF). The Safety Analysis Set (SAF) consists of all subjects who took at least 1 dose of study

CONFIDENTIAL

Page 33 of 42

6/5

medication, and will be used for safety analysis.

A descriptive analysis comparing the rate, intensity and severity of adverse events in both the treatment groups will be performed

EVALUATION OF EFFICACY:

The primary outcome measure for this study will be:

- Time to clinical improvement of 2-points on WHO 5-point ordinal scale
(Time frame: 28 days from randomization)

Secondary outcome measures for this study will include:

- Improvement in cardiac & biochemical inflammatory markers
(hs-cTn (I), D-dimer, NT-ProBNP, CRP, Neutrophil-Lymphocyte(N/L) ratio, Sr. Ferritin, IL-6, TNF- α)
- Time to discharge from hospital
- Rate of viral clearance
- Patient requiring auxiliary oxygen therapy (non-invasive/invasive) & time on auxiliary oxygen therapy.
- All-cause mortality.

The efficacy evaluations will be performed using the following analysis sets for this study:

- Full Analysis Set (FAS) :The Full Analysis set will consist of all subjects who were randomized, received at least 1 dose of investigational product and had at least 1 post baseline measurement. This will be the primary analysis set for efficacy analysis.
- Modified Intent-to-treat population (mITT): The ITT population will consist of all enrolled subjects who met inclusion/exclusion criteria and are on study medication and have at least one post baseline efficacy assessment.

CONFIDENTIAL

6/5/21

REGISTRAR
GHAZIABAD, NCR DELHI

- **Per protocol population (PP):** The Per-Protocol set will be a subset of subjects in the FAS set who complete the study without any important protocol deviations. The criteria to determine protocol deviations will be defined in the SAP. The PP set will be a secondary analysis set for efficacy analyses.

This will constitute of all the enrolled subjects who were compliant with the assigned study treatment and completed evaluation as per protocol with no protocol deviations that would affect the evaluation or interpretation of the primary efficacy endpoint. Protocol compliance will be evaluated by questioning the subjects, reviewing subject diaries for missed doses etc. Subjects will be considered protocol compliant if he/she used at least 75% but no more than 125% of study drug doses, based on the subject study medication records.

STATISTICAL METHODS:

Validated CFR compliant statistical software will be used for analysis in this study. A statistical analysis plan (SAP) will be prepared separately from this protocol which gives descriptions of the statistical methods, models, hypothesis, and analysis populations to be analyzed. The SAP will serve as a companion to the protocol and will serve as the de facto documentation of the proposed statistical evaluations.

SAMPLE SIZE ESTIMATION:

The proposed study is being conducted to evaluate the efficacy of Colchicine when given alongside Standard of Care (SOC) Vs. SOC for the treatment of coronavirus disease (COVID-19). The primary endpoint for the study was time to improvement/ response. Thus, the point of clinical improvement or response was treated as an event.

Based on the existing literature data on the current standard of care versus a historical standard of care, the hazard ratio for time to recovery was found to be 1.8. The sample size was calculated with level of significance for two-sided alpha assumed at 5% and power of 80%.

A total sample size of 62 was obtained. Patients will be randomized to the treatment and the standard of care group in a 1:1 ratio with 42 participants in each group. Assuming a dropout rate of around 35%, the total sample size will be 84. Therefore, for this study a total of eighty-four (84) patients may be enrolled (42 patients in each Arm 1 and Arm 2) to achieve a sample size of 62 (31 per group) completed patients for this pilot study.

EXHIBIT-B
PART 1- BUDGET & PAYMENT SCHEDULE

Protocol Title: A prospective, pilot, clinical trial to evaluate the efficacy and safety of COLchicine for improvement of clinical outcomes during COronaVirus (COVID-19) disease treatment in high-risk INdian patients. [Acronym: COLCOVIN Study]

Protocol Number: ICS/LAX/2021-001

Estimated Per Subject Fee [including all fixed costs, institutional overheads (as applicable) & other Compensation below]:

- PI Clinical Investigation Charges (Screening, Treatment till Discharge, EOT & Follow-up Visit) = INR 20,000/- Per Completed Subject at the Trial Site*
- Cardiologist Clinical Investigation Charges (Screening, Discharge & EOT) = INR 3,000/- Per Completed Subject at the Trial Site*
- Hospital Charges (Bed + Oxygen) = INR 36,000/- Per Completed Subject at Trial Site*
- Mandatory Study Investigations (details as per Table 1) = INR 10,000/- Per Completed Subject at the Trial Site*

Table 1:

S.No.	Investigation	Repetition Frequency as per protocol
1.	ECG	<ul style="list-style-type: none"> • All days during hospitalization till Discharge. • End of Treatment Visit (EOT) • Follow-up Visit
2.	2D-ECHO	Screening, Discharge & End of Treatment
3.	RT-PCR	Screening, Discharge & End of Treatment
4.	Chest X-Ray	Screening, Discharge & End of Treatment

- Optional Lab. Investigation Charges as per PI direction (rates prescribed in Table 2):

Table 2:

Investigation	Cost	Investigation	Cost	Investigation	Cost
CBC (including absolute and differential blood count)	180/-	D-Dimer	685/-	NT-proBNP	1500/-
Liver Function Test	450/-	Sr. Ferritin	340/-	IL-6	1350/-
Renal Function Test	486/-	Urine Analysis	100/-	TNF-α	2200/-
C-Reactive Protein	210/-	Urine Pregnancy Test	100/-	hs-cTn(I)	1012/-

Subject Stipends: The subject stipend is intended to offset the Study subject's costs associated with travel expenses and meals, where appropriate, incurred as a result of Study participation, and shall be reflected in the informed Consent Form, as will be provided to the Study subject.

Screen Failure Payments: No screen failure payment will be provided either to investigators or to study site a result of participation in the present study.

Payment Terms:

- a) This Exhibit-B is for completed records for valid subjects. A valid subject is defined as a subject who meets eligibility requirements to enroll in the Study and does not have significant Protocol violations that would exclude his/her Data from analysis. Sponsor/CRO anticipates closure of enrollment upon randomization of a total of 84 valid subjects across all the sites participating in the study. In the event 84 total valid subjects are enrolled, further recruitment will be suspended. No payment will be made for any subject excluded from analysis because of Protocol violations within the Study personnel's control.
- b) Trial Site acknowledges this is a multicenter Study designed to evaluate a set number of Study subjects. When enrollment of the target number of Study subjects in the Study is complete, those sites will be notified and instructed not to continue enrolling Study subjects.
- c) Sponsor/CRO will provide, through a third party vendor, thermometer equipment (as required) valued at up to Rs. 4,000 for use as called for in the Protocol upon termination of the Study at Trial Site, the equipment will be returned in accordance with Sponsor/CRO's or designee's instructions.
- d) **Equipment Calibration:** Trial Site shall be responsible for ensuring Trial Site-owned equipment utilized by Trial Site in accordance with this Agreement is serviced and/or calibrated as per manufacturer's recommendation and/or more frequently as required by Sponsor/CRO. Records verifying the equipment calibration and maintenance shall be provided to Sponsor/CRO upon request for calibrations which are performed solely at the request of Sponsor/CRO, and that are not part of the recommended scheduled maintenance suggested by manufacturer, Sponsor/CRO will reimburse Trial Site for the actual cost without mark-up for each calibration processing of payment will begin upon receipt of invoice and supporting documentation in accordance with paragraph e) below.
- e) To be eligible for payments, the procedures must be performed in full compliance with the Protocol and this Agreement, and data submitted must be complete, correct and entered into the CRF in accordance with Sponsor/CRO's instructions. Payments will be made, at a minimum, on a fortnightly basis, once the corrected invoices are received. These payments will include milestone payments, as well as all invoiced and approved costs from the prior payment cycle. Ongoing reconciliations will be performed during the course of the study. Any erroneous payments discovered will be applied to any pending or future payments due. No payments will be made until all erroneous payments have been offset. If no pending or

	TRIAL SITE	PRINCIPAL INVESTIGATOR

hst
6/15

future payments exist, Trial Site will promptly refund overpayment according to Sponsor/CRO's instructions.

Original invoices pertaining to this study should be submitted for reimbursement to the following address:

TO
Insignia Clinical Services Pvt. Ltd.
Unit No. 512,
5th Floor, Best Sky Tower,
Netaji Subhash Place, Pitampura,
New Delhi-110034.

A copy of the invoice, together with the supporting documentation should be emailed to cral@insigniacs.com and failure to do so, might delay the payment process

Please note that invoices must contain the following information, or they will be returned, delaying payment:

- Trial Site name
 - Principal Investigator name
 - Protocol number
 - invoice number and date
 - Date & description of services provided Supporting documentation (i.e. third-party invoices, receipts)
 - Any claims for reimbursement of adverse events must be submitted in a separate invoice
 - Site Purchase Order (PO) number
 - ICS GST Number - 07AADC10529A1Z7
 - PAN (permanent account number)
 - Site (micro, small and medium enterprises) MSME number (If applicable) Site GST number (if applicable)
 - HSN/SAC (Harmonized System of Nomenclature/ Service Account Code)
- f) Costs from, and reimbursement for, activities and items not specifically referenced above, including, but not limited to staff costs, laboratory fees, x-rays, scales and questionnaires (quality of life, etc.), data coordinator fees, travel fees, and subject reimbursement other than any subject stipends specifically identified above, are incorporated into the per-subject payment above. No additional reimbursement for these costs is otherwise provided.
- g) For the avoidance of doubt, the Principal Investigator and/or the Trial Site are responsible for providing any and all compensation benefits and/or insurance to the investigational staff. It is also understood and expressly acknowledged that the investigator and the investigational staff are not eligible to participate in, nor are they eligible for coverage under any of the

PART-2 TAXES

1. Notwithstanding anything contained in the Agreement, the Trial Site agrees that it is eligible to receive part of the consideration being the Goods and Services Tax(GST) charged in respect of the supply only after the details of such supply are uploaded by the Trial Site in the Form GSTR-1 (or such other form as may be notified in lieu thereof from time to time), which is subsequently reflected in Form GSTR-ZA (or such other form as may be notified in lieu thereof from time to time), made available electronically to the Sponsor/CRO, and are considered as matched with the corresponding details furnished by the Sponsor/CRO in its returns in terms of the relevant provisions of the GST Laws.
2. The Trial Site agrees to indemnify the Sponsor/CRO and keep it indemnified from and against reasonable tax liabilities that may accrue or be demanded by a Taxing Authority, in respect of or in connection with the execution of scope of work or payments made due to the Trial Site, arising under the said Agreement or anything done pursuant to the same. Any such compensation towards liabilities by the Trial Site to the Sponsor/CRO will be made within ninety (90) days of the liabilities accruing / demanded raised by Tax Authorities on the Sponsor/CRO either by way of issuance of demand or show cause notice or order or decree.
3. The Trial Site undertakes to be compliant with the anti-profiteering provision under Section 171 of the Central Goods and Services Tax Act, 2017.
4. **Other terms:**
 - a. The consideration payable under this Agreement shall be exclusive of applicable Goods and Services Tax (GST) including but not limited to CGST and SGST /UTGST or IGST, and or applicable cess, as the case may be.
 - b. The Trial Site shall periodically pay its tax liabilities in compliance with the GST Laws in connection with the goods/ services supplied under this Agreement such that the Sponsor/CRO is entitled to claim such credit of input tax with respect to the good/services supplied under this Agreement as permitted under the GST Laws.
 - c. The Trial Site hereby undertakes that it will make timely payments of all taxes, duties, levies imposed by Government (including but not limited to GST), be responsible for filing of all necessary tax returns and undertake all necessary compliances in accordance with applicable statutory requirements under the relevant statute in relation to sum received from the Sponsor/CRO.
 - d. The Trial Site hereby undertakes that it will issue the tax invoices within the statutory time limits as prescribed under the GST laws and in the manner and with

		
---	---	--

all the prescribed particulars as are required to be specified as per the GST Laws.

- e. The Trial Site hereby undertakes that the address / location of the CRO to which the invoice will be issued by the Trial Site will be as per the address mentioned in the Purchase Order (PO) issued by the CRO. Separately, prior to issue of an invoice, the Trial Site shall intimate the CRO about the address / location of the CRO to which the invoice will be issued and a prior approval from the CRO in this respect will be taken by the Trial Site.
- f. The Trial Site undertakes that a debit note/ supplementary invoice/credit note with appropriate references to the original invoice will be issued only in such circumstances as agreed between the parties.
- g. Post supply of goods / services under this Agreement, the Trial Site shall cooperate with the CRO and provide any information that may be reasonably requested by the CRO in connection with claiming such credit of input tax under the GST Laws such as tax invoice or debit note issued by the Trial Site or such other taxpaying document(s) as may be required as proof of payment of applicable GST by the Trial Site.
- h. Where, transactions in respect of which the CRO has claimed input tax credit are notified as unmatched vis-à-vis the corresponding disclosures made by the Trial Site in his periodic returns, the Trial Site would extend necessary assistance including inter alia carrying out revision/ rectification of its returns, to enable the CRO to retain such claimed credits.
- i. The Trial Site undertakes that it has secured required GST Registration(s), which is/are in full force and effect and no action or claim is pending nor threatened to revoke or terminate such registration(s) or declare such registration(s) as invalid.

Phase III Clinical Study_For Chronic Spontaneous Urticaria

2 messages

Kartik Sahni <kartik.sahni@insigniacs.com>

Tue, Nov 3, 2020 at 3:25 PM

To: triptavinay@yahoo.co.in, jyoti batra <drjyotibatra89@gmail.com>, dean.research@santosh.ac.in
Cc: CLINICAL OPERATIONS - ICS <clinical.operations@insigniacs.com>

Dear Mam

As discussed, pursuant to our MoU we wish to initiate the following study at Santosh Hospital:

Specifications	Study No.: ICS/SYN/2020-001
Phase	III
Participants (N)	220
Indication	Chronic Spontaneous Urticaria
Specialty	Dermatology
Treatment Duration (Days)	28
No. of Visits	4
Hospital & Doctor Charges (Per Patient)	2000
Total Charges (All study completers)	2000 X 220 = 440,000
Lab & Clinical Investigation Charges (Per Completed Patient)	2000
List of Investigations	<ul style="list-style-type: none"> • CBC x 2 • Sr. Creatinine x 2 • LFT (SGOT, SGPT, Total Bilirubin) x 2 • UPT x 1 • ECG x 2 • HbA1C x 1 • RFT (eGFR) x 2
Total Charges for Study Lab & Radiological Investigations	1600 x 220 = 352,000
Total Study Budget (Hospital, Doctor + Lab Charges)	INR 7,92,000/-

The protocol synopsis is attached herewith. Request you to kindly advise on the below points:

1. Name and details of the investigator who will participate in the study
2. Confidentiality agreement to be signed by the investigator, template attached
3. Draft of the clinical trial agreement is attached.

Based upon the confirmation of names and details of the investigator, our team will contact the investigator and start the next steps to file for EC approval and study initiation at Santosh.

No: 21/1/2019-HRD-STs

MUST forward this E-mail to your guide.

Dear Students,

This is in reference to your application for ICMR- Short Term Studentship-2019 submitted ONLINE to the ICMR.

I am pleased to inform you that the DG, ICMR approves selection of your application for STS to carry out the proposed research work in any two months (between April to July, 2019) to work on the proposed STS research project. The award of Stipend Rs. 20,000/- and a Certificate is subjected to conditions and approval of your STS Report (to be submitted in October 2019) by ICMR. Kindly complete the research at the earliest, so that the Report can be prepared and submitted in time. (Report Submission guidelines are available at: <http://14.139.60.56:84/Instructions.aspx>) **Please note that NO Report shall be considered/accepted after the last date i.e. 31st October 2019 (till 3:00 PM only).**

The research carried out by the student must be in compliance with ICMR's *ICMR Ethical Guidelines for Biomedical Research on Human Participants, 2017* and *National Ethical Guidelines for Biomedical Research Involving Children* which may be downloaded from ICMR website (http://www.icmr.nic.in/guidelines/ICMR_Ethical_Guidelines_2017.pdf) and http://www.icmr.nic.in/guidelines/National_Ethical_Guidelines_for_BioMedical_Research_Involving_Children.pdf

On completion of the studentship, a Report of the actual work done may please be submitted ONLINE as per detailed format and instructions specified on ICMR website.

IMPORTANT: It is advised that prior to writing/submitted the report, please go through the detailed Report Submission Guidelines/instructions given on ICMR-STs website.

In case of any queries, please send email to stshrd2017@gmail.com

Best wishes,

(Mrs. Harjeet Bajaj)
Administrative Officer-STs
(For Director General)

Important : Please inform the Dean/Principal of your Medical/Dental College regarding your selection for ICMR-STs 2019

This is an automated email. Please do not send reply to this email address.

To

Dr Shalabh Gupta

Professor and Head

Department of General Surgery

Santosh Medical College and Hospital

Santosh Deemed to be University

Dear Dr Shalabh Gupta

We are pleased to inform you that upon thorough review of your project titled as below:

Title	Department	Principal Investigator	Amount
Use of nitrile gloves in studying decrease of Skin and soft tissue infections (SSTI) in Surgical patients	General Surgery	Dr Shalabh Gupta	Rs 75000
Use of Nitrile gloves in studying decrease of Skin and soft tissue infections (SSTI) in Obstetrics patients	Obstetrics and Gynaecology	Dr Manisha Gupta	Rs 85000
3. Use of Nitrile Gloves in saving hand infections in Experimental Pharmacology	Pharmacology	Dr Jyotsna Sharma	Rs 90000

To support the above projects consumables (catheters and nitrile gloves) worth Rs 2,50,000 will be provided to Santosh Medical College.

Please share the final report of the project once it is complete.

Best Regards

Shalabh Gupta
President IMA

Dear Doctor,

We are pleased to inform you that following a thorough examination of your project titled as below :

Title	Department	Principal Investigator	Amount
Evaluation of chromogenic medium for ESBL proclaiming gram negative bacteria	Microbiology	Dr. Geeta Gupta	50,000/-
Corelation of Liver Enzymes with HBsAg among suspected cases of hepatitis B patient	Microbiology	Dr. Supriya	50,000/-
A clinicomycological study of Dermatophytes in a tertiary care hospital in GZB	Microbiology	Dr. Dakshina Bisht	50,000/-
Serological testing with Weil felix test for diagnosis of scrub typhus	Microbiology	Dr. Varun Goel	25,000/-
A study of TNF - α with insulin resistance in type-2 diabetes mellitus subjects	Biochemistry	Dr Preeti Sharma	50,000
A Study of serum zinc ,alkaline phosphatase and ascorbic acid levels in diabetes mellitus	Biochemistry	Dr. Jyoti Batra	50,000/-
			2,75,000/-

Against the above projects, consumables worth Rs.2,75,000.00 (Rs. Two Lakh Seventy five Thousand Only) have been supplied to the Hospital /College.

Please send us a detailed report of your results after the assignment is complete.

Best Regards, and thank you for your time and attention
