Clinical/ Skill Training Program/ Simulation

Date: 7-12-2022

**TOPIC: EXPERT LECTURE SERIES: CHEMILUMINESCENCE
TECHNOLOGY**

Faculty In-charge: Dr Juhi Aggarwal, Professor & head, Department of Biochemistry, Santosh Medical College, SDTU and Mr. Yatin, Roche team engineer.

Total No. of Faculty Attended: 12

Total No. of Students Attended: 122

Objective: To train the participants for CLIA technology-its principle, methodology and applications.

Activities: Chemiluminescence (CL) is the luminescence produced by chemical reactions that induce the transition of an electron from its ground state to an excited electronic state. Students were given an overview of the CLIA technology along with the hands-on experience. The session was concluded after a student interaction and group discussion

OUTCOMES: Students were trained for the CLIA technology-its principle, methodology and applications. Hands on training was also provided to the participants.

Date: 14-07-2022

Topic: Access cavity preparation and localization of canals under endodontic microscope in maxillary and mandibular molars

Faculty In-charge: Dr Sumita Giri Nishad (Professor and Head)
Dr Chetna Arora (Professor)
Dr Shubhra Malik (Professor)

Total No. of Students Attended: 9

Total No. of Students Attended: 26

Objective: Knowledge and skill enhancement among participants through modern endodontic procedure and armamentarium.

Activities: A lecture highlighting the principles of access preparation in maxillary and mandibular molars was delivered by Dr Chetna Arora.

Demonstration of Access cavity preparation in Maxillary and Mandibular molars under microscope by Dr Shubhra Malik.

After demonstration each student was provided with maxillary and mandibular molars for the Hands-on Activity.

Overall orchestration and perpetration of the simulation program involving conceptual, analytical and practical exposure to endodontics was elucidated by Dr. Sumita Giri.

OUTCOMES: Each participant performed access opening on molars as well as visualization of pulpal floor anatomy and canal orifices under endodontic microscope which further reiterates enhancement in their clinical skills.
