NON-TEACHING DEVELOPMENT PROGRAM

Teaching: Management of Violent Patients in Casualty
Venue: Department of Psychiatry

Date: 01 July, 2022; 03:00 PM to 04:00 PM

Faculty and number of participants: Dr. Brijesh Saran and all Junior resident doctors
Non-teaching staff members: All nursing Staff posted on duty in Casualty

The Department of psychiatry organized the Non-Teaching development program in the casualty of Santosh Hospital on 01.07.2022. The staff members were educated and demonstrated to learn about the safe technique to deal with violent patient behavior in the casualty setup. They are made aware of the human rights of the psychiatric patient and value them even during the acute psychotic episode. Patient behavior such as aggression and violence need to be controlled adequately which requires 4-5 people to hold all four limbs and a fifth person to hold the hand below the jaw from behind the patient. This physical restrain is important to prevent the risk of harm to self or others in the hospital. This chemical restrains with injectable antipsychotic followed once the patient is stabilized. Then the patient is allowed to remain free for the next half hour till the injectable antipsychotic takes the effect. Sometimes physical restrain continued as 2 points or 3 points for a 20 to 30 minutes period under the direct supervision of hospital staff. Then the patient was evaluated for vitals 1 -2 hourly with needful lab-test samples taken as required. The staff responded with surprise and confidence after having knowledge of the above technique demonstration and following the steps of code white.

REPORT

HOSPITAL CLINICAL LABORATORY VISIT [COMPETENCY BI 2.5]:

The department of Biochemistry organized hospital visit for 1st year MBBS students, batch 2021-22 to the Biochemistry laboratory on 2.06.2022 under the guidance of Dr. Juhi Aggarwal, Prof & Head, Department of Biochemistry, Santosh Medical College & Hospital. The session was divided into the groups of about 50 students each who received an introductory session and tour of the biochemistry clinical laboratory. During the introduction, a wide variety of topics were covered, such as the different pre-analytical considerations prior to testing, the field of Biochemistry as a career, and the different roles of the technical staff required to run laboratory testing for a large multi-site healthcare system. Following this introductory meeting, the students were taught a range of concepts bench-side, including how the automated analyzers work, the tests offered in each section of the lab, and clinical application and interpretation of the tests. Not only did students review the individual functions of the tests in each bench area, but they also learned important considerations within the lab, including the software and informatics behind the automation and result reporting, regulatory and inspection requirements, and the importance of critical values. The two-hour experience exposed the students to the significant role of the lab, and its staff plays in generating results that are essential for the diagnosis and management of patients.

DEPARTMENT OF PEDIATRIC AND PREVENTIVE DENTISTRY

DEMONSTRATION OF SOFTWARE TRAINING FOR NON-TEACHING STAFF

Preface:

Department of Pediatric and Preventive dentistry, Santosh Dental College and Hospital, Santosh Deemed be University (Ghaziabad) organized a training program for non teaching staff on Demonstration of SARAL software on 30/06/22 at First Floor, Department of Pediatric and Preventive Dentistry.

Collaboration:

- The event was organized under Dr. Nidhi Gupta, Prof and HOD, Department of Pediatric and Preventive dentistry.
- The demonstration session was conducted to orient the non-teaching staff of the department regarding the use of SARAL software.
- It was well attended by Mr. Syed Haider Abbas and Mr. Syed Quamar Abbas.

Execution:

- The session was conducted in the department from 10:00 am to 11:00 am.
- The session emphasized on the basic computer and SARAL software training. They were demonstrated on –
 1. How to enter daily OPD
 2. How to enter patient's diagnosis and treatment plan details
 3. How to make analysis report
 4. How to revisit old records
 5. How to check payment details
 6. How to check total revenue generated for the day
 7. Hands on software
- This was followed by hands on session for better orientation of non teaching staff.
- Lot of queries were raised by them and resolved sportingly.
- The main objective of conducting this program was to sensitize the non-teaching staff regarding the use of latest SARAL software running successfully in Santosh Dental College.

DEMONSTRATION OF CONSCIOUS SEDATION MACHINE TO NON-TEACHING STAFF

Preface:

Department of Pediatric and Preventive dentistry, Santosh Dental College and Hospital, Santosh Deemed be University (Ghaziabad) organized a training program for non teaching staff on Installation, functioning and health hazards of Conscious Sedation machine on 30/05/22 at First Floor, Department of Pediatric and Preventive Dentistry.

Collaboration:

- The event was organized under Dr. Nidhi Gupta , Prof and HOD , Department of Pediatric and Preventive dentistry in collaboration with CONSED.
- The demonstration session was conducted to orient the non-teaching staff of the department regarding the installation and safety hazards of the conscious sedation machine.
- It was wellattended by Mr. Syed Haider Abbas and Mr. Syed Quamar Abbas.

Execution:

- The session was conducted in the department from 12:00 pm to 01:00 pm.
- It was conducted by CONSED. The session emphasized on the installation and usage training. They demonstrated on –
 1. How to install the sedation unit.
 2. How to check the pressure change in the machine.
 3. How to change empty cylinders.
 4. How to check for any leakage.
 5. How to monitor oxygen and nitrous levels.
 6. Hands on sedation unit.
- This was followed by demonstration on Dr. Nidhi Gupta on how to set up the sedation

unit as well as role of non teaching staff in helping in the right positioning of the patient and monitoring of unit for better treatment.

- Dr. Natasha Gambhir, Dr. Rashmi Singh, Dr. Neeti Mittal, Dr. Divya Singh and Post Graduate students also took an active participation in the session. Lot of queries were raised by them and resolved sportingly.
- The main objective of conducting this program was to sensitize the non-teaching staff regarding the use of recently installed conscious sedation unit for running successfully in Santosh Dental College.

NATIONAL HEALTH SKILL CONCLAVE 2021

SANTOSH DENTAL COLLEGE & HOSPITAL

DEPARTMENT OF ORTHODONTICS

DATE : 25/11/21

TIME : 1- 2 PM

VENUE : HALL C

A skill program was conducted by Department of Orthodontics under National Health Skill Conclave 2021 on 25/11/21 in Santosh Dental College, Ghaziabad.

Total no. of proposed seats for skill - 15

However, on popular demand, increased to 32

FACULTY PRESENT :

Dr. Rajiv Ahluwalia (Prof & Head)

Dr. Deepa Verma

Dr. Parvinder Kaur

Dr. Mayank Gupta (Course Co-ordinator)

Dr. Tina Chugh

VISITORS :

Dr. Alka Agarwal

Dr. Shalabh Gupta

Dr. Dakshina Bisht

SALIENT FEATURES:

HANDS ON

- Demonstration on making Clear Retainer was given to all the students.
- Each student fabricated their own retainer.

Clear Retainer: They are removable retainer that are molded to perfectly fit the new position of the teeth.

They are invisible and comfortable to the patient

MAKING-

- A mold of the teeth is created
- A very thin plastic (1 mm) is then heated and sucked down the mold.

HIGHLIGHTS:

Each student fabricated their own Clear retainer.

Department Of Biochemistry,

Santosh Medical College & Hospital, Ghaziabad

FACULTY & NON TEACHING STAFF DEVELOPMENT PROGRAM

The department of Biochemistry, SDTU organized a 2 day Faculty & non teaching staff development program at the Central lab biochemistry, Santosh Hospital, Ghaziabad on 6th & 7th July 2022 from 9-4pm. The participants were given the introduction to the concept and hands on training on ROCHE cobas e-411 which is based on principal of chemiluminescence immunoassay. The cobas e411 analyser is an automated, random access multichannel analyzer for immunological analysis. Immunoassays have become increasingly popular tools for measuring biologic analytes, because they offer sensitive, specific results and are relatively easy to use. Following processes were learned by the staff:

1. System hardware components.
2. Sample processing overview.
3. Assay technology and process overview.

PARTICIPANTS:

FACULTY – 1. Dr Juhi Aggarwal

2. Dr Suruchi Mathur

**SANTOSH MEDICAL COLLEGE AND HOSPITAL
DEPARTMENT OF GENERAL MEDICINE**

On 7th June, 2022 Department of General Medicine, Santosh Medical College conducted a departmental CME on "Refractory GERD".

The welcome address and lecture as given by Dr. Ashok Kumar, Professor & Head, Dept. of General Medicine and describe the many varied presentations of gastro intestinal reflux disease he has encountered in his clinical practise over the years. The CME was then directed towards a much updated approach of how to manage GERD at the time of initial presentation and overall approach to a patient with GERD, He then focused on refractory GERD and a complete perspective to step wise management was discussed.

The CME was chaired by Dr Shivani Bansal, Professor, Dept. of Gen. Medicine and Dr Ravi Kumar, Assistant Professor, Department of medicine, Santosh hospital Ghaziabad, NCR. All the postgraduates and interns of the departments actively participated in the CME and benefitted.

The prevalence of GERD and its burden in the society has increased manifolds because of dietary habits and general lifestyle, especially in urban setups.

We as clinicians of today should promptly manage GERD and be aware of the scope of medicine in the management of refractory GERD and this CME has propelled us forward in doing so.

Event Report Non Teaching Development Program

Preface

Santosh Deemed to be University (Ghaziabad) organized a session on '**Management of a Labor patient**' as a part of Non teaching development program in the Department Of Obstetrics And Gynecology, Santosh Deemed to be University on 3.6.2021

Objective of the program was to reinforce the knowledge of management of a labor patient in staff of Obstetrics ward, Labor Room and OT.

Collaboration

None

Execution

Event was executed in the Department of Obstetrics And Gynecology in Santosh Medical College Hospital, Santosh Deemed To Be University, Ghaziabad.

The staff of Obstetrics ward, Labor Room and OT were present physically. The training was given by Dr Supriya Chaubey (Assistant Professor), Dr Neelima Agarwal (Prof & Head), Dr Aplana Agrawal (Professor) and Dr Manisha Gupta (Professor) from the Department of OBGY. The staff were trained about the stages of labor and its management, identification of high risk patients who require caesarean section and handling of baby after delivery.

It was attended by the following OT and Labor room staff

1. Mukesh
2. Paliwal
3. Sion
4. Jincy
5. Bulbul
6. Sijitha

7. Sheeba
8. Sandhya

Awareness Lectures on COVID 19

Preface

Santosh Deemed to be University (Ghaziabad) organized a session on COVID 19 AWARENESS. Dr Manisha Gupta, Professor , Department Of Obstetrics And Gynecology delivered lectures to AK Children Academy(23/4/2021), NGO AAROHAN(30/5/2021) and Springfield school (24/5/2021).

Objective of the program was to reinforce the importance of **VARIOUS DOS AND DONTs** during the COVID era. Various myths regarding COVID vaccination were dispelled and the audience were encouraged to get themselves and their family members vaccinated.

Collaboration

None

Execution

Event was executed on the virtual platform in the Santosh Medical College Hospital, Santosh Deemed To Be University, Ghaziabad. Many participants of different age groups ranging from school children to their family members attended the session. All sessions were highly interactive with all actively participating in the discussion and clearing their doubts.

Tangible Outcomes

To encourage the society to follow COVID protocols to protect themselves and society from COVID 19 and to make people aware of the advantages of COVID vaccination .

Santosh Medical College- Medical Education Unit
Brief Report on "Orientation of SWAYAM"

Department of Medical Education, Santosh Deemed to Be University organized a Program on "Orientation of SWAYAM" for faculty of Santosh Medical College and Santosh Dental College on February 22nd 2021 in Conference Hall, Santosh Medical College. Dr Yogesh Yadav, Professor Anatomy also SWAYAM Coordinator, gave detail information about how to start an online courses on Swayam portal (Study Web of Active-Learning for Young Aspiring Minds) run by Human Resource Development Ministry, Govt. of India.

The orientation was attended by 15 faculty members who were oriented through the platform of "SWAYAM" that facilitates hosting of all the courses that can be accessed by anyone, anywhere at any time. All the courses are interactive and ensure best quality content which is produced and delivered. All the faculty took great interest in initiating and planning of courses on SWAYAM. It was highlighted that there are no available courses in the medical stream on portal yet and hence opportunity should be taken to utilize and promote our value added courses to the world.

Participants shared their queries about the procedures required to start such courses which were well answered by MEU Faculty and it was planned to work towards its implementation.

Orientation on “An insight into criteria III NAAC”

(20-02-2021)

Event Report

1. An Orientation program was conducted by Department of Central Research Under Faculty Development Program on 20th Feb 2020, 12 hrs to 1:15 PM at Maharaja Hall, Santosh Deemed to be University.
2. The topic of the program was “ An insight into Criteria 3 NAAC”
3. The meeting was address by Dean Research Dr. Jyoti Batra
4. A total of 34 faculty members participated in the program.
5. An overview of criteria 3 was given and suggestion was invited at the level of each faculty member as well as each department, to improve the same.
6. One of the most important and urgent quality mark that is perceived gaps was shared with faculty members regarding the publication ratio of “at least one publication per one faculty per year in journals indexed in Scopus/Web of Science/Pubmed-data bases”
7. The faculty members who were present:

Central Research Faculty

1. Dr. Saurabh Gupta,
2. Mr. Ankit Singh,
3. Dr. Sivanesan,
4. Dr. Neeti Mittal
5. Mr. Manveen Singh Chadha

Santosh Medical College & Hospital

1. Dr. Rani Srivastava,
2. Dr. Gajendra Kumar Gupta,
3. Dr. Pradeep Kumar,
4. Dr. Shalabh Gupta,
5. Dr. Neelima Agarwal,
6. Dr. Manisha Gupta,
7. Dr. Ashok Kumar,
8. Dr. Shivani Bansal,
9. Dr. Navinkumar Varma,
10. Dr. Navpreet Mann,
11. Dr. Namita,
12. Dr. Nisha Kaul,
13. Dr. Rinku Garg,
14. Mr. Ashish Gaur,
15. Dr. Yogesh Yadav,
16. Dr. Jyotsna Sharma,
17. Dr. Prem K. Garg ,
18. Dr. Malay Bajpai,
19. Dr. Preeti Sharma,
20. Dr. K. C. Aggarwal,
21. Dr. Alka Agrawal,
22. Dr. Deepika Aggarwal.

Santosh Dental College & Hospital

1. Dr. Akshay Bhargva
2. Dr. Rajiv Ahluwalia
3. Dr. Priyanka Bhushan
4. Dr. Rashi Singh

IQAC

1. Dr. Dakshina Bisht
 2. Mrs. Pragnya Mohanty
 3. Dr. Rajan
8. Criteria 3 Print Outs from the NAAC site were distributed to faculty members.
9. The house was open for discussion Dr. Ashok Kumar, Prof & HOD requested for higher Band Width for hospital Wi-Fi to use Scopus database and one secretarial staff with system facility to improve the efficiency of the research work.
10. **Outcome:**
- The strategic plan regarding the publication requirement for faculty promotion only in journal indexed in Scopus/Web of Science/Pubmed/UGC-Care list.
 - All post-graduates and ph.d. Candidates shall also prepare the manuscripts for publication out of dissertation only to scopus/web of science/pubmed/UGC-care list.
 - All professors in various department of Santosh Deemed to be university shall publish at least one article per year only in the indexed journals included in Scopus/Seb of Science/pubmed/UGC-care list.
 - All conference-Abstracts Books, Seminar Volumes, Workshops Books shall be titled as proceedings of conferences/workshops/seminar and reshape and printed as ISSN/ISBN publications.
 - All review series by the various departments shall be titled as updates in that particular subject.

- A fast track strategy has to evolve at the level of Departmental research committee by the respective head of the departments.

Student Research Cell

Event Report-

08.04.2021

TITLE-What, Why and How of Student Research

Preface:

Research is a process of systemic inquiry that involves collecting data, documentation of critical information and analysis & interpretation of that data and arriving at a meaningful conclusion. Student Research is the involvement of the students in research activities.

This orientation program was planned to sensitize the students towards research and motivate them to take up Research projects.

Collaboration:

Student Research Cell involved various faculty of Santosh Medical College, Santosh Dental College and Central Research Unit.

Execution:

Online activity was executed online on the Zoom platform with the Projection of the event in Maharaja Hall. The activity was attended by 300 participants online and 80 participants offline.

Dr Alka Agarwal, DEAN Santosh Medical College, welcomed all the participants and highlighted the importance of Research in Medical Sciences and how the involvement of students is essential and beneficial. She also sensitized the students towards the formation of the new wing of the Research unit specifically designed to promote Student Research. She also introduced the various members of the Student Research Cell who carried the program forward.

Dr Mayurika Tyagi, Associate Professor, Pathology, moderated the event and introduced the speakers.

Dr K C Aggarwal, Professor and Head, Department of Pediatrics, motivated the students regarding what research they can do and how to form a research question by giving various examples

Dr Namita Kumari, Assistant Professor, Physiology, highlighted the benefits of being in the Research field and why should students be research-oriented.

Dr Anupama Singh, Assistant Professor, PSM, gave a brief overview of How to do Research and various steps involved in research.

Dr Shubhra Mallik, Associate Professor, Conservative Dentistry and Endodontics, focussed on the importance of Research in Dental Sciences and how dental students should also be research-oriented.

Dr Saurabh Gupta, Research Associate, Central Research Unit, discussed the Role of biotechnology in Medical Sciences.

Furthermore, to conclude the series of talks, Dr Sivanesan, Vice-Dean Research, Senior Research Associate, Central Research Unit, described the Research Journey and how his research journey took shape. He also guided the students on how they should also begin their journey early in student life.

Dr Mayurika Delivered the Vote of thanks and concluded the event.

Tangible Outcomes

To involve and motivate students in Research Activities.

Thirty students came forward and met with the members of the Student Research Cell and showed interest.

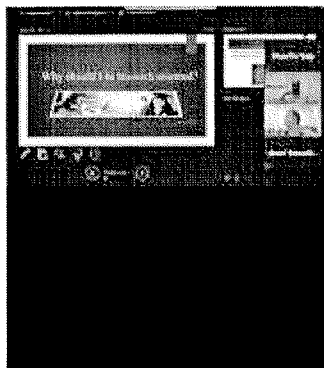

Respected Madam/Sir,

The event report is for your kind information, review, records, and further use in pressreleases/promotions/other purposes appropriately.

Regards,

Dr Alka Agarwal
DEAN

Sub: Medicine department Blog on "Value Added Certificate Course on "ECG PERFORMING SKILLS AND INTERPRETATION"

On 9th JANUARY 2021 Department of Medicine, Santosh Medical College started a 4 weeks value added course on "**ECG PERFORMING SKILLS AND INTERPRETATION**". The programme was Inaugurated by Dr. Alpana Aggarwal, Medical superintendent in the presence of Dr. Ashok Kumar , HOD , Professor , Medicine Department , Dr. Shivani Bansal, Professor, Medicine and Dr. Manish goyal , Assistant Professor , Medicine. The performing of ECG taking is bit easy task requires the basic technical knowledge of computer and placements of ECG leads but the interpretation of ECG requires intellect, commitment, effort and perhaps most importantly — an organized approach.

Dr. Alpana Aggarwal gave the opening remarks regarding the importance of ECG and an ECG is one of the most important diagnostic tests and is currently used as a gold standard for the diagnosis of a number of cardiac diseases. As it can be a challenging concept to learn, often bringing frustration to the trainees in ECG interpretation but is an important skill to learn as it can save many lives by learning the right approach. Dr. Ashok Kumar, HOD Medicine shared his knowledge and raised the awareness about the basics of ECG, its technique and performing skills . Dr. Ashok kumar suggested a novel approach with the dual benefit of aiding teaching and improving learning and confidence when interpreting an ECG. The session was informative and interesting with practical demonstrations of performing an ECG with the right technique.

The electrocardiogram (ECG) is the primary tool in the diagnosis of acute myocardial infarction. The correct interpretation of ECG may lead to a correct diagnosis, saving the patients from unnecessary tests and potentially harmful therapeutic procedures.

Inter-Departmental Meet conducted on 17th February, 2021

CASE SUMMARY AND DISCUSSION:

There was a clinical case presentation of a case that had presented to the emergency namely Master Deepanshu, 14 year old, male at Santosh Hospital with unusual presentation of history of fever and severe headache since more than a week along with altered behaviour and irrelevant talking since one day which was admitted to the department of Paediatrics with provisional diagnosis of ?Herpes Encephalitis kept and appropriate investigations were called for, that all came negative but the complaints persisted hence patient was referred to Department of Psychiatry for reference and after careful evaluation preliminary diagnosis of ? Dissociative Disorder / ? Post- Traumatic Stress Disorder. More careful and detailed clinical psychological evaluation revealed details of traumatic events in the past 2 months along with evidence of forceful alcohol ingestion and signs of physical/sexual abuse were noted.

After meticulous discussion regarding the case all the three departments came to the final conclusive diagnosis of Acute Stress Disorder.

All components and course of the illness in the patient were discussed in great detail and probable differentials.

The case was presented by Dr Anushree Dixit, PG-2, Department of Paediatrics and Dr Jeeten Solanki, PG-2, Department of Psychiatry followed by discussion regarding the case and various aspects of diagnosis and management.

There was active participation by the respected faculty and post graduates.

Scope of Research Presentation Meeting-2

Meeting Held on the April 10th 2021

Swept source OCT

- To overcome scattering by the RPE, a longer wavelength was adopted for this machine (1050 nm vs 840 nm in SD-OCT)
- Photodetector, instead of CCD cameras led to a further increase in resolution (1 μ m)
- The scan speed in swept-source instruments is twice that of SD-OCT devices
- Widefield B-scans (12 mm vs 6-8 mm with conventional SD-OCT)
- More accurate 3-D imaging
- High-quality visualization

GHAZIABAD, NCR DELHI

DAY 1: 15.6.2021

Awareness and counseling sessions regarding cervical cancer screening were taken for patients, Non-teaching female staff members and interns. They are told the importance of cervical screening, methods available and HPV vaccine. Patients were also given the benefit of free screening.

DAY 2: 16.6.2021

As a part of Cervical screening awareness week-2021, the department of OBGY held a Guest lecture on HPV VACCINE-ALL ABOUT IT on 16.6.2021.

The speaker Dr Anjana Sabarwal gave a very elaborated presentation on the topic.

The session was attended by more than 115 participants and was highly interactive, leaving no doubts about the topic among the audience.

DAY 3: 17.6.2021

As a part of Cervical screening awareness week-2021, the department of OBGY held a Guest lecture on Cervical cancer screening-guidelines and methodology on 17.6.2021.

The speaker Dr Madhu Gupta is a leading Obstetrician & Gynecologist and also the chief trustee of an NGO 'Beautiful tomorrow'.

The topic was covered very elaborately with latest guidelines and screening methodology of cancer cervix, which is a leading cause of female mortality in India, yet it is preventable, if diagnosed early by simple screening tests. The session was attended by more than 100 participants.

DAY 4: 18.6.2021

In continuation of Cervical screening awareness week-2021, the department of OBGY conducted training of interns for cervical screening methods.

The emphasis of screening to prevent cancer cervix was laid upon. Also, hands on training for screening methods (VIA, VILI ,PAP smear and HPV-DNA testing) was given to them by faculty and postgraduate students of the department.

REGISTER

TO BE UNIVERSITY

The department of OBGY conducted extension activity on 19.6.2021, along with the department of PSM at CHC Dasna to counsel female patients regarding importance of cervical screening, and motivated them to visit OPD at OBGY department for screening procedures.

Thanks to Dr Deepika, HOD PSM for all support.

DAY 6: 20.6.2021 -SUNDAY

A circular official stamp from Santosh Deemed to be University, Ghaziabad. The outer ring contains the text "SANTOSH DEEMED TO BE UNIVERSITY" at the top and "GHAZIABAD, U.P." at the bottom, separated by two small stars. In the center of the stamp, the word "REGISTRAR" is printed in bold capital letters. Overlaid on the stamp are two handwritten signatures in black ink. The first signature is on the left side, and the second signature is on the right side, with the date "27/5" written below it.

DAY 7: 21.6.2021 –

As a part of Cervical screening awareness week-2021, the department of OBGY continued training of interns for cervical screening and treatment methods on 21.6.2021.

The basic knowledge and functioning of colposcopy as the gold standard in cervical cancer screening was given to the interns and postgraduate students by faculty of the department.

Also, the importance and working of cryotherapy as a treatment modality in early cases of carcinoma cervix was demonstrated.

INTERDEPARTMENTAL MEET

Collaboration with WHO (UP)

**DEPARTMENT OF PAEDIATRICS-DEPARTMENT OF
OCCUPATIONAL THERAPY-WORLD HEALTH ORGANISATION
SANTOSH DEEMED TO BE UNIVERSITY
GHAZIABAD, U.P.**

DATE: 25/03/2021, Thursday, 1:30-3:00 PM

VENUE: Pulmonary Chest TB Department Seminar Hall, 1st Floor, Santosh Medical Hospital

SPEAKERS:

Dr Abhishek S. Kulshreshta (Surveillance Medical Officer), Dr Vidisha Singh PG-2, Department of Paediatrics, moderated by Dr. K.C. Aggarwal, Prof and HOD, Department of Paediatrics

TOPIC : "ACUTE FLACCID PARALYSIS AND SURVEILLANCE"

EVENT DETAILS: Inter-Departmental Meet was conducted by the Department Of Paediatrics and Department of Occupational Therapy on Thursday, 25th March 2021, 1:30-3:00 PM in Pulmonary Chest TB Department Seminar Hall, 1st Floor, Santosh Medical Hospital, Ghaziabad (UP).

The event was moderated by the head of the department, Dr K.C. Aggarwal, Prof and HOD, Department of Paediatrics, Dr Sanjay Kumar Goswami, Assistant Professor Faculty of Occupational Therapy, Santosh Medical Hospital, Ghaziabad and Dr Abhishek S. Kulshreshta, Surveillance Medical Officer, National Public Health Surveillance project, World Health Organization, Ghaziabad (UP). The meeting was attended by all the

Faculty of the respected Departments, Post graduates and interns with total members being nearly about 25.

Inter-Departmental Meet conducted on 25th March, 2021

SUMMARY AND DISCUSSION:

There was a presentation on Acute Flaccid Paralysis where non polio causes and presentations were discussed. This was followed by presentation on Acute Flaccid Paralysis Surveillance presented by Dr. Abhishek S. Kulshreshta. The course of Polio eradication programme was discussed over the time period. Dr. Abhishek spoke about the importance of surveillance despite of no polio cases reported since 2011. The areas in Gha-ziabad which were under the surveillance were covered. The meeting was highly interactive, informative and educative. The meeting was appreciated highly by the attendee.

The Acute Flaccid Paralysis Surveillance presentation was given by Dr Abhishek S. Kulshreshta. The presentation on Acute Flaccid Paralysis was given by Dr. Vidisha Singh PG-2, Department of Paediatrics followed by discussion regarding the topic and various aspects of differential diagnosis and management. It ended with vote of thanks and high tea (courtesy WHO).

There was active participation by the respected faculty and post graduates. The WHO representative Dr Abhishek S. Kulshreshta promised to support such activities in future as well.

Santosh Medical College- Medical Education Unit

Brief Report on Research Grant Writing- ICMR Workshop in Medical Education Technology

The Medical Education Unit of Santosh Medical College organised a workshop on Research Grant Writing- ICMR in **Medical Education Technology** on **14th November 2019**.

Faculty from Medical & Dental college of Santosh Deemed to be University were invited to participate in the workshop and 40 Faculty members registered and attended the workshop. Grant writing is a job requirement for research scientists who need to fund projects year after year. Most proposals end in rejection, but missteps give researchers a chance to learn how to find other opportunities, write better proposals and navigate the system. Taking time to learn from the setbacks and successes of others can help to increase the chances of securing funds, says Ball, who runs workshops alongside her role as a behavioural scientist.

Report on Spill Management (Biomedical Waste Management)

Date: 16.09.2019

Number of participants: 8

The basic principles of blood and body fluid/substance spills management were conducted and proper protocols taught and emphasised in the training program which included various training sessions in Cleaning Spills procedures, equipments used. Emphasis was laid on cleaning of different type of small and large spills. Spillage by cleaning with Sodium hypochlorite which is an important aspect in disinfection in hospital .

The workshop was fruitful and interactive and resource material was shared with the faculty members and it was suggested that frequent such workshops should be conducted for staff to ensure that protocols are being followed.

Report on Training of Trainers (TOT)

Date: 25.04.2019 to 30.06.2020

Covid 19 created an Emergency situation with unprecedented lockdown. Santosh Hospital was chosen as L3 facility by the Govt of Uttar Pradesh.

Key to the success was training all health care workers of the safety protocols to execute their duties without becoming carriers. Multiple sessions were taken by internal and external experts on how to do donning and doffing, wearing of PPE gloves, head cap, measure temperature and SPO2 monitoring etc. All the Teaching, non teaching, nursing and ward boys, aayas and housekeeping all were repeatedly trained for the same. Hand hygiene practices were demonstrated to all the stakeholders in the hospital and the University in both large and small groups throughout the pandemic and practiced social distancing and personal protection by masking and keeping safe.

More than 2423 people were trained during the pandemic

Name of the Program: Citation Data Base of Using Scopus

Scopus is considered by many to be the primary competitor to the Web of Science database for citation analysis and journal ranking statistics. The Scopus web site claims this database is the largest abstract and citation database of peer-reviewed literature and quality web sources with smart tools to track, analyze and visualize research. The concepts taught about citation searching and analysis in this tutorial are applicable to all citation databases. The highlight of the program was:

- find more papers on a topic
- trace how an idea has been confirmed, applied, extended or corrected in later publications
- see which other researchers are citing your work or the work of your labmates

The program was successfully held by the University on Citation Data Base of Using Scopus with the presence of 44 participants.

Hospital Infection Control

The Department of Microbiology conducted hands on training programmes on Hospital Infection Control for various Teaching and Non- Teaching staff members of the Santosh Medical College & Hospital. The main aim of the program was to make all Health Care workers aware of infection control practices .This would help achieve a successful and functioning Infection Control Program in the hospital. Faculty members from the Microbiology department in collaboration with other clinical departments like Surgery ,trained the participants and educated them on policies of Hospital Infection Control . The training program was vigorous and included demonstrations ,pre and post questionnaire sessions and interaction with each participant . The topics under which the Hospital Infection Control Training was taken are:

1. Standard Precautions
2. Hand Hygiene
3. Donning and doffing of PPE
4. Environmental cleaning policies
5. Hospital disinfection policies
6. Needle stick injuries

The details of these events throughout the year are as under.

Santosh Medical College- Medical Education Unit

Brief Report on Training & Learning through ICT Workshop in Medical Education Technology

The Medical Education Unit of Santosh Medical College organised a workshop on Training & Learning through ICT in Medical Education Technology on 17TH MAY 2018.

Faculty from Medical & Dental college of Santosh Deemed to be University were invited to participate in the workshop and 68 Faculty members registered and attended the workshop. Information and communication technology (ICT) has become an integral part of learning and all need to use ICT in facilitating information dissemination and communication in all areas of education and training. There are now educational and training that need to be done to impart skills in the basic and advanced concepts of ICT. It is enabling online designing of courses, online The faculty were oriented to the delivery of courses, computer-aided teaching, online assessment, besides management and networking of a large number of educational practices. ICT based systems, E-Governance software, CD based courses, online courses, digital libraries, discussion forums, digital portfolios, teleconference, etc. has made e-learning a reality today which were some areas which were discussed. Through this workshop the faculty were enlightened with ICT-based applications in the field of learning which is necessary for education and training.

Feedback was taken from the Participants and the participants were very enthusiast and found workshop very useful and innovative. Most of them decided to incorporate these tools in their teaching.

Annual Activity Report 2017-2018

Culture Techniques

The Department of Microbiology conducted training programmes on Culture Techniques Lab technician of Central Lab of Santosh Medical College & Hospital. The aim of the program was to learn the different methods of solid and liquid culture to contain any spread of microbes during handling of sample. Emphasis was laid on how to prevent contamination of persons and surfaces. Training also included the correct method of disposal of cultures.

The details of these events throughout the year are as under.
