Teacher's Day- 05.09.2018

On the teacher's day, an activity was planned for all the teachers and was honored.

Teaching is the most respected profession across the world. India has a long-standing tradition of Guru - Shishya relationship when the guru is considered more than even one's parents. They inspire, guide, mentor, encourage, seems a role model, and are akin to parents outside home. We as students should thank our teachers every day because I feel, celebrating 1 day is not doing justice to what teachers do for us selflessly. They take pride in their accomplishments and always encourage their students to be better versions of themselves. On this day and every day, we thank all our teachers for empowering us and hence empowering the society as a whole.
