EXTENSION ACTIVITY

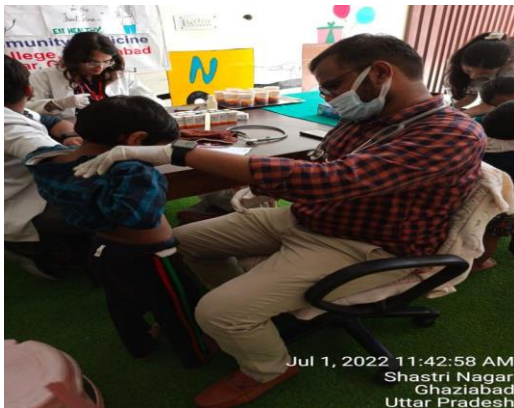

SANTOSH HOSPITAL MEDICAL CAMP IN AN ORPHANAGE

On July 1st 2022 celebrating as doctors' day, we Santosh hospital doctors and staff conducted a medical camp in GHARONDA SPECIALISED ADOPTION AGENCY, Ghaziabad. We provided health checkup to all the children, and taught the child care staff and children about the safety and preventive measures from infectious diseases, we provided free medicines to the children as required.

There are around 25 children in that agency and we felt incredibly happy by interacting with the children. we assured that the agency will get as much help as possible from the Santosh hospital in the coming days.

Field visit to Sewage Treatment Plant, Indirapuram

Field visit to Sewage Treatment Plant, Indirapuram Ghaziabad by Post graduate students and interns of Community Medicine Department on 20.10.20

The Department of Community Medicine, Santosh Medical College, organised a field visit to Sewage treatment plant Indirapuram Ghaziabad, for postgraduate trainee's & interns on 20/10/2020 to gain knowledge about the various processes, components and procedures involved in treating the sewage.

Total Participants= Six

The students arrived at the facility around 10:30 am and were received by Mr. Anuj Verma, who was assigned to them by the authorities for demonstration purpose. After taking the mandatory precautions like head gear (helmet's) and observing the general COVID19 social advisory, our tour of the sewage plant was started.

Mr Anuj first showed the students the diagrammatic representation of the entire plant with all its components and explained to them, the procedures involved at every level as the sewage moved into different compartments, before actually taking them to the individual compartments.

The Sewage plant begins with the main sewage inlet which is received into a compartment containing the "Coarse Screen" with a 40 mm size screen or filter, allowing only particles smaller than 40 mm to pass through .The next compartment is the main pumping station which harbours motors which pump the contents up the higher compartments at fixed flow rate ,there is an electronic meter which shows the rate of flow continuously. Sewage is now received in a stilling chamber which has a "Fine Screen" of 6 mm size which further reduces the particle size which is carried across the membrane. From here the sewage moves into the so called "GRIT chambers" which further sediments the sewage components. Sewage from the grit chambers passes to the distribution chamber via the PARSHALL FLUME. Distribution chambers feed the SBR tanks where the sewage is treated with oxygen as per the COD & BOD (chemical and biological oxygen demand). The outlet of the SBR Tanks is treated with chlorine in the post SBR compartment as needed and the outlet water is now treated and ready for disposal in the Hindon river and can be used for agricultural purpose.

Prior to being fed in the SBR tanks, at three different levels 1) coarse screen 2) fine screen and 3) after the grid chambers sludge is collected. Sludge collected from the SBR tanks is then thickened in another chamber before being centrifugated and finally collected for dumping.

Outlet water was tested daily for the following parameters

- 1) Ph
- 2) D.O mg/l
- 3) TEMPERATURE Degree C

- 4) C.O.D mg/l less than or equal to 100
- 5) B.O.D mg/l less than or equal to 10
- 6) TSS mg/l less than or equal to 10

The students were shown the contents of the inlet and outlet in a chemical beaker to visually appreciate the contrast. the chemical laboratory daily conducts the testing of both the raw sewage as well as the treated sewage for various parameters as per government regulations.

The tour concluded with a visit to the laboratory.

A field visit to Health & Wellness Center on 2/12/2020

Venue- Health and Wellness Center, Abupur, Murad Nagar

Date & Time: 2 December 2020, 9:30 Am

Department of Community medicine Santosh medical college organized a field visit to Health & Wellness Center. The team comprised of Assistant Professors, Post Graduate students, Interns and 3rd year students (Batch 2017-18)

We reached the Health and Wellness Center located in Abupur, Muradnagar. In the center, students were shown OPD run by the Community Health Officer (CHO)- Mrs. Anamika. She described the services provided there which were screening of Diabetes Mellitus, Hypertension, drug distribution & referral services.

After that, the students went to the immunization room in which Mrs. Sushma (ANM) briefly described the cold chain equipment present there. She also briefed us about the routine immunization provided to the mother and children through that center. She also showed us how the records of married couples, pregnant women and immunization of children under 5 year, were being maintained in her RCH record books as well as in National Health Portal of India.

Participants: - 11

Faculty and others- Dr. A Revanth Kumar, Dr. Amritesh Kumar, Mr. Rajesh Kumar (MSW)

Students- Dr. Abhishek (PG 1st Year), 2 interns and Students 3rd Year (Batch 2017-18)

A field visit to Community Health Center on 2/12/2020

Venue- CHC MuradNagar

Date & Time- 2 December 2020, 9:30 Am

Department of Community medicine Santosh medical college organized a field visit to CHC. The team comprised of Assistant professors, Post Graduate student and 3rd year students (Batch 2017-18).

The team reached CHC after taking permission from the medical superintendent Dr. JP Mathuria. The purpose of this visit was to teach the functioning of CHC to the post graduate students, interns and undergraduate students.

In CHC, the students observed the functioning of different sections like- Registration counter, OPD & IPD of different departments, investigating lab, and emergency services provided by the health center. Student also got the chance to see the process of Rapid antigen testing of COVID-19 which was done by the health facilitator.

Participants: -11

Faculty and others- Dr. A Revanth Kumar, Dr. Amritesh Kumar, Mr. Rajesh Kumar (MSW)

Students- Dr. Abhishek (PG 1st Year), interns (2) and students of 3rd Year (Batch 2017-18)

A FIELD VISIT TO DOTS CENTER MURAD NAGAR, GAZIABADUTTAR PRADESH

DEPARTMENT OF COMMUNITY MEDICINE, SANTOSH MEDICAL COLLEGE
ORGANIZED A FIELD VISIT TO DOTS CENTER AT MURAD NAGAR

VENUE: DOTS Center, MURAD NAGAR GHAZIABAD

DATE & TIME: 4TH /12/2020 (FRIDAY) 09:30 AM

PURPOSE & ACTIVITY: TO ILLUSTRATE FUNCTION OF **DOTS** CENTER AND
RECENT UPDATES

TEAM MEMBERS: Comprise of Assistant professor(s), Post Graduate student, Interns,
students of 2017-18 batch, MSW and Driver.

Prior informed consent was sought through proper channel from Dr. G P Mathuria, MS as well as Mr. Harish Kumar DOTS center In charge. A briefing session (small group discussion) was already taken in department. Onsite students were explained about NATIONAL TUBERCULOSIS ELEMINATION PROGRAME (NTEP), under which morphology of Mycobacterium organism, gram staining and CBNET were explained. Broadly there are two types of tuberculosis pulmonary and extra pulmonary and introduction of FIXED DOSE COMBINATION (FDC) etc were discussed. Colure coded boxes for adult and pediatrics, MDR and XRD, RED, ORANGE AND GREEN BOXES were shown.

At last real time tracking NIKSHEY APP and its function was demonstrated.

PARTICIPANTS: 12

VISIT TO THE WATER TREATMENT PLANT ON 5TH OF DECEMBER 2020

The Department of Community Medicine, Santosh Medical College, Ghaziabad, organised a field visit to the Water Treatment Plant located in Siddharth Vihar area of Ghaziabad, for enhancing the training of interns and post graduate students in the field of community medicine. These field visits orient them towards the public health aspects of drinking water. Here is a short report of the same:

The team reached the plant at the prior fixed time. After visiting the different chambers, we finally arrived at the laboratory section of the plant where we were informed about the different tests which are performed to ensure the safety and quality of the water as per the standards set by the local & international agencies (W.H.O).

Apart from the physical processes involved, water is mainly treated with chlorine, to kill the microbes in the water. Chlorination is used to prevent the spread of waterborne diseases.

The second main goal is to treat the water for turbidity (haziness) by adding chemicals like Poly ammonium chloride. WHO recommends a less than five NTU (nephelometric turbidity units) value of drinking water, and we were informed that the water at the facility had an NTU value of approximately <1. Water is also tested for pH, TDS, Etc. With this our visit concluded.

Total participants: 10

Faculty and others: Dr Revanth Kumar (Asst Professor), 2 Medical social workers

Students: Dr Mumtaz khan (PG), Dr Abhishek (PG), 6 undergraduate students and 2 interns

Awareness Session on World Cancer Day

Preface:

Santosh Deemed to be University (Ghaziabad) organized an Awareness Session on Cancer on World Cancer Day on 04-02-2021. Theme – I am and I will.

Objective of the awareness session was to impart basic knowledge about various common cancers to general public, so that they could recognize the early signs and symptoms of the common cancers.

Collaboration:

- The event was organized under National Programme for Prevention and Control of Cancer, Diabetes, Cardiovascular Diseases and Stroke (NPCDCS) in collaboration with CHC Dasna..
- The event was organised by the Department of Community Medicine, Santosh Medical College, Ghaziabad.
- The event has been promoted through the official social network of the University as well as on some of the Social Groups of professionals in the individual capacity of the organizing members.

Execution:

- Event was executed at Community Health Centre (CHC), Dasna. The participation was received in physical mode on the location.
- The Interns and postgraduate students of the Department of Community Medicine, Santosh Medical College, Ghaziabad prepared Monologues on Common Cancers of oral cavity, lungs and gastrointestinal cancer. The most common cancers of women like that of breasts and cervix were also covered.
- The pathophysiology, risk factors, common symptoms of these cancers were explained to the patients and staff of the CHC. The importance of early recognition and prompt treatment in deciding the prognosis of these diseases were laid emphasis on.
- More than 30 patients present at the CHC that day and 20 of their staff members were present at the awareness session.
- Feedback of the event was collected towards the end of the event and the most appreciated part of the event was the interactive session after the awareness session where the patients frankly discussed their doubts regarding these chronic diseases.
- Vote of thanks was delivered to the participants and organizers by the Medical Officer of the CHC, Dr. Bharat Bhushan who extended gratitude to the 'Department of Community Medicine, Santosh Deemed to be University' and special thanks to Dr. Deepika Agrawal, Dr. Gajendra Kumar Gupta, Dr. Anupama Singh.

Respected Madam/Sir,

The event report is for your kind information, review, records, and further use in press-releases/promotions/other purposes appropriately.

REPORT

Preface:

Santosh Deemed to be University (Ghaziabad) organized an Awareness Session on National Deworming Day (10-02-2022) on 17-02-2022.

Objective of the awareness session was to impart knowledge and create awareness about the importance of deworming, mainly for children from 1 to 19 years of age.

Collaboration:

-) The event was organized by the Department of Community Medicine, Santosh Medical College, in collaboration with CHC Dasna, Ghaziabad.
-) The event was promoted through the official social network of the University as well as on some of the Social Groups of professionals in the individual capacity of the organizing members.

Execution:

-) Event was executed at Community Health Centre, Dasna, Ghaziabad. The participation was received in physical mode on the location.
-) The Interns posted in the Department of Community Medicine, Santosh Medical College, Ghaziabad prepared a Nukkad Natak explaining the signs and symptoms of worm infestation in children, how to recognise the need to see a physician based on symptoms like anaemia, loss of appetite, irregular bowel habits.

- J The audience was informed about the prophylactic dose of Albendazole given to students every 6 months by the Government of India in all public schools.
- J More than 50 patients were present at the hospital that day and many of their staff members also attended the event.
- J Feedback of the event was collected towards the end of the event.
- J Total beneficiaries – 60
- J Total interns – 9 females, 2 males = 11
- J PGs – Dr. Neha Jetli, Dr. Abhishek
- J Faculty - Dr. Deepika Agrawal, Dr. Anupama Singh, Dr. Kritika.

REPORT

Cervical cancer is the second most common cancer in women in India. Every 7 minute, one woman dies of cervical cancer in India. Cervical cancer is 99.8% preventable by regular screening and HPV vaccination.

On 5.3.2021, Department of OBGY observed Cancer screening awareness day towards the celebration of International women's week. All females were made aware of high risk factors and warning symptoms of cervical cancer. Also the importance of regular screening by Pap smear, to be done every 3 years from the age of 25 years was emphasized.

Awareness Session on World Health Day

Preface:

Santosh Deemed to be University (Ghaziabad) organized an Awareness Session on World Health Day on 07-04-2021. Theme – BUILDING A FAIRER, HEALTHIER WORLD.

Objective of the awareness session is to impart basic knowledge about Mental illness and how the taboo regarding mental health is causing more harm and stigma for the patients in the society.

Collaboration:

- The event was organized in collaboration with Community Health Center, Muradnagar on the World Health Day 2021
- The event was organised by the Department of Community Medicine, Santosh Medical College, Ghaziabad.
- The event was promoted through the official social network of the University as well as on some of the Social Groups of professionals in the individual capacity of the organizing members.

Execution:

- Event was executed at Community Health Center, Muradnagar. The participation was received in physical mode on the location.
- The Interns posted in the Department of Community Medicine, Santosh Medical College, Ghaziabad prepared a Nukkad Natak on a teenager suffering from psychological distress on a daily basis.
- The common symptoms to recognise mental illness among patients were portrayed in an easy to understand manner. The social stigmatisation of patients and their family members were also laid emphasis on.
- Following superstitious practices and going to quacks were also discouraged instead of seeking proper treatment.
- More than 50 patients were present at the CHC that day and many of their staff members were present at the awareness session.
- Feedback of the event was collected towards the end of the event and the most appreciated part of the event was the interactive session after the nukkad natak where the patients frankly discussed their doubts regarding these issues.

REPORT

Preface:

Department of Obs & Gynae(Santosh Deemed to be University (Ghaziabad) plans to organize a Week-long Celebration “Women’s Week” on the occasion of International Women’s day from 1/3/2021-8/3/2021.It is planned to hold an interdepartmental CME with Depts. of Paediatrics and Medicine on 2/3/2021.

Objective of the event is to spread awareness regarding various health issues in pregnant women.

Collaboration:

In continuation of International women's week celebration, Department of OBGY observed *Diabetes Day* on 2.3.2021.

In pre-lunch session, patients were counselled with special emphasis on knowledge, screening and complications of Diabetes during pregnancy.

Post lunch, an *Interdepartmental CME* was held on *Diabetes in Pregnancy*, by the Department of OBGY along with Department of Medicine and Paediatrics. The session was graced by MS, Dr Alpana Agrawal, and moderated by Dr Manisha Gupta, Professor OBGY.

The topic was brilliantly covered by speakers Dr Devika, Dr Shivani and Dr Naveen.

The chairpersons Dr Neelima Agarwal, Dr Ashok and Dr KC Agarwal (respective HODs) had a very interactive session with Postgraduate students and faculty.

Total gathering was more than 40 in number.

Execution:

-) The event was held in the Santosh Medical College & Hospital.
-) 3 renowned speakers from our institution delivered the talks on the topics of Obstetrics, Medicine, and Paediatrics in Diabetes in Pregnancy.
-) Around 40 participants were present including postgraduates and Faculty.
-) Vote of thanks was delivered to the participants by Dr Manisha Gupta who extended gratitude to the Speakers and the participants who spared their valuable time to attend the CME.

Respected Madam/Sir,

The event report is for your kind information, review, records, and further use in press-releases/promotions/other purposes appropriately.

REPORT

Preface:

Every year countries around the world celebrate World Blood Donor Day (WBDD). The event serves to raise awareness of the need for safe blood and blood products and to thank voluntary, unpaid blood donors for their life-saving gifts of blood.

A blood service that gives patients access to safe blood and blood products in sufficient quantity is a key component of an effective health system. The global theme of World Blood Donor Day changes each year in recognition of the selfless individuals who donate their blood for people unknown to them.

Collaboration:

Department of Pathology along with department of Microbiology and Biochemistry organized E-Poster competition and a Guest talk on the occasion of "WORLD BLOOD DONOR DAY" on 14th June 2021 at Santosh Hospital, Ghaziabad.

Execution:

Department of Pathology along with department of Microbiology and Biochemistry organized E-Poster competition on 14th June 2021 at Santosh Hospital, Ghaziabad. The participants were 2nd year MBBS students of Santosh Medical College. It was attended by the esteemed faculty and postgraduate students of all the three Departments respectively. The judges of the event were Dr Prem Kumar Garg, Professor Department of Pathology, Dr Juhi Aggarwal, Professor and Head, Department of Biochemistry and Dr Rinku Garg, Professor and Head Department of Physiology. The second highlight of the day was a Guest talk by Dr Geeta Negi, Professor and Head, Department of Transfusion Medicine, AIIMS, Rishikesh. The event was honoured by our vice chancellor Dr Tripta Bhagat as Chief Guest. The guest of honors

was Dr Alka Aggarwal, Dean, Santosh Medical College, Dr Shalabh Gupta, Dean Academics, Santosh Medical College, Dr Alpana Agrawal, Medical Superintendent, Santosh Hospital. The Chairpersons were Dr Ashok Kumar, Professor and Head, Department of Medicine, Dr Ashutosh Rawat, Professor and Head, Department of Microbiology, Dr Malay Bajpai, Professor and Head, Department of Pathology. Finally, Dr Malay Bajpai, Professor and Head, Pathology Department, delivered the vote of thanks. It was an excellent academic activity, and we hope to have such activities in future to achieve the ultimate goal of patient care.

Tangible Outcomes

To highlight the significance of blood donation and mark the contribution of voluntary blood donors.

Respected Madam/Sir,

The event report is for your kind information, review, records, and further use in press-releases/promotions/other purposes appropriately.

SANTOSH UNIVERSITY

Declared under section 3 of the UGC Act, 1956
NAAC Accredited

REPORT ON SWACCH BHARAT ABHIYAN – ‘Swachhta hi Seva’

On 2nd of October 2018, Gandhi Jayanti ‘The Swachh Bharat Abhiyan’ turned 4 i.e., 4 years have passed since our Prime minister Shri Narendra Modi started the clean India mission. Now this mission has become very popular among the masses.

In pursuance of the vision of Swachh Bharat, SANTOSH MEDICAL COLLEGE launched a special cleanliness drive and constituted a team to coordinate cleanliness activities in several primary government schools nearby.

We are very thankful to the Pradhan of village Sainthali - Varun ji , Principal of the primary school for allowing and equalling participating in the campaign which took place on 24th of September.

A brief report of the campaign is mentioned below -

- 1) Firstly we introduced ourselves to the school after which the purpose of visit was told. The pledge was taken with the students.

- 2) The students were taught about the pros and various steps of washing hand. Posters for the steps of washing hand was also distributed among the students. Few students were called and asked to mimic the steps demonstrated. They were also told about the various diseases which can be

prevented just by washing our hands before meal.

- 3) They were told about the waste segregation methods they can practice. Toffees were distributed among the students who actively participated in the various activities going on.

- 4) We performed nukkad natak to make a good communication with the students and in the mean time teach the various aspects of cleanliness to them.

- 5) Last but not the least a rally was organized through the village to make the people aware of Swacch Bharat Abhiyan. We took the students out to take a round of the village with posters in hand and reciting slogans relevant to the programme, so that people of the village become aware of the drive that is going on and free themselves of the diseases transmitted through poor hygiene and irrational waste disposal.

Report

Sensitization and Awareness Session on Adverse Drug Reaction (ADR) reporting – at Urban PHC, Bulandshahar Industrial Area, Ghaziabad. Santosh Medical College and Hospitals Ghaziabad was organized on 28th March 2016. Santosh Medical College is one of the AMC (Adverse drug reaction monitoring Center) with PvPI (Pharmacovigilance Program of India)- IPC working under the Ministry of Health and Family Welfare, Govt. Of India. Department of Pharmacology of University working dedicatedly for patient's safety and wellbeing under the umbrella of PvPI-IPC.

Dr. Jyotsna Sharma (Assistant Professor, Pharmacology) being a Deputy Coordinator of AMC has always been quite active and spreads awareness about reporting of ADRs in view of patients' safety. A Sensitization and awareness session on Adverse Drug Reaction (ADR) reporting was conducted at UPHC, Bulandshahar Industrial Area, Ghaziabad, UP. We started around 8:30 a.m. with our 12 students from the college and reached at urban health care Centre Bulandshahar industrial area around 9:00 a.m. First of all, all the health care workers were sensitized related to adverse drug reactions and their reporting later on awareness and sensitization of patients was also done by the team. We got a good response from the health care workers working at PHC and even from the patients. We started from there around 1:00 p.m.

PARTICIPANTS: Student Volunteers and Faculty Members of the College.

DURATION: 100 Hours conducting Swachata-related activities in 4 villages during 1st May to 31st July, 2018.

VILLAGES SELECTED:

- 1) Asalat Nagar Village, Muradnagar Block, Ghaziabad, Uttar Pradesh.
- 2) Jalalpur Raghunathpur Village, Muradnagar Block, Ghaziabad, Uttar Pradesh.
- 3) Shobhapur Village, Muradnagar Block, Ghaziabad, Uttar Pradesh.
- 4) Purana Haibatpur, Tigri Village, Ghaziabad, Uttar Pradesh.

PLAN OF ACTION:

In pursuant to the vision of Swachh Bharat Abhiyaan, Santosh Medical College, Ghaziabad launched the special cleanliness drive with regular monitoring and coordinating cleanliness activities in the selected areas.

The broad plan of action was:

1. Generating mass awareness on cleanliness and hygiene by holding Regular '*Sensitization Programmes*' on 'Swachh Bharat Abhiyaan' so as to motivate them to contribute to this Campaign in a proactive manner.
2. Activities under 'Swachh Bharat Abhiyaan' will be a key component of all the community work being done by the student volunteers of the college.
3. Students and Teachers will regularly participate in the special cleanliness drive on continuing basis.
4. Events such as poster competitions, quizzes, debates, painting competitions, essay writing, poetry writing/ reciting, speeches, skits on 'Swachh Bharat' will be organized in the college.
5. Rallies on themes connected with 'Swachh Bharat Abhiyan' will be conducted to create mass awareness on such issues.
6. Removal of all kind of waste material like plastic wastes, polythene wastes, unusable non-biodegradable material etc. from the houses, weeding out the areas.
7. Administration of the mass pledge to maintain cleanliness of the village and its surrounding areas on regular basis.
8. Conducting workshop on the reuse and recycle of the waste material.
9. Constitution of the student sub-committees to conduct the regular inspection of the areas selected.

- Name of Pradhan - Vinod Pradhan.
- Main Village Population - 2000 people.
- Number of Participants - 10.
- Name of Participants -
- Abhilasha mehta - Group Leader,
- Harsh Talwar,
- Mohd. Adeep Faizy,
- Parul Singh,
- Sharmeen Hafeez,
- Trishla Parihar,
- Shubhi Jain,
- Kanupriya Mathur,
- Anibha Yadav.
- Harshit Chauhan.

Group II

- Name of the village adopted - Jalalpur Raghunathpur Village.
- Name of Pradhan - Sunita Devi.
- Population - 2000-2500 people.
- Number of Participants - 10.
- Name of Participants -
- Aishwarya - Group Leader,
- Eshan Kumar Dhan,
- Gaurav Khurana,
- Prakhar Bhardwaj,
- Eva Gupta,
- Anjali Mamgain,
- Nandini Sharma,
- Palak Aggarwal,
- Sunena Gupta,
- Arunima Gupta.

Group III

- Name of the village - Shobhapur Village.
- Name of Pradhan - Vinod Pradhan.
- Population - 1100-1200 people.
- Number of Participants - 9
- Name of the Participants -
- Anjali Ojha - Group leader,

- Shubham Varshney,
- Rohit Tanwar,
- Sadhna Rana,
- Suman Rai,
- Rashmi Gupta,
- Anukriti Mamgain,
- Nandini Yadav,
- Shivani Vashishta.

Group IV

- Name of the village adopted - Purana Haibatpur, Tigri Village.
- Name of Pradhan - Sandhya Sharma.
- Main Village Population - 4000-5000 people.
- Number of Participants - 7.
- Name of Participants -
- Smriti Paliwal - Group Leader,
- Shweta Bhadana,
- Tripti Verma,
- Yash Malhotra,
- Dipesh Grover,
- Mohit Sharma,
- Shabiba Jamil.
